RUSSIAN TROOPS ARE ADVANCING

Germany Likely to Be Obliged to Withdraw Part of Western Forces to Protect Her Eastern Frontier.

BIG EMPIRE ATTACKS BOTH NEIGHBORS

Official News Bureau at London Issues Warning in Regard to Rumors—Attitude of Japan and Italy.

LONDON, Aug. 14 (11:25 p.m.).—Pushing forward by mere weight of numbers, the German advance across Belgium is slowly but steadily proceeding, and must soon come in contact with the allied armies, which, according to an official communication from Brussels tonight, are in battle order at some point unnamed.

The Belgians in the outpost skirmishing are said to have inflicted severe checks on the German forces; but on the whole the German wing has kept on its way and has reached a line from north of Namur at Haelen, which suggests that the first big battle will be fought somewhere between Louvain and Diest, where the allies probably will try to block the roads to Brussels and Antwerp and prevent the German attempt to make North Belgium untenable.

Farther south French troops have entered Belgium through Charleroi, going to the relief of their neighbors and to aid in any attack directed toward Namur, while in the East the French are reported to have secured possession of ridges in the Vosges mountains and to hold the passes of La Bonhomme and Saint Marie au Mines, through which important roads pass, and which, it is asserted, gives them great strategic advantage.

The Germans are again hammering away at the Liege forts, and, according to their accounts, one of the forts—Pontisse—has fallen. This, however, is denied by the Belgians, who tell of another slaughter of invaders who, they say, attempted to rush the fortress.

Russians Moving

Military strategists are of the opinion that the Germans are meeting with delay which they did not count on, and that every day the Belgians keep them fighting means an increase of Russian forces on their Eastern frontier. They express the belief that unless Germany soon disposes of Belgium and France, she will have to choose between withdrawing a great part of her army from the West or leaving the road to Berlin open to the forces of the Emperor of Russia.

Already hordes of Russians are reported to be marching towards Prussia on the one side and to Austrian Galicia on the other. In the latter country they are said to be in the vicinity of the Styr River, which is on the route to Lemberg.

The official news bureau of the War Office and Admiralty has issued a warning to the public against placing the slightest reliance in the many rumors current daily regarding victories or defeats or concerning the arrival of wounded soldiers or disabled ships of Great Britain.

"These are, without exception, baseless," the warning says.

Japan and Italy

The probable attitude of Japan and Italy is still the subject of much speculation. Conversations are going on continually between Japan and Great Britain concerning Japan's duty under her alliance with Great Britain, and the part she will be permitted to take in the peace conferences after the war. There are persistent rumors that Italy will join the Triple Entente. The Italian ambassador is a frequent caller at the Foreign Office.

If it should prove correct that Turkey has purchased the German cruisers Goeben and Breslau, war between Greece and Turkey is said to be likely, for Greece sees in the move an attempt on the part of Turkey to recover some of her islands taken in the last war. Russia, to meet such a contingency, would send troops to the Roumanian frontier.

The British Government has called for bids for an issue of $75,000,000 of treasury bills.

WHERE ALIENS MAY LAND

Washington Government Furnished With List of Approved Ports—Restrictions at Others

WASHINGTON, Aug. 14.—Charge Barclay, of the British Embassy, tonight submitted the following memorandum to Secretary Bryan:

"The following is a list of approved ports in the British Isles: Dundee, Aberdeen, West Hartlepool, Hull, London, Folkestone, Falmouth, Bristol, Holyhead, Liverpool, Greenock.

"All other ports are prohibited ports. Aliens, subjects or citizens of friendly powers, can land or embark at the approved ports with the permission of the alien office at the port; they can land or embark at the prohibited ports only with the permission of the Secretary of State for Home Affairs in London. Aliens, subjects of the enemy powers, cannot land or embark at the prohibited ports; they can land or embark at the approved ports only with the permission of the Secretary of State. Permission to land by the Secretary of State in any case is to be obtained at arrival. Aliens desiring permission from the Secretary to embark should furnish proper passports of identity.

"The Secretary of State desires to restrict landing and embarkation of all aliens to the approved ports as much as possible.

"Any port, of course, may be closed altogether to traffic if the naval authorities consider it necessary.

AUSTRIA'S ACCUSATION

Government Note Says Great Britain's Reasons for Declaring War Are "Deliberate Lies"

LONDON, Aug. 14.—The Exchange Telegraph Company's Rome correspondent sends an outline of the official announcement from Vienna to Rome, notifying the Italian Government of Great Britain's declaration of war against Austria. The note says:

"Austria had declared war against Servia, an independent state, and for a cause which did not affect international politics and cannot be considered as the cause for the present European war."

Great Britain's note to Austria, the statement continues, fails to point out the fact that Austria was obliged to declare war against Russia, because Russia's mobilization threatened Austria. It is denied that Austria sent troops to the frontier, a fact, the statement says, which France already knew from the Austrian ambassador.

"It is evident," the note says in conclusion, "that Great Britain's alleged reasons for declaring war not only are arbitrary alterations of facts, but deliberate lies. England has thus lightly broken her traditional friendship with Austria in order to support France, but nevertheless, she will not find Austria unprepared."

Italian Refugees

ROME, Aug 14.—Italians coming from the countries at war continue to pour into Italy by thousands. Most of them are in distress.

ORGANIZATION OF RELIEF FORCE

Committee Formed at Ottawa Meeting to Direct Efforts for Welfare of Canadians in Field.

OTTAWA, Aug. 14.—The Canadian relief committtee was formed tonight at Ottawa at a meeting held at Government House. The meeting was a most important one, as it brought together representatives of the principal organizations in Canada whose efforts in the past have been in behalf of humanity, and selected a central organization for supplying auxiliary aid to the sick and wounded in the field, at home or abroad. Col. G. Carleton Jones, Director-General of Medical services of the Canadian Militia, presided.

The following duties were given the various organizations:

Canadian Red Cross Society, the collection of funds and material, together with the distribution of same.

St. John's Ambulance Brigade, the formation of volunteer first aid and the provision of the personnel of the A. M. C.

The St. John's Ambulance Associatoin, the formation of voluntary first aid centres and instruction generally in first aid to the injured and transportation.

To more properly direct the efforts of the organizations, the following joint standing committee was elected: Chairman, Col. G. Carleton Jones; secretary, Major Birdwhistle, Ottawa; Canadian Red Cross, Sir John Morrison Gibson, Noel Marshall and Col. Grierson; St. John's Ambulance Association, Lt. Hodgetts and Dr. F. Montizambert; St. John's Ambulance Brigade, Col. Sir Henry M. Pellatt, C. J. Copp, M. D., and Captain R. H. Pellatt. Sir Edward Morthington said he had been asked by the Governor-General to say how much he was in sympathy with the work and wished it every success.

All supplies are to be sent to the local branch of the Red Cross Society for distribution under the direction of the Central Red Cross Organization.

The Patriotic Fund

MONTREAL, Aug. 14.—After a meeting of the patriotic fund committee this afternoon, Mr. H. B. Ames, M. P., received a telegram from the Governor-General as follows: "The Canadian national fund will be made wide enough to cover dependents of French, Belgian, Servian and Russian reservists who have joined the colors from Canada. I wish your meeting every success. I know I can depend on your co-operation.

(Signed) "ARTHUR"

No More "Kraft"

LONDON, Aug. 14.—H. G. Wells, novelist, in an article in The London Daily News of today, says: "This war is not going to end in diplomacy; it is going to end diplomacy. It is quite a different sort of war from any that have gone before. At the end there will be no conference of Europe on the old lines, but a conference of the world, and it will make a peace that will put an end to Kraft, and the spirit of Kraft, and Kraftism, and the private armament of the firms behind Kraft, forevermore." The Daily News bitterly fought the war until a week ago.

Free Coal Supply

LONDON, Aug. 14.—From Capetown comes a resolution that "in view of South Africa's small naval contribution to the Mother Country, the Union Government shall be asked to contribute a free coal supply to British warships in South African ports during the crisis."

THROUGH CANAL TODAY

Steamship Ancon, Fully Loaded Will Make Voyage From Ocean to Ocean

PANAMA, Aug. 14.—The canal was the scene of activity tonight in its preparation for the opening tomorrow.

On board the steamship Ancon officers and men were setting everything in shape for her start early in the morning on the first voyage of a big ocean-going steamship through the new highway.

The Ancon, 10,000 tons register, owned by the United States War Department, and leased to the Panama Railway for the New York-Colon trade, has not discharged her cargo, as it is planned to have her make the journey fully loaded.

GERMAN PLANS ARE SURMISED

Route to French Border Is Sought Through Southern Part of Province of Brabant in Belgium.

FORTS AT LIEGE HOLD ENEMY OFF

French and Belgian Forces Unified by Interchange of Officers—Decisive Events Are Imminent.

BRUSSELS (via Paris), August 14.—Technical observers of the military operations of the last two days declare their opinion is confirmed that the German army is seeking to reach the French border through the southern part of the Belgian province of Brabant, crossing that section where the plain of Waterloo is situated and forcing the Belgian army to retreat to Antwerp.

Officers Interchanged

PARIS, Aug. 14.—It was officially announced this evening that unification of the French and Belgian forces had been established by an interchange of officers.

Interesting documents were found on the bodies of some Germans. Letters and notes in their clothing told of suffering caused by the terrible heat and the scarcity of food.

A corporal's letter, taken from a prisoner captured by peasants at Pont a Mousson, in the department of Meurthe-et-Moselle, said: "At last the question is settled. We have the war which has been so greatly desired."

Forts Still Hold Out

LONDON, Aug. 14.—A dispatch to the Exchange Telegraph Company from its Brussels correspondent says that Fort Pontisse and its neighboring forts to the west of the city of Liege are resisting extremely well the fierce German attack. The Germans have been trying to rush Pontisse by main force, no longer relying upon siege artillery. They have been unable, however, to get beyond the glacis of the fort, where they have been mowed down by the fire of the defenders.

The besiegers are provided with bundles of wood and mattresses with which to fill up the ditches about the fort, but they have been unable to make use of them. Fort Liers, which is just west of Pontisse, has lent efficacious aid to the latter fortification.

The object of the Germans obviously is to seize the forts on the left bank of the Meuse, which, in the hands of the Belgians, would be terrible weapons against the invading forces should the Belgian main army march towards Liege.

On the other hand, these forts in the hands of the Germans would serve as a base for action directed against the Belgian centre and for defence against the Belgian attacks.

Brussels Excited by Rumor

LONDON, Aug. 15.—A dispatch to Reuter's Agency from its Brussels correspondent says:

Continued on Page 4, Col. 4

PRUSSIAN ARMY MUCH PUZZLED

Success of Belgian Troops in Minor Battles Great Surprise to Enemy—French Artillery Superior.

LONDON, Aug. 14.—The Morning Post correspondent with the Belgian army sends the following: "The success of the Belgians has been astonishing. Everywhere along the line of outposts the Germans meet with baffling checks. Like an angry dog faced by a porcupine, the vaunted Prussian army stands puzzled.

"I do not wish to exaggerate or to pretend that the Belgians are winning a series of important battles. Their successes so far are intrinsically small, but they are making a habit of success. All dread of the Prussians is gone, and that is a most valuable gain.

"Yesterday I walked some distance with a soldier who was on his way from Brussels to one of the Liege forts. Clearly, therefore, the Liege forts are not closely invested, when individual soldiers can come and go.

"The Belgians jokingly wonder when the German military skill will begin to show itself. The audacity of the Uhlan raids seems nothing more than the audacity of bewilderment, like men who are pressed from behind. In contact with the Belgian cavalry the Uhlans show inferiority. Moreover, neither the artillery nor infantry has shown brilliancy.

"As an actual fact the attitude of the Germans today is almost defensive; certainly it is not offensive in any spirited sense."

German Soldiers Sacrificed

BRUSSELS, Aug. 11.—12:25 a. m.—The German casualties in the engagement at Haelen on Wednesday were 3,000 dead and wounded. The German officers apparently sacrificed their men without any scruples. During the fight the Germans were obliged to pass two bridges over the Gethe and Velpe Rivers, where they were exposed to a heavy fire. The retiring Germans left piles of dead and wounded at these bridges.

The same carnage occurred on the road from Threck to Haelen, where the German cavalry, exposed to the gatling guns of the Belgians, fell in droves.

Continued on Page 2, Col. 2

JAPAN EXPECTED TO DECLARE WAR

LONDON, Aug. 15.—The Daily Telegraph learns from a diplomatic correspondent that Japan intends to carry out to the full extent the Anglo-Japanese treaty. The correspondent says the Japanese navy has put to sea and will co-operate with the British fleet in taking effective action against the enemy's ships in the Pacific.

PARIS, Aug. 14.—The Journal tonight states it is absolutely certain that Japan will declare war against Germany.

TASK NOT SO EASY

German Minister Thought His Country's Army Would Reach Brussels in One Day

BRUSSELS, Aug. 14. (Via London)—The Belgians are repeating with great gutso a story to the effect that when a member of the diplomatic corps at Brussels expressed surprise that the German Minister had not left the Belgian capital promptly after the declaration of war, the Minister replied: "It is not worth while. Tomorrow the Germans will be here."

The Belgians have pointed out that ten days have elapsed since the alleged conversation took place.

MAKES SPEECH TO VOLUNTEERS

Minister of Militia Addresses Gathering of Montreal Soldiers—Twenty More Contingents If Needed.

MONTREAL, Aug. 14.—Col. Sam Hughes, Minister of Militia, made one of his characteristic speeches here tonight on the Champ de Mars after he had reviewed 5,000 volunteers of the Montreal garrison. The parade was one of the most inspiring turnous ever witnessed in this city. Many thousands of people cheered as the men passed, and manifested such interest in them as could be expected only during war times.

Col. Denison was the officer in command. The patriotism was not dampened by a heavy thunderstorm which came on just as the soldiers were formed up on the Champ de Mars, though the soldiers and spectators were drenched.

"If Germany succeeds in this war," said Colonel Hughes, in addressing the troops, "Belgium and Holland, and probably Denmark, will be annexed. Britain will become a second-rate power; France will be wiped off the map, and we shall, in all probability, become subjects of that nation which denies the people that measure of liberty which they should enjoy. But it is not the intention of Canadians that we should become slaves. We all know that our liberties are at stake, and to a man we Canadians are ready to do our duty.

Only Volunteers

"I called for volunteers—volunteers, mark you. Not a man will be accepted or leave Canada on this service but of his own accord and free will, and, if I know it, not a married man shall go but with the consent of his wife and family. And when the Canadians meet the enemy—as they are going to do—and vanquish them—as they are going to do—they are going to do it fighting as free men, as free subjects of His Majesty."

Colonel Hughes intimated that twenty more Canadian contingents would go to fight for the Empire if they should be needed. Of course, he did not expect this.

Mr. H. B. Ames spoke briefly, assuring the volunteers that those they were leaving behind would be adequately cared for.

There are now sixty-six nurses and twenty-one doctors who have volunteered in this city for service at the front, and all of their names have been forwarded to Ottawa for approval.

Among the women recruits is Miss Bredna Williams-Taylor, daughter of Sir Frederick and Lady Williams-Taylor, who is offering her services to the volunteer detachment and is now attending ambulance classes to obtain the necessary certificate.

CUSTOMS WARNING

Proclamation Issued at Ottawa Forbids Receipt of Goods From Austria and Germany

OTTAWA, Aug. 14.—A proclamation has been issued by the Dominion Department of Customs warning persons against receiving goods from Austria or Germany, and exchange customs officers are told to hold all goods which left either of these countries on or after August 5, the day after the declaration of war.

The proclamation warns all persons carrying on business in Canada not to supply or obtain from Germany or Austria any goods or merchandise, or to supply or obtain from any person resident or carrying on business in these countries any merchandise for or by way of transmission to or from the said countries, nor to trade in or carry any goods or wares destined for or coming from Germany or Austria.

It is pointed out that the chances of any goods arriving or being despatched to hostile countries are very remote in view of the announcement that all German and Austrian overseas commerce has been stopped.

German Steamship at Java

SYDNEY, N. S. W., Aug. 14.—The North German Lloyd liner Roon, overdue at Freemantle, is reported as having reached Java. Her passengers are being transshipped and will come to Sydney on a Dutch steamer. The chief ports of New Zealand being unlighted, vessels cannot enter at night. They can, however, leave at any time at their own risk.

TURKEY LIKELY TO HAVE WAR

Purchase of Two German Cruisers Now in Dardanelles Regarded by Powers as Act of Hostility.

DECEPTIVE COURSE FOLLOWED BY TURKS

Britain, France and Russia Send Sharp Notes to Porte—Greece Preparing to Take Action.

PARIS, Aug. 14.—Advices received here say the German cruisers Goeben and Breslau are still anchored in the Dardanelles. The Turks are said to be supplying them with coal, and Turkish torpedo boats to be scouting and reporting the results of their expeditions to the German commanders.

A dispatch received here tonight said that the Germans had removed forcibly the wireless plant from the steamship Saghalien, of the Messagieres Maritimes, a Franch ship, lying at Nadorra, a litte island off the coast of Anotolia.

Only a Blind

ROME (via Paris), Aug. 14.—Advices received here from Constantinople are to the effect that the officers and crew of the German cruisers Goeben and Breslau disembarked, apparently with the object of returning home, but that in reality only the unessential men were replaced by Turks. All the skilled German officers, engineers, mechanics and sailors, it is said, remained aboard the two cruisers for the purpose of training the Turks.

Greek Conference

LONDON, Aug. 14.—A despatch to the exchange telegraph Company from Athens says that King Constantine, at the suggestion of the Premier and Minister of War, M. Venizelos, has called a conference of all former premiers and party leaders to determine the attitude of Greece in the face of Turkey's purchase of the cruisers Goeben and Breslay from Germany.

Sharp Demand

LONDON, Aug. 14. (2:53 p.m.)—Great Britain, France and Russia have sent a sharp demand to Turkey fo. the immediate repatriation of the officers and crews of the German cruisers Goeben and Breslau.

According to a dispatch from Constantinople to the Exchange Telegraph Company, Turkey has paid $20,000,000 for the German cruisers Goeben and Breslau.

PARIS, Aug. 14.—The allied Governments opposed to Germany and Austria-Hungary have agreed to bring Turkey to a realization of its obligations as a neutral power in connection with her purchase from Germany of the cruisers Goeben and Breslau.

Italy Displeased

LONDON, Aug. 14.—A dispatch to the Daily News from Rome says: "Turkey's purchase of the German cruisers Breslau and Goeben has made an unpleasant impression here. Italy prob-

WILL GIVE AID TO CANADIANS

Organization of Canadian Residents of London to Look After Comfort of Men Who Go on Service.

LONDON, Aug. 14. — A crowded meeting of Canadians, both permanently and temporarily resident here, was held today under the presidency of Hon. George H. Perley, Acting High Commissioner of Canada, in the Canadian room at Westminster, where fifty years ago the Canadian confederation was consummated. The object of today's meeting was to form an organization to attend to the comfort of the Canadian troops who will serve in Europe. Nearly every Canadian now in London attempted to get into the meeting room, which would hardly have been large enough had it been double its size.

The speeches were brief and eminently practical, and the business was dispatched with the closest eye to efficiency. It was agreed to call the organization the Canadian War Contingent Association.

Canada and Empire

"The British Empire is now engaged in the greatest war in the history of the world," declared Hon. Mr. Perley. "It is going on simply to protect sacred treaties and to protect the rights of ourselves and others. I think you will all agree that the Government of the day has handled the matter in a masterly fashion. When the British Empire is at war, Canada is at war. The principle is accepted in Canada on both sides of politics."

A general committee was formed, which included every Canadian now known to be in London. The executive committee consists of Sir Max Aitken, Allen Baker, Harry Britton, McLaren Brown, J. G. Collmer, E. T. Galt, Earl Grey, John Howard, Dr. Parkin, Dr. Pelletier, Richard Reid, Hon. J. H. Turner, and Mesdames Hugh Allen, D. Armour, McLaren Brown, Morley, Pelletier, Perley and Jones, the Misses Galt and Rodmayne, Lady Strathcona and Lady Kirkpatrick. Sir William Osler and Donald Armour were appointed medical advisers; Hon. G. H.

RAID BY FOREIGNER

Attempt Made to Burn Military Stores Building at London, Ont.—One Guard Wounded

LONDON, Aug. 14.—A deliberate attempt was made at 2 o'clock this morning to burn the stores building of the Canadian Ordnance Corps, just south of the Wolseley Barracks. Private Allen and Staff-Sergeant Spicer, of the corps, have been sleeping in a tent on the property for the past two weeks. Allen noticed the shipping department of the building ablaze and made for the scene with his rifle in his hand.

An intruder, believed to be a foreigner and described as of slovenly appearnce and forty years of age, called upon Allen to stop, and when the latter kept on, fired at him, the bullet going through the private's left hand.

The man escaped over a fence, and is still at large, despite a thorough search of the district now in progress by members of the corps, six members of the local police and a Canadian Pacific Railway detective.

Wireless in States

WASHINGTON, Aug. 14.—The final decision as to the policy of the Washington Government towards the extension of censorship recently applied on wireless stations to cable offices has been deferred several days. Representatives of some of the commercial companies interested, it is understood, have asked for an opportunity to be heard, and it is expected their counsel will confer with Attorney-General McReynolds on Monday as to legal questions involved.

PREPARING CAMP AT VALCARTIER

Army Service Corps Already at Work and Infantry May Arrive by Monday—Second Force Talked Of.

OTTAWA, Aug. 14.—The military branch of the Militia Department desires to emphasize the fact that, while infantry units will proceed to Valcartier camp to be equipped for war, the artillery units will remain at local headquarters until organized up to war strength and fully equipped. This course has been adopted because the artillery is a more technical branch of the service, more difficult to equip, and, if moved to Valcartier before fully organized, much confusion would be likely to result. Owing to an error in sending out an order stating that gunners must be five feet seven inches, and not five feet five inches, as intended, much first-class material has been rejected. The Hamilton batteries alone rejected fifty men. Volunteers less than five feet seven who have been rejected will be given an opportunity to rejoin the artillery force.

Army Service Corps in Camp

The first military unit to arrive at Valcartier is the Army Service Corps, whose duty it is to prepare the camp, bakeries, etc. Five hundred of these are now in camp.

By Monday or Tuesday the infantry corps should commence to arrive in considerable numbers. No announcement has yet been made as to the officers who will command the Canadian troops, but it was intimated today that the list will not be long delayed. Col. Sam Hughes, accompanied by Col. Williams, adjutant-general, went to Montreal this afternoon to witness the parade of the volunteers and other city regiments.

Thirty railway traffic experts, representing all the railways, were in Ottawa today and had a conference with Col. Hughes and Major-General Macdonald, quartermaster-general. Plans of mobilization were discussed.

The suggestion was made by Lord Roberts that the Overseas Dominions might contribute a force of Imperial light horse, and is well received in military circles. It is pointed out, however, that were such a regiment organized in Canada it would not constitute a complete military unit, and could not be fitted in with any other force.

It is believed, however, that Canada could, without any trouble, contribute a mounted infantry brigade, which would include three mounted regiments, a battery of horse artillery and units of other arms of the service, making up a compact and complete fighting force of

Continued on Page 2, Col. 4

SHIPS FROM DENMARK

Exporters and Ship Owners Conclude That Route to Britain Is Safe

LONDON, Aug. 14.—The Daily News correspondent, wiring from Copenhagen, says: "Danish exporters and ship owners sent all food steamers off for England last night. In spite of the warning of the English Admiralty as to German mines in the North Sea, the captains and crews declared their willingness to sail.

"Bills will be placed before Parliament today for the establishment of a moratorium and the issue of one and two kronin bank notes as substitutes for silver money.

"The Dowager Queen Louise has gathered a great number of society ladies for daily work at the palace to assist in the red cross supply."

BELGIUM FEELS WAR'S SCOURGE

Large Part of Little Kingdom Laid Waste by German Invasion—Inhuman Conduct of Invaders.

SCENES OF RUIN IN CITY OF LIEGE

Poor People Left Without Homes or Means of Support—Many Wounded Are Conveyed to Brussels.

BRUSSELS, Aug. 14.—(By Dr. E. J. Dilion, special correspondent of The Daily Telegraph). Two hours' motor ride from Belgium's capital takes one to a world of grim realities and sinister contrasts.

Over the country between St. Trond and Tirlemont, but yesterday rich in cornfields and carefully tended gardens, the withering breath of war has passed. Approaching the village of Dormael, unmistakable tokens of desolation meet the view, shattered windows and domestic utensils flung among the cabbages in the gardens. The children prattle in subdued tones. There a mother is leading two or three orphaned little ones from the still smoking ruins of their home; everywhere is the loathsome squalor of war.

Prussian Inhumanity

Inhuman haste appears to possess the Prussian invaders. Belgians who dealt with them at close quarters at Dormael declare the Uhlans fought with the bitterness of personal fury. Many corpses have their hands raised and their elbows are on a level with their shoulders. Horrid wounds were inflicted with weapons fired at a distance of a couple of inches from the mouth or breast.

The Uhlans seized two million francs belonging to the National Bank of Belgium at Hasselt. The bank being a private concern, this act of piracy constitutes a violation of the fifty-third article of the laws and customs of warfare drawn up in 1870. Frederick, afterwards Emperor, forbade the seizure of specie of the Bank of France on condition that it be not employed to sustain resistance to the German army. Some funds of the Bank of France at Strassburg, at first sequestered by the Germans, were restored as private property. Today the Prussian will is the sole law in Belgium. Night brings no rest. At the outposts the moon was shining last night, while from the woods in the distance sudden flashes showed the troops vomiting death's fire on the enemy, while on our flanks invisible batteries were continually spitting destructive shrapnel against the purple sky. One could see masses of soldiers—a vision of hell which only Dante could describe. The bullets were whistling through the trenches, cracking in the trees or clattering with muffled thud in the earth.

The Belgian provision for the wounded was efficient and adequate. So far the maimed warriors, homeless families, destitute women and orphaned children who are receiving attention remind one only of the harvest of misery yet to be garnered.

Liege in Sad Plight

LONDON, Aug. 15.—The Daily Telegraph's correspondent at Brussels says that a refugee from Liege told the following story:

"Thirty thousand inhabitants fled when the shells began to fall. The remaining inhabitants buried themselves in cellars. Havoc marks the city everywhere. Gaping bridges, fallen roofs and smouldering ruins are seen on all sides. There is no street where troops have

CONCENTRATION CAMP

Toronto Contingent of Canadian Service Force Will Gather at Long Branch Rifle Ranges

TORONTO, Aug. 14.—The concentration camp for the Toronto contribution toward the Canadian contingent for active service in Europe will open on Monday at the Long Branch rifle ranges. The Grenadiers and 48th Highlanders will occupy the camp, and possibly the Queen's Own Rifles, though that is uncertain. Col. J. A. Currie, M. P., of the Highlanders, will be in command. There was a parade tonight of the city regiments, including recruits. The roll of the Queen's Own Rifles was 1,200 men, and that of the Highlanders 802.

A large sum was collected today towards the proposed hospital ship. It is thought that the women of Toronto have collected over $20,000. The final report of the contribution will not be known until tomorrow.

Scores of motor cars, decorated with flags, were stationed at almost every street corner, and their occupants made a thorough canvass of the city. Few people were seen on the streets without a flag. On Sunday night the Royal Canadian Dragoons, 100 strong, will entrain for Valcartier.

RUSSIAN TROOPS ARE ADVANCING

Germany Likely to Be Obliged to Withdraw Part of Western Forces to Protect Her Eastern Frontier.

BIG EMPIRE ATTACKS BOTH NEIGHBORS

Official News Bureau at London Issues Warning in Regard to Rumors—Attitude of Japan and Italy.

LONDON, Aug. 14 (11:25 p.m.).—Pushing forward by mere weight of numbers, the German advance across Belgium is slowly but steadily proceeding, and must soon come in contact with the allied armies, which, according to an official communication from Brussels tonight, are in battle order at some point unnamed.

The Belgians in the outpost skirmishing are said to have inflicted severe checks on the German forces; but on the whole the German wing has kept on its way and has reached a line from north of Namur at Haelen, which suggests that the first big battle will be fought somewhere between Louvain and Diest, where the allies probably will try to block the roads to Brussels and Antwerp and prevent the German attempt to make North Belgium untenable.

Farther south French troops have entered Belgium through Charleroi, going to the relief of their neighbors and to aid in any attack directed toward Namur, while in the East the French are reported to have secured possession of ridges in the Vosges mountains and to hold the passes of La Bonhomme and Saint Marie au Mines, through which important roads pass, and which, it is asserted, gives them great strategic advantage.

The Germans are again hammering away at the Liege forts, and, according to their accounts, one of the forts—Pontisse—has fallen. This, however, is denied by the Belgians, who tell of another slaughter of invaders who, they say, attempted to rush the fortress.

Russians Moving

Military strategists are of the opinion that the Germans are meeting with delay which they did not count on, and that every day the Belgians keep them fighting means an increase of Russian forces on their Eastern frontier. They express the belief that unless Germany soon disposes of Belgium and France, she will have to choose between withdrawing a great part of her army from the West or leaving the road to Berlin open to the forces of the Emperor of Russia.

Already hordes of Russians are reported to be marching towards Prussia on the one side and to Austrian Galicia on the other. In the latter country they are said to be in the vicinity of the Styr River, which is on the route to Lemberg.

The official news bureau of the War Office and Admiralty has issued a warning to the public against placing the slightest reliance in the many rumors current daily regarding victories or defeats or concerning the arrival of wounded soldiers or disabled ships of Great Britain.

"These are, without exception, baseless," the warning says.

Japan and Italy

The probable attitude of Japan and Italy is still the subject of much speculation. Conversations are going on continually between Japan and Great Britain concerning Japan's duty under her alliance with Great Britain, and the part she will be permitted to take in the peace conferences after the war. There are persistent rumors that Italy will join the Triple Entente. The Italian ambassador is a frequent caller at the Foreign Office.

If it should prove correct that Turkey has purchased the German cruisers Goeben and Breslau, war between Greece and Turkey is said to be likely, for Greece sees in the move an attempt on the part of Turkey to recover some of her islands taken in the last war. Russia, to meet such a contingency, would send troops to the Roumanian frontier.

The British Government has called for bids for an issue of $75,000,000 of treasury bills.

WHERE ALIENS MAY LAND

Washington Government Furnished With List of Approved Ports—Restrictions at Others

WASHINGTON, Aug. 14.—Charge Barclay, of the British Embassy, tonight submitted the following memorandum to Secretary Bryan:

"The following is a list of approved ports in the British Isles: Dundee, Aberdeen, West Hartlepool, Hull, London, Folkestone, Falmouth, Bristol, Holyhead, Liverpool, Greenock.

"All other ports are prohibited ports. Aliens, subjects or citizens of friendly powers, can land or embark at the approved ports with the permission of the alien office at the port; they can land or embark at the prohibited ports only with the permission of the Secretary of State for Home Affairs in London. Aliens, subjects of the enemy powers, cannot land or embark at the prohibited ports; they can land or embark at the approved ports only with the permission of the Secretary of State. Permission to land by the Secretary of State in any case is to be obtained at arrival. Aliens desiring permission from the Secretary to embark should furnish proper passports of identity.

"The Secretary of State desires to restrict landing and embarkation of all aliens to the approved ports as much as possible.

"Any port, of course, may be closed altogether to traffic if the naval authorities consider it necessary.

AUSTRIA'S ACCUSATION

Government Note Says Great Britain's Reasons for Declaring War Are "Deliberate Lies"

LONDON, Aug. 14.—The Exchange Telegraph Company's Rome correspondent sends an outline of the official announcement from Vienna to Rome, notifying the Italian Government of Great Britain's declaration of war against Austria. The note says:

"Austria had declared war against Servia, an independent state, and for a cause which did not affect international politics and cannot be considered as the cause for the present European war."

Great Britain's note to Austria, the statement continues, fails to point out the fact that Austria was obliged to declare war against Russia, because Russia's mobilization threatened Austria. It is denied that Austria sent troops to the frontier, a fact, the statement says, which France already knew from the Austrian ambassador.

"It is evident," the note says in conclusion, "that Great Britain's alleged reasons for declaring war not only are arbitrary alterations of facts, but deliberate lies. England has thus lightly broken her traditional friendship with Austria in order to support France, but nevertheless, she will not find Austria unprepared."

Italian Refugees

ROME, Aug 14.—Italians coming from the countries at war continue to pour into Italy by thousands. Most of them are in distress.

ORGANIZATION OF RELIEF FORCE

Committee Formed at Ottawa Meeting to Direct Efforts for Welfare of Canadians in Field.

OTTAWA, Aug. 14.—The Canadian relief committtee was formed tonight at Ottawa at a meeting held at Government House. The meeting was a most important one, as it brought together representatives of the principal organizations in Canada whose efforts in the past have been in behalf of humanity, and selected a central organization for supplying auxiliary aid to the sick and wounded in the field, at home or abroad. Col. G. Carleton Jones, Director-General of Medical services of the Canadian Militia, presided.

The following duties were given the various organisations:

Canadian Red Cross Society, the collection of funds and material, together with the distribution of same.

St. John's Ambulance Brigade, the formation of volunteer first aid and the provision of the personnel of the A. M. C.

The St. John's Ambulance Associatoin, the formation of voluntary first aid centres and instruction generally in first aid to the injured and transportation.

To more properly direct the efforts of the organizations, the following joint standing committee was elected: Chairman, Col. G. Carleton Jones; secretary, Major Birdwhistle, Ottawa; Canadian Red Cross, Sir John Morrison Gibson, Noel Marshall and Col. Grierson; St. John's Ambulance Association, Lt. Hodgetts and Dr. F. Montizambert; St. John's Ambulance Brigade, Col. Sir Henry M. Pellatt, C. J. Copp, M. D., and Captain R. H. Pellatt. Sir Edward Morthington said he had been asked by the Governor-General to say how much he was in sympathy with the work and wished it every success.

All supplies are to be sent to the local branch of the Red Cross Society for distribution under the direction of the Central Red Cross Organization.

The Patriotic Fund

MONTREAL, Aug. 14.—After a meeting of the patriotic fund committee this afternoon, Mr. H. B. Ames, M. P., received a telegram from the Governor-General as follows: "The Canadian national fund will be made wide enough to cover dependents of French, Belgian, Servian and Russian reservists who have joined the colors from Canada. I wish your meeting every success. I know I can depend on your co-operation.

(Signed) "ARTHUR"

No More "Kraft"

LONDON, Aug. 14.—H. G. Wells, novelist, in an article in The London Daily News of today, says: "This war is not going to end in diplomacy; it is going to end diplomacy. It is quite a different sort of war from any that have gone before. At the end there will be no conference of Europe on the old lines, but a conference of the world, and it will make a peace that will put an end to Kraft, and the spirit of Kraft, and Kraftism, and the private armament of the firms behind Kraft, forevermore." The Daily News bitterly fought the war until a week ago.

Free Coal Supply

LONDON, Aug. 14.—From Capetown comes a resolution that "in view of South Africa's small naval contribution to the Mother Country, the Union Government shall be asked to contribute a free coal supply to British warships in South African ports during the crisis."

THROUGH CANAL TODAY

Steamship Ancon, Fully Loaded Will Make Voyage From Ocean to Ocean

PANAMA, Aug. 14.—The canal was the scene of activity tonight in its preparation for the opening tomorrow.

On board the steamship Ancon officers and men were setting everything in shape for her start early in the morning on the first voyage of a big ocean-going steamship through the new highway.

The Ancon, 10,000 tons register, owned by the United States War Department, and leased to the Panama Railway for the New York-Colon trade, has not discharged her cargo, as it is planned to have her make the journey fully loaded.

GERMAN PLANS ARE SURMISED

Route to French Border Is Sought Through Southern Part of Province of Brabant in Belgium.

FORTS AT LIEGE HOLD ENEMY OFF

French and Belgian Forces Unified by Interchange of Officers—Decisive Events Are Imminent.

BRUSSELS (via Paris), August 14.—Technical observers of the military operations of the last two days declare their opinion is confirmed that the German army is seeking to reach the French border through the southern part of the Belgian province of Brabant, crossing that section where the plain of Waterloo is situated and forcing the Belgian army to retreat to Antwerp.

Officers Interchanged

PARIS, Aug. 14.—It was officially announced this evening that unification of the French and Belgian forces had been established by an interchange of officers.

Interesting documents were found on the bodies of some Germans. Letters and notes in their clothing told of suffering caused by the terrible heat and the scarcity of food.

A corporal's letter, taken from a prisoner captured by peasants at Pont a Mousson, in the department of Meurthe-et-Moselle, said: "At last the question is settled. We have the war which has been so greatly desired."

Forts Still Hold Out

LONDON, Aug. 14.—A dispatch to the Exchange Telegraph Company from its Brussels correspondent says that Fort Pontisse and its neighboring forts to the west of the city of Liege are resisting extremely well the fierce German attack. The Germans have been trying to rush Pontisse by main force, no longer relying upon siege artillery. They have been unable, however, to get beyond the glacis of the fort, where they have been mowed down by the fire of the defenders.

The besiegers are provided with bundles of wood and mattresses with which to fill up the ditches about the fort, but they have been unable to make use of them. Fort Liers, which is just west of Pontisse, has lent efficacious aid to the latter fortification.

The object of the Germans obviously is to seize the forts on the left bank of the Meuse, which, in the hands of the Belgians, would be terrible weapons against the invading forces should the Belgian main army march towards Liege.

On the other hand, these forts in the hands of the Germans would serve as a base for action directed against the Belgian centre and for defence against the Belgian attacks.

Brussels Excited by Rumor

LONDON, Aug. 15.—A dispatch to Reuter's Agency from its Brussels correspondent says:

Continued on Page 4, Col. 4

PRUSSIAN ARMY MUCH PUZZLED

Success of Belgian Troops in Minor Battles Great Surprise to Enemy—French Artillery Superior.

LONDON, Aug. 14.—The Morning Post correspondent with the Belgian army sends the following: "The success of the Belgians has been astonishing. Everywhere along the line of outposts the Germans meet with baffling checks. Like an angry dog faced by a porcupine, the vaunted Prussian army stands puzzled.

"I do not wish to exaggerate or to pretend that the Belgians are winning a series of important battles. Their successes so far are intrinsically small, but they are making a habit of success. All dread of the Prussians is gone, and that is a most valuable gain.

"Yesterday I walked some distance with a soldier who was on his way from Brussels to one of the Liege forts. Clearly, therefore, the Liege forts are not closely invested, when individual soldiers can come and go.

"The Belgians jokingly wonder when the German military skill will begin to show itself. The audacity of the Uhlan raids seems nothing more than the audacity of bewilderment, like men who are pressed from behind. In contact with the Belgian cavalry the Uhlans show inferiority. Moreover, neither the artillery nor infantry has shown brilliancy.

"As an actual fact the attitude of the Germans today is almost defensive; certainly it is not offensive in any spirited sense."

German Soldiers Sacrificed

BRUSSELS, Aug. 14.—12:25 a. m.—The German casualties in the engagement at Haelen on Wednesday were 3,000 dead and wounded. The German officers apparently sacrificed their men without any scruples. During the fight the Germans were obliged to pass two bridges over the Gethe and Velpe Rivers, where they were exposed to a heavy fire. The retiring Germans left piles of dead and wounded at these bridges.

The same carnage occurred on the road from Threck to Haelen, where the German cavalry, exposed to the gatling guns of the Belgians, fell in droves.

Continued on Page 2, Col. 2

JAPAN EXPECTED TO DECLARE WAR

LONDON, Aug. 15.—The Daily Telegraph learns from a diplomatic correspondent that Japan intends to carry out to the full extent the Anglo-Japanese treaty. The correspondent says the Japanese navy has put to sea and will co-operate with the British fleet in taking effective action against the enemy's ships in the Pacific.

PARIS, Aug. 14.—The Journal tonight states it is absolutely certain that Japan will declare war against Germany.

TASK NOT SO EASY

German Minister Thought His Country's Army Would Reach Brussels in One Day

BRUSSELS, Aug. 14. (Via London)—The Belgians are repeating with great gutso a story to the effect that when a member of the diplomatic corps at Brussels expressed surprise that the German Minister had not left the Belgian capital promptly after the declaration of war, the Minister replied: "It is not worth while. Tomorrow the Germans will be here."

The Belgians have pointed out that ten days have elapsed since the alleged conversation took place.

MAKES SPEECH TO VOLUNTEERS

Minister of Militia Addresses Gathering of Montreal Soldiers—Twenty More Contingents If Needed.

MONTREAL, Aug. 14.—Col. Sam Hughes, Minister of Militia, made one of his characteristic speeches here tonight on the Champ de Mars after he had reviewed 5,000 volunteers of the Montreal garrison. The parade was one of the most inspiring turnous ever witnessed in this city. Many thousands of people cheered as the men passed, and manifested such interest in them as could be expected only during war times.

Col. Denison was the officer in command. The patriotism was not dampened by a heavy thunderstorm which came on just as the soldiers were formed up on the Champ de Mars, though the soldiers and spectators were drenched.

"If Germany succeeds in this war," said Colonel Hughes, in addressing the troops, "Belgium and Holland, and probably Denmark, will be annexed. Britain will become a second-rate power; France will be wiped off the map, and we shall, in all probability, become subjects of that nation which denies the people that measure of liberty which they should enjoy. But it is not the intention of Canadians that we should become slaves. We all know that our liberties are at stake, and to a man we Canadians are ready to do our duty.

Only Volunteers

"I called for volunteers—volunteers, mark you. Not a man will be accepted or leave Canada on this service but of his own accord and free will, and, if I know it, not a married man shall go but with the consent of his wife and family. And when the Canadians meet the enemy—as they are going to do—and vanquish them—as they are going to do—they are going to do it fighting as free men, as free subjects of His Majesty."

Colonel Hughes intimated that twenty more Canadian contingents would go to fight for the Empire if they should be needed. Of course, he did not expect this.

Mr. H. B. Ames spoke briefly, assuring the volunteers that those they were leaving behind would be adequately cared for.

There are now sixty-six nurses and twenty-one doctors who have volunteered in this city for service at the front, and all of their names have been forwarded to Ottawa for approval.

Among the women recruits is Miss Bredna Williams-Taylor, daughter of Sir Frederick and Lady Williams-Taylor, who is offering her services to the volunteer detachment and is now attending ambulance classes to obtain the necessary certificate.

CUSTOMS WARNING

Proclamation Issued at Ottawa Forbids Receipt of Goods From Austria and Germany

OTTAWA, Aug. 14.—A proclamation has been issued by the Dominion Department of Customs warning persons against receiving goods from Austria or Germany, and exchange customs officers are told to hold all goods which left either of these countries on or after August 5, the day after the declaration of war.

The proclamation warns all persons carrying on business in Canada not to supply or obtain from Germany or Austria any goods or merchandise, or to supply or obtain from any person resident or carrying on business in these countries any merchandise for or by way of transmission to or from the said countries, nor to trade in or carry any goods or wares destined for or coming from Germany or Austria.

It is pointed out that the chances of any goods arriving or being despatched to hostile countries are very remote in view of the announcement that all German and Austrian overseas commerce has been stopped.

German Steamship at Java

SYDNEY, N. S. W., Aug. 14.—The North German Lloyd liner Roon, overdue at Freemantle, is reported as having reached Java. Her passengers are being transshipped and will come to Sydney on a Dutch steamer. The chief ports of New Zealand being unlighted, vessels cannot enter at night. They can, however, leave at any time at their own risk.

TURKEY LIKELY TO HAVE WAR

Purchase of Two German Cruisers Now in Dardanelles Regarded by Powers as Act of Hostility.

DECEPTIVE COURSE FOLLOWED BY TURKS

Britain, France and Russia Send Sharp Notes to Porte—Greece Preparing to Take Action.

PARIS, Aug. 14.—Advices received here say the German cruisers Goeben and Breslau are still anchored in the Dardanelles. The Turks are said to be supplying them with coal, and Turkish torpedo boats to be scouting and reporting the results of their expeditions to the German commanders.

A dispatch received here tonight said that the Germans had removed forcibly the wireless plant from the steamship Saghalien, of the Messagieres Maritimes, a Franch ship, lying at Nadorra, a litte island off the coast of Anotolia.

Only a Blind

ROME (via Paris), Aug. 14.—Advices received here from Constantinople are to the effect that the officers and crew of the German cruisers Goeben and Breslau disembarked, apparently with the object of returning home, but that in reality only the unessential men were replaced by Turks. All the skilled German officers, engineers, mechanics and sailors, it is said, remained aboard the two cruisers for the purpose of training the Turks.

Greek Conference

LONDON, Aug. 14.—A despatch to the exchange telegraph Company from Athens says that King Constantine, at the suggestion of the Premier and Minister of War, M. Venizelos, has called a conference of all former premiers and party leaders to determine the attitude of Greece in the face of Turkey's purchase of the cruisers Goeben and Breslay from Germany.

Sharp Demand

LONDON, Aug. 14. (2:53 p.m.)—Great Britain, France and Russia have sent a sharp demand to Turkey for the immediate repatriation of the officers and crews of the German cruisers Goeben and Breslau.

According to a dispatch from Constantinople to the Exchange Telegraph Company, Turkey has paid $20,000,000 for the German cruisers Goeben and Breslau.

PARIS, Aug. 14.—The allied Governments opposed to Germany and Austria-Hungary have agreed to bring Turkey to a realization of its obligations as a neutral power in connection with her purchase from Germany of the cruisers Goeben and Breslau.

Italy Displeased

LONDON, Aug. 14.—A dispatch to the Daily News from Rome says: "Turkey's purchase of the German cruisers Breslau and Goeben has made an unpleasant impression here. Italy prob-

WILL GIVE AID TO CANADIANS

Organization of Canadian Residents of London to Look After Comfort of Men Who Go on Service.

LONDON, Aug. 14. — A crowded meeting of Canadians, both permanently and temporarily resident here, was held today under the presidency of Hon. George H. Perley, Acting High Commissioner of Canada, in the Canadian room at Westminster, where fifty years ago the Canadian confederation was consummated. The object of today's meeting was to form an organization to attend to the comfort of the Canadian troops who will serve in Europe. Nearly every Canadian now in London attempted to get into the meeting room, which would hardly have been large enough had it been double its size.

The speeches were brief and eminently practical, and the business was dispatched with the closest eye to efficiency. It was agreed to call the organization the Canadian War Contingent Association.

Canada and Empire

"The British Empire is now engaged in the greatest war in the history of the world," declared Hon. Mr. Perley. "It is going on simply to protect sacred treaties and to protect the rights of ourselves and others. I think you will all agree that the Government of the day has handled the matter in a masterly fashion. When the British Empire is at war, Canada is at war. The principle is accepted in Canada on both sides of politics."

A general committee was formed, which included every Canadian now known to be in London. The executive committee consists of Sir Max Aitken, Allen Baker, Harry Britton, McLaren Brown, J. G. Collmer, E. T. Galt, Earl Grey, John Howard, Dr. Parkin, Dr. Pelletier, Richard Reid, Hon. J. H. Turner, and Mesdames Hugh Allen, D. Armour, McLaren Brown, Morley, Pelletier, Perley and Jones, the Misses Galt and Rodmayne, Lady Strathcona and Lady Kirkpatrick. Sir William Osler and Donald Armour were appointed medical advisers; Hon. G. H.

RAID BY FOREIGNER

Attempt Made to Burn Military Stores Building at London, Ont.—One Guard Wounded

LONDON, Aug. 14.—A deliberate attempt was made at 2 o'clock this morning to burn the stores building of the Canadian Ordnance Corps, just south of the Wolseley Barracks. Private Allen and Staff-Sergeant Spicer, of the corps, have been sleeping in a tent on the property for the past two weeks. Allen noticed the shipping department of the building ablaze and made for the scene with his rifle in his hand.

An intruder, believed to be a foreigner and described as of slovenly appearnce and forty years of age, called upon Allen to stop, and when the latter kept on, fired at him, the bullet going through the private's left hand.

The man escaped over a fence, and is still at large, despite a thorough search of the district now in progress by members of the corps, six members of the local police and a Canadian Pacific Railway detective.

Wireless in States

WASHINGTON, Aug. 14.—The final decision as to the policy of the Washington Government towards the extension of censorship recently applied on wireless stations to cable offices has been deferred several days. Representatives of some of the commercial companies interested, it is understood, have asked for an opportunity to be heard, and it is expected their counsel will confer with Attorney-General McReynolds on Monday as to legal questions involved.

PREPARING CAMP AT VALCARTIER

Army Service Corps Already at Work and Infantry May Arrive by Monday—Second Force Talked Of.

OTTAWA, Aug. 14.—The military branch of the Militia Department desires to emphasize the fact that, while infantry units will proceed to Valcartier camp to be equipped for war, the artillery units will remain at local headquarters until organized up to war strength and fully equipped. This course has been adopted because the artillery is a more technical branch of the service, more difficult to equip, and, if moved to Valcartier before fully organized, much confusion would be likely to result. Owing to an error in sending out an order stating that gunners must be five feet seven inches, and not five feet five inches, as intended, much first-class material has been rejected. The Hamilton batteries alone rejected fifty men. Volunteers less than five feet seven who have been rejected will be given an opportunity to rejoin the artillery force.

Army Service Corps in Camp

The first military unit to arrive at Valcartier is the Army Service Corps, whose duty it is to prepare the camp, bakeries, etc. Five hundred of these are now in camp.

By Monday or Tuesday the infantry corps should commence to arrive in considerable numbers. No announcement has yet been made as to the officers who will command the Canadian troops, but it was intimated today that the list will not be long delayed. Col. Sam Hughes, accompanied by Col. Williams, adjutant-general, went to Montreal this afternoon to witness the parade of the volunteers and other city regiments.

Thirty railway traffic experts, representing all the railways, were in Ottawa today and had a conference with Col. Hughes and Major-General Macdonald, quartermaster-general. Plans of mobilization were discussed.

The suggestion was made by Lord Roberts that the Overseas Dominions might contribute a force of Imperial light horse, and is well received in military circles. It is pointed out, however, that were such a regiment organized in Canada it would not constitute a complete military unit, and could not be fitted in with any other force.

It is believed, however, that Canada could, without any trouble, contribute a mounted infantry brigade, which would include three mounted regiments, a battery of horse artillery and units of other arms of the service, making up a compact and complete fighting force of

Continued on Page 2, Col. 4

SHIPS FROM DENMARK

Exporters and Ship Owners Conclude That Route to Britain Is Safe

LONDON, Aug. 14.—The Daily News correspondent, wiring from Copenhagen, says: "Danish exporters and ship owners sent all food steamers off for England last night. In spite of the warning of the English Admiralty as to German mines in the North Sea, the captains and crews declared their willingness to sail.

"Bills will be placed before Parliament today for the establishment of a moratorium and the issue of one and two kronin bank notes as substitutes for silver money.

"The Dowager Queen Louise has gathered a great number of society ladies for daily work at the palace to assist in the red cross supply."

BELGIUM FEELS WAR'S SCOURGE

Large Part of Little Kingdom Laid Waste by German Invasion—Inhuman Conduct of Invaders.

SCENES OF RUIN IN CITY OF LIEGE

Poor People Left Without Homes or Means of Support—Many Wounded Are Conveyed to Brussels.

BRUSSELS, Aug. 14.—(By Dr. E. J. Dillon, special correspondent of The Daily Telegraph). Two hours' motor ride from Belgium's capital takes one to a world of grim realities and sinister contrasts.

Over the country between St. Trond and Tirlemont, but yesterday rich in cornfields and carefully tended gardens, the withering breath of war has passed. Approaching the village of Dormael, unmistakable tokens of desolation meet the view, shattered windows and domestic utensils flung among the cabbages in the gardens. The children prattle in subdued tones. There a mother is leading two or three orphaned little ones from the still smoking ruins of their home; everywhere is the loathsome squalor of war.

Prussian Inhumanity

Inhuman haste appears to possess the Prussian invaders. Belgians who dealt with them at close quarters at Dormael declare the Uhlans fought with the bitterness of personal fury. Many corpses have their hands raised and their elbows are on a level with their shoulders. Horrid wounds were inflicted with weapons fired at a distance of a couple of inches from the mouth or breast.

The Uhlans seized two million francs belonging to the National Bank of Belgium at Hasselt. The bank being a private concern, this act of piracy constitutes a violation of the fifty-third article of the laws and customs of warfare drawn up in 1870. Frederick, afterwards Emperor, forbade the seizure of specie of the Bank of France on condition that it be not employed to sustain resistance to the German army. Some funds of the Bank of France at Strassburg, at first sequestered by the Germans, were restored as private property. Today the Prussian will is the sole law in Belgium. Night brings no rest. At the outposts the moon was shining last night, while from the woods in the distance sudden flashes showed the troops vomiting death's fire on the enemy, while on our flanks invisible batteries were continually spitting destructive shrapnel against the purple sky. One could see masses of soldiers—a vision of hell which only Dante could describe. The bullets were whistling through the trenches, cracking in the trees or clattering with muffled thud in the earth.

The Belgian provision for the wounded was efficient and adequate. So far the maimed warriors, homeless families, destitute women and orphaned children who are receiving attention remind one only of the harvest of misery yet to be garnered.

Liege in Sad Plight

LONDON, Aug. 15.—The Daily Telegraph's correspondent at Brussels says that a refugee from Liege told the following story:

"Thirty thousand inhabitants fled when the shells began to fall. The remaining inhabitants buried themselves in cellars. Havoc marks the city everywhere. Gaping bridges, fallen roofs and smouldering ruins are seen on all sides. There is no street where troops have

Continued on Page 13, Col. 6

CONCENTRATION CAMP

Toronto Contingent of Canadian Service Force Will Gather at Long Branch Rifle Ranges

TORONTO, Aug. 14.—The concentration camp for the Toronto contribution toward the Canadian contingent for active service in Europe will open on Monday at the Long Branch rifle ranges. The Grenadiers and 48th Highlanders will occupy the camp, and possibly the Queen's Own Rifles, though that is uncertain. Col. J. A. Currie, M. P., of the Highlanders, will be in command. There was a parade tonight of the city regiments, including recruits. The roll of the Queen's Own Rifles was 1,200 men, and that of the Highlanders 802.

A large sum was collected today towards the proposed hospital ship. It is thought that the women of Toronto have collected over $20,000. The final report of the contribution will not be known until tomorrow.

Scores of motor cars, decorated with flags, were stationed at almost every street corner, and their occupants made a thorough canvass of the city. Few people were seen on the streets without a flag. On Sunday night the Royal Canadian Dragoons, 100 strong, will entrain for Valcartier.

FIFTY YEARS AGO TODAY

(From The Colonist of August 15, 1864)

An Attractive Exhibition—The glass blowing exhibition last evening in the Lyceum Hall was one of the most wonderful exhibitions ever put on in this city. The blowers seem to be able to make anything at random with the greatest ease. One working model of a steam engine made entirely of glass was shown, the steam was got up in glass boilers. It is certainly a triumph of glass blowing.

Governor's Visit to Leach River—We understand that His Excellency Governor Kennedy will visit the mines of the Sooke and Leach Rivers. We have no doubt but that the Governor will be given a warm welcome.

An alarm of fire was given last evening and within five minutes from the time it was sent in the three different hose companies had water turned on the blaze, which was an old house on Fort Street.

Value of the Sooke Gold—An assay of the dust brought from Sooke yesterday by Mr. Molter for the Bank of British Columbia yielded $13.50 to the ounce. The gold from the Boise mines yields only $11 to the ounce.

The Mule Trail—The Government is now calling for tenders for the construction of a mule trail to Sooke.

LOAN QUESTION IS NOT DECIDED

President Wilson and Secretary Bryan Are Said to Be Opposed to European Flotations in America.

WASHINGTON, Aug. 14.—Although there was no formal expression from administration officials today, it became known that President Wilson and Secretary Bryan were opposed to the floating of any loans in the United States for the benefit of the belligerent powers in Europe.

Both the President and Mr. Bryan studied today the situation arising out of the inquiry of J. P. Morgan & Co., as to what would be the attitude of the administration in case certain banking interests which had approached them should try to float a loan for the French Government.

Mr. Bryan would not discuss the subject, referring inquirers to the bankers for information. Later, when a statement issued by the Morgan Company was shown Mr. Bryan, he said:

"We have no announcement to make."

In view of the intimation in the Morgan statement that the State Department might desire to refrain from any expression of opinion so as not to commit the Government to any policy, Mr. Bryan was asked if his reticence could be interpreted as meaning that nothing more would be said about it by the department.

"I cannot say anything about the future," he answered.

Persons close to the administration said there would probably be no exception on the subject, because of a desire not to offend, even by inference, the French Government, which happened to be mentioned as a prospective borrower.

It nevertheless was generally understood that Secretary Bryan disapproved of the idea of loaning money in any form to any of the belligerents, whether the money was to be used as a credit for the purchase of ammunition or products, or for the ultimate purchase of war supplies.

PRUSSIAN ARMY MUCH PUZZLED

Continued From Page 1

The German infantry and cavalry had a similar reception near Colfaekin.

The success of the Belgian arms is considered particularly important here, as most of the Belgian troops participating had not been under fire before.

The Belgian casualties at Healen were light in dead, as the troops were well entrenched, but many were wounded. The situation, which was somewhat critical on Thursday morning when the German patrols had arrived close to Brussels, was held to be rapidly improving from the standpoint of the Belgians twenty-four hours later.

The victory described above was followed by new and successful engagements near Novjile-Taviers and Eghezee, about nine miles north of Namur, on Wednesday and Thursday.

These operations proved that the Germans are retreating further, and that the allies, steadily reinforced, are resolutely pushing ahead.

Brussels is no longer in danger, but the situation a few days ago was such that the eventuality of its occupation by the Germans was considered.

Casualty List Is Long

COPENHAGEN, Aug. 14.—Some indication of the German losses may be gained from an incident reported to The Berlingska Tidende, by telephone from Kolding, near the German frontier. An uncensored edition of a German newspaper, published in Schleswig, was brought over the frontier from the south. It escaped the eyes of the Prussian officials.

The newspaper published a list of casualties at Liege, among the men from the district of Hadersleben. This list comprises no fewer than eighty from this one district alone, and of these the little village of Skodborg lost five men.

No complete lists are issued, but every borough and district is informed of its own losses.

French Artillery Superior

LONDON, Aug. 14.—The Daily Chronicle says: "According to the latest information received, the engagements of the last few days have proved conclusively the superiority of the French to the German artillery. The three guns captured on Tuesday had been deserted by the gunners owing to the merciless fire of the French. Experts have long been aware that no field artillery in Europe could compare with that of France. They urged, however, that France was seriously deficient in heavy guns, but so far the German heavy artillery has failed to produce any important effect on the French troops.

Regina Economizing

REGINA, Sask., Aug. 14.—Regina's tax rate was lowered to thirteen mills today. Civic officials who drew $3,000 a year or over will have their salaries cut twenty per cent, and those under $3,000, fifteen per cent.

MONTREAL SHOOTING CASE

Sentry at Montreal Armory Kills French Reservist Who Failed to Obey Order

MONTREAL, Aug. 14.—One man was shot dead and another is in the general hospital suffering from a rifle wound, the outcome of a misunderstanding between the dead man and a sentry at the Craig Street armory about five o'clock this afternoon, indicating that war conditions prevail in earnest in Montreal.

The dead man, Antoine Notter, a French reservist, arrived in the city this morning from Cape Breton. He was having his photograph taken by an itinerant photographer and was waiting for it when he was ordered away by Sergeant Hooten, of the garrison artillery. Notte either did not understand the order or was perverse and would not obey it. It is said he could not speak English. The sergeant attempted to expedite his order by shoving the stranger away with his rifle, which was clasped between his extended hands, whereupon the stranger displayed anger at such teratment. Then the seageant, it is said, put his rifle to his shoulder and fired without further parley. The bullet entered Notter's groin, passing out through his body. He was being rushed to the hospital when he died.

The man wounded in the fracas is Theodore Carbeil, a cigarmaker, who was standing by. It is said the bullet which went through Notter's body is the bullet which caused Corbeil's wound, and a peculiar feature is that Corbeil was hit in the groin also. He is in the hospital, but his wound is not regarded as serious.

PREPARING CAMP AT VALCARTIER

Continued From Page 1

23,000 men. It is quite probable that Canada's second contribution will be a force of this kind.

Boy Scouts at Work

The first war service performed by the members of the Boy Scouts organization in Ottawa consists of the carriage of the war dispatches between the telegraph office, the Militia Department and Government House in early morning and evening hours.

An order-in-council has been passed providing that members of the civil service who accompany the Canadian expeditionary force across the Atlantic shall receive full pay during their absence. It is pointed out, however, that, considering the needs of several departments in order to efficiently carry on the public service, it will not be possible to grant all applications for leave of absence.

Recruiting for the Princess Patricia Light Infantry, the crack battalion being raised and equipped for service by Mr. Hamilton Gault, Montreal, is proceeding rapidly, and the 1,000 men required will be soon enrolled. The local recruiting officer is Captain Buller, A. D. C. to H. R. H. the Duke of Connaught at Government House.

WILL GIVE AID TO CANADIANS

Continued From Page 1

Perley is chairman, Mr. G. C. Cassels, treasurer, and Mr. W. L. Griffiths secretary.

The first step will be to raise money for the objects which the new body has before it and to proceed on lines which will harmonize with those already taken by the New Zealand and Australia committees on behalf of their own countrymen who are coming.

Suggested Plans

Among other suggestions are the providing of a ward in Middlesex Hospital for the sick and wounded soldiers of the Canadian contingent, and the provision of a convalescent home on the Norfolk Coast.

All these matters will be carefully considered by smaller committees. Care will be taken that no interference or overlapping shall take place between what is done in Canada and what is to be done on this side. It may be mentioned in this connection that the Canadian Masonic lodge in London, which offered to provide a field hospital, is holding this offer up in view of the similar proposal from Canada.

Already offers of monetary assistance are coming in freely. Among them is a promise from one Montreal man of £1,000 down and £500 monthly for ten months. Another offer of £1,000 has also been received.

The gathering passed a resolution expressing endorsement of "the action of the Imperial Government in entering the present war at the instance only of loyalty and friendship, and at the call of national interests, further placing on record oru gratification at the prompt and efficient measures taken by the Canadian Government to assist in the defence and maintenance of our common Empire."

Aeroplane Brought Down

LONDON, Aug. 14.—A Reuter despatch from St. Petersburg says a message has been received there from Vilna, stating that a German aeroplane, which was making observations of Russian military movements in the Polish Government of Suwalki, was fired upon and brought down with a crash. Its occupants, four German officers, were killed, according to the despatch.

LEIPZIG TURNS TO SOUTHWARD

Reported Last Night Off San Francisco, Which Port She May Enter—May Look for Coal Carrier.

SAN FRANCISCO, Cala., Aug. 14.—After a northerly cruise to the Mendocino Coast, the German cruiser Leipzig has turned, according to information received here tonight, and is cruising slowly towards this port, which she can enter should the immediate replenishment of her coal bunkers become necessary.

At 1:20 p. m. today the Leipzig was off Point Reyes, but it is thought that the war vessel has turned out to sea, as the lookout at Pt. Lobos had not sighted her up to a late hour.

The British steamer Cloughton, now on the last leg of her journey from Buenos Ayres, where she took on 4,000 tons of coal, may be intercepted by the Leipzig, but the pilot of the Cloughton has been instructed to keep well within reach of the three-mile limit to prevent seizure by a hostile war vessel on the way from San Pedro to this port.

AEROPLANES IN WAR

Frenchman Chased by Two German Machines Makes His Escape—Bombs Dropped on Station

PARIS, Aug. 14.—An official announcement issued last night says: "A French reconnoisance aeroplane was attacked by two German aeroplanes which were larger and speedier than the French machine, and carried three men armed with repeating rifles. The Frenchmen succeeded in escaping unhurt.

Among the engagements which have taken place so far, special attention is called to those by which our troops took possession of the summits of Vosges and maintained their positions for five days despite vigorous counter attacks of the Germans. The peaks of Bonhome, St. Emarlie and Saales are ours.

"The French troops repulsed all efforts of the enemy, although the Germans were in superior forces."

"On the Saales heights the Germans brought their reserves into line. The reserve formations were not maintained, and the men were finally obliged to give way. One whole section, with rapid fire guns, surrendered.

"Many Germans were surprised during the operations in Alsace in the very act of spying on our troops. They were tried by court-martial. Several of the spies, including the mayor and the chief of police at Thann, were shot.

"Two battalions of our troops which captured the village of Elegarde were driven out by a counter-attack delivered by a greatly superior force.

"During the Liege operations the Belgians took 2,000 German prisoners. Owing to the small extent of Belgium's territory she has asked France to take care of the prisoners.

"Troops elsewhere on the frontier captured 1,500 Germans.

"A German aeroplane flying the French flag flew over Vezoul and Lure this morning and dropped three bombs into the Vezoul railway station and two into the station at Lure. The damage caused by the bombs was insignificant."

Ex-Naval Stokers Wanted

OTTAWA, Aug. 14.—The commander-in-chief of the 4th Cruiser Squadron, through the naval department here, has issued the following notice: "All ex-naval stokers are urgently requested to telegraph names and addresses, charges collect, to the Department of Naval Service, Ottawa, if willing to report for special coaling duty at Halifax, N. S."

Prayers for Peace

QUEBEC, Aug. 15.—His Eminence Cardinal Begin has issued a proclamation to all the clergy of Quebec desiring that prayers be said for peace during the saying of mass until the present European war has come to an end.

Antwerp Mob Burns Vessel

LONDON, Aug. 14.—The Copenhagen correspondent of The Daily News reports that dispatches from Antwerp say that an anti-German mob set fire to a German ship in the harbor of Antwerp. After it was destroyed the mob pillaged another German vessel.

War on Lake Nyassa

LONDON, Aug. 14.—It is officially announced from Nyassaland, British Central Africa, that the Government steamer Guendolin yesterday surprised and captured the German armed steamer Von Wissonar, on the east shore of Lake Nyassa.

French Consuls Missing

COPENHAGEN, Aug. 14.—The French Minister here says that the French consuls at Dantzic and Nuremberg have been missing since August 4. He believes they are under arrest.

Huge Relief Fund

LONDON, Aug. 14.—The Prince of Wales' Relief Fund, for the distressed families of British soldiers and sailors today attained a total of over $5,000,000.

GERMAN FLEET IS BOTTLED UP

Correspondent Tells of the Achievements of "Silent Service" in Dealing With Navy of Enemy.

LONDON, Aug. 14.—The naval correspondent of The London Globe says: "I have been with the 'Silent Service'—the Navy. My location was at a naval port which I shall not mention, and there I had experiences which are unforgettable. The swift coming and going of ships and the readiness in men and material displayed were great things to see.

"It was no surprise to read the Admiralty announcement that our trade routes were open but for the mines in the North Sea. The trawlers are busy in clearing the seas and are succeeding well. The German fleet is bottled up in its ports."

The British Admiralty today gave the assurance that the ocean routes are well patrolled and a guarantee of the quick resumption of the Atlantic passenger service. Several steamers which previously had been provisionally requisitioned for Governmental purposes have not had their sailing dates fixed. The Olympic is to depart August 19, the Mauretania August 20 and the Lusitania September 3.

The Admiralty has announced that on August 4 Admiral Jellicoe assumed supreme command of the home fleets, with acting rank.

The Times says: "The nation may rest assured that, in entrusting its destinies to Admiral Jellicoe the Admiralty are well advised and are taking the right course. Admiral Callaghan, who hauls down his flag, has had a most active and distinguished career. He, however, is nearly 63 years of age, about eight years older than his successor. On August 10 the Admiralty announced that the King had appointed Admiral Callaghan first naval aide-de-camp, to date from September 11, and also announced that simultaneously Admiral Callaghan had been appointed to the Admiralty for special service on the war staff.

OAK BAY ORGANIZES MUNICIPAL GUARD

Will Maintain Law and Order in Times of Emergency—Large Meeting Supplies 53 Volunteers.

The residents in Oak Bay have responded in surprisingly large numbers to the suggestion made by the Reeve and Council that a force of volunteers should be enroled in the Municipality to assist the police in the maintenance of law and order in times of stress, and at the close of the meeting held Thursday night in the Municipal Hall, fifty-three put down their names as willing to serve.

Over sixty attended. The Reeve, Mr. W. E. Oliver, explained that the Council were only throwing out a suggestion for the organization of a force which, for the time, he would term volunteer municipal guard, and that it was for the meeting to make any further suggestions as to the name it would assume and the character of its duties.

"The present condition," said Mr. Oliver "is one of war, and one of the consequences of war is a state of disorganization. For the last few weeks they had all probably been asking themselves the question 'In what capacity can I best serve my country?' and while the younger and more fervent spirits have answered this by joining some military unit, there are many older men, men with business ties and families who are just as keen to do their duty if a way can be pointed out.

"I believe that one of the best things we can do is to carry on the civil life of the country as if nothing was the matter and no war existed. We look forward to a not very prosperous Winter in any case, and with war existing, matters will not be improved. There is bound to be a certain amount of financial trouble. We cannot sell our bonds. We may have to cut down our staff and our expenses, but by taking thought the public may be assured of one thing, that in any steps taken we shall not be acting in a spirit of panic, but will do our utmost to carry on our municipal business as far as possible, as we have been doing. But we have to be prepared for emergencies, and the Council has accordingly deemed this a fitting time to throw out this suggestion for your consideration.

Citizens' Duty

"Every citizen has a hazy idea that he is bound to do his part towards the preservation of law and order. We are only suggesting that he should translate this theory into practice.

"The function of such a body of volunteers as we suggest would be to act in conjunction with the police to maintain law and order with the municipality, and with the municipality only. Secondly, the force will be an entirely voluntary one, getting no pay for performing a patriotic duty, and thirdly, it should be composed of every male voter in Oak Bay."

The Reeve's remarks were heartily endorsed by Councillor Gordon and Mr. Arthur Crease, and a resolution was passed unanimously to enroll such a force at once, from which a committee of management might be chosen by the Reeve.

The list comprised the names of the Reeve and Councillors Gordon, Brown, Toms and Burdick, Mr. J. S. Floyd, the municipal staff, and Messrs. William Fernie, F. Norman Payne, H. Coulson, H. MacDonald, C. D. Seaborne, F. C. Beckett, C. Poisson, S. A. Lort, F. R. Lewin, W. C. Ard, T. G. Young and many others, and at a subsequent meeting the constitution of the force and its duties will be taken up in detail.

The list may be seen and subscribed to at the Municipal Office by all male voters of the Municipality.

Russians to Help Wounded

ST. PETERSBURG, Aug. 14.—The merchants of Moscow raised $1,250,000 in fifteen minutes for the benefit of the wounded and the families of the reservists. The young Grand Duchess Marie Pavlona Helena Potrovana has volunteered as a sister of mercy.

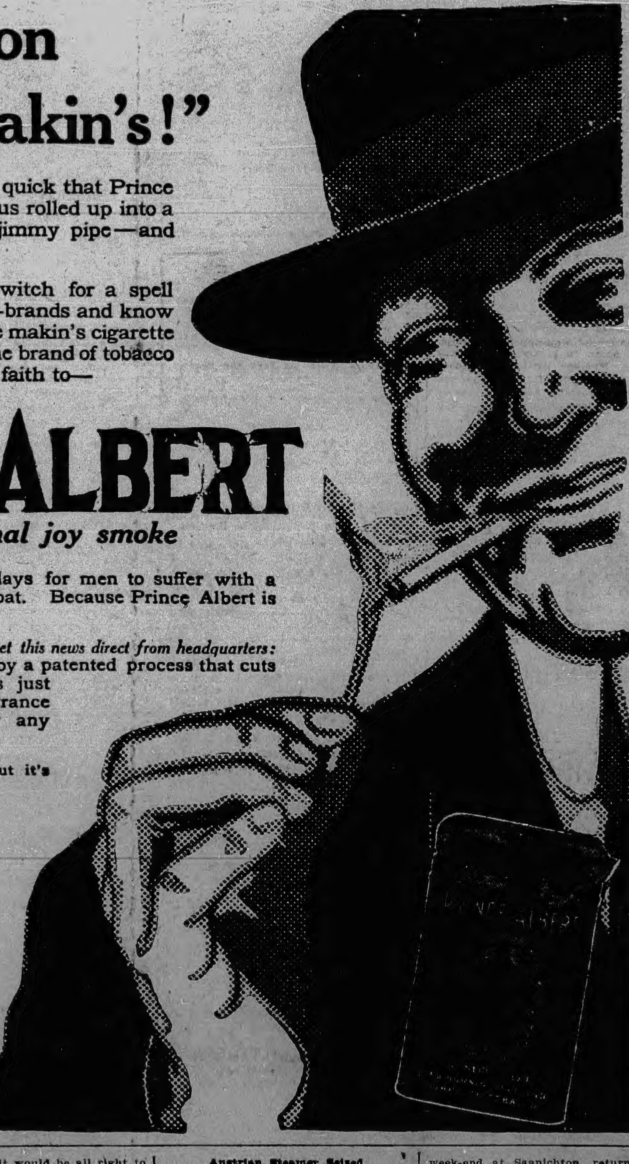
You swing on "joy makin's!"



Get it into your mind pretty quick that Prince Albert is just as bully delicious rolled up into a cigarette as jammed into a jimmy pipe—and that means going *some*, too.

Just to change your luck, switch for a spell from the *dust*-brands and *fire*-brands and know first hand what a real and true makin's cigarette can taste like when you get the brand of tobacco that millions of men pin their faith to—

PRINCE ALBERT

the inter-national joy smoke

It's all out of fashion now-a-days for men to suffer with a stung tongue or a parched throat. Because Prince Albert is scot-free from that sort of thing.

If you didn't know it before, *get this news direct from headquarters:* Prince Albert tobacco is made by a patented process that cuts out the bite and the parch. It's just *all-good* with a flavor and a fragrance and freshness unequalled by any other brand at any price!

Men, that's some talk—*some* talk, but it's right and it's up to you to prove it.

Do you figure for a minute that in five years Prince Albert would have become the largest selling pipe and cigarette tobacco in the United States if it was not all we claimed for it? Just lay a bet right here that P. A. will give you absolutely what you've hunted for years, either in a pipe or a cigarette. And that goes! Right now's the time, too, while the "listen" is in your system.

Prince Albert is imported into Canada by wholesale dealers, and is on sale, in one-eighth-pound tidy red tins, by all of the leading retail dealers.

STEAMER'S ADVENTURES

United Fruit Boat Loses German Stokers at Kingston, Jamaica—Was Hailed by Warship

NEW YORK, Aug. 14.—Thirty-five German stokers of the crew of the United Fruit steamer Zacapa, which reached here today from Colomba, Colon and Kingston, are prisoners of war at Kingston instead of being on their way to Germany as reservists, because of Captain Lowell's refusal to obey the command of the German consul at Colon and send the stokers ashore.

When Captain Lowell refused to land the stokers, three of them jumped overboard and swam ashore. The police got them and sent them back to the ship. They and their companions were taken to Kingston. There a British launch drew alongside, officers went into the hold and took the stokers ashore as prisoners of war. Captain Lowell said he had considerable trouble in recruiting men to take their places.

Even though the Zacapa is a British ship, as she entered Kingston Harbor a shore fort signaled the captain to dismantle his wireless—a new harbor regulation enforced after the declaration of war with which Captain Lowell was unfamiliar. Captain Lowell says he decided that it would be all right to wait until he reached dock. After a few minutes the fort signaled again: "We have our guns trained upon you and demand that you take down your wireless."

The Zapaca steamed with her lights out to avoid German warships. One day out from Kingston she was hailed by a warship thought to have been an Italian. The warship withdrew after learning the liner's identity.

The passengers became extremely nervous, said Captain Lowell, and many of them demanded their money and valuables deposited with the purser. They said that in case the vessel was captured they preferred to have their valuables in their possession.

General von Buelow Killed

LONDON, Aug. 15, 1:25 a.m.—The Daily Telegraph's Rotterdam correspondent says a Berlin newspaper has confirmed the report that Major-General von Buelow, a brother of Prince von Buelow, former German Imperial Chancellor, was killed in battle early this week.

French Reservists Sail

COLON, Aug. 14.—The French steamship Guadelupe sailed for Bordeaux today with 200 reservists aboard. The soldiers came from Peru, Chile, Costa Rica and Panama.

Austrian Steamer Seized

MONTREAL, Aug. 14.—The Austrian steamer Ida, 4,000 tons, which sailed from Trieste and Naples before war was declared, reached here last night and was taken over by the marine department as a war prize.

SOCIAL AND PERSONAL

Mr. A. S. Nicholson, from Spokane, Wash., is here on a visit with his parents at 1052 Collinson Street.

Miss June Clayworth, of 519 Twelfth Avenue North, Seattle, has been spending her Summer holidays with Miss Frances Johnson, Fort Street.

Mrs. G. R. Davenport, of 414 Chester Street, announces the engagement of her daughter, Miss Grace Elizabeth Davenport, to Mr. Lawrence Arthur Walker, of Victoria. Mr. Walker is local manager of the Vancouver Milling & Grain Company, and Miss Davenport's brother, Mr. H. B. Davenport, is manager of Messrs. Dodwell & Company.

Miss Stella E. Baynton returned home on the Princess Sophia after a four months' visit at White Horse, Yukon.

Mr. Leonard Archibald Wilkes, of Victoria, who has been spending the week-end at Saanichton, returned this morning.

Mrs. S. A. Boyd, San Francisco, and Miss Campbell, of Berkely, Cal., who left on July 25 for a trip to Alaska, returned via Seattle, and spent the week-end visiting Mrs. Robert Petrie, "Buena Vista," apartments, have returned to Ganges Harbor, B.C., to spend the remainder of the Summer with Mrs. Boyd's parents, Mr. and Mrs. T. S. Comden.

Miss Eva Grace Walker, of Saanichton, is spending her holidays in Vancouver, the guest of her sister, Mrs. Hugh Percy Fraser.

Miss Olive Emma Walker spent the week-end at Duncan, the guest of Mrs. Thomas Albert Smiley.

Mr. Lancaster, after five years absence from the city, has returned and rented a store at 1316 Government Street, the premises formerly occupied by Levy's Restaurant. He proposes to open up a first-class clothing and furnishing store at popular prices about the middle of September. [illegible] chased two large [illegible] stocks. Mr. Lancaster [illegible] faith in the future of [illegible] evidence [illegible] unhesitating [illegible] change.

A MILLION MEN

It i alleged, how authoritatively we do not know, that the German force now threatening Belgium numbers 1,000,000 men. History tells of very large armies in the past, but there is no record that can be depended upon, of 1,000,000 men taking part in a battle on the same side. No general has ever handled such a vast host at one time, and there must be great doubt as to the ability of anyone to do so, until it has been demonstrated by facts.

Seemingly 1,000,000 men must constitute an irresistible force, but in the present case this vast army will be opposed by another equally numerous. It may be thought that, when it comes to such fighting forces, the individual equation will not count, but it will, and it may count to a degree that cannot now be appreciated. It can hardly be possible to stir up such an enormous concourse to enthusiasm, but a simple thing might drive it into a panic, and the consequences of such a panic would be inconceivably terrible. Panics in armies have occurred on several occasions in the history of Europe. There was one occasion in the history of Germany, we have forgotten the date or the details of the incident, when a large German force, after days of manoeuvering, came in contact with the enemy, with a river between them. Everything was ready on both sides for the stupendous struggle, but panic seized both armies during the night and they hastily retreated without striking a blow. The unexpected check of an advance, exceptionally large loss of life, or one of many other things might set up a panic in an army, and if that army numbered anything like 1,000,000 men, the result would be frightful.

The provisioning of 1,000,000 men is a tremendous undertaking. To provide for it in the first instance would be an exceedingly serious project. To move to the front the food for men and horses, the ammunition, the vast quantity of material absolutely needed, if an army is to have sufficient to eat and even rudimentary appliances for comfort, might well tax the most efficient transportation service. To distribute these things among the troops must be a gigantic task. Hundreds of thousands of men would be engaged in the work. We repeat that the handling of an army of 1,000,000 men in a theatre of war is something which has yet to be shown possible by an invading general.

THE ARMY OF FRANCE

Yesterday an official dispatch stated that the transportation of French troops into Belgium was complete and that they were either in contact with the enemy or had been disposed in locations according to the plans of the staff. We do not know what is the strength of this French army. France, with a population of 39,000,000 possesses in times of peace twenty army corps stationed within her territory. In time of war each of these corps would take the field with three divisions. In other words she would have sixty divisions, or 1,200,000 men. If her Colonial army is included and also her depot troops, another 300,000 could be added, so that she would have 1,500,000 troops ready for action. It is not known whether she is employing this total against Germany. If there is any reason to fear designs on the part of Italy it is certain that France would have to hold at least 200,000 troops to repel any invasion that might be made by way of the Italian frontier. Even if she has adopted this step she is left with 1,300,000 troops and it is fairly safe to say that by this time this number is in line from a point in the vicinity of Brussels to Southern Alsace, based along a frontier which extends 250 miles. How many of these troops are in Belgium will probably be known as soon as the first decisive battle is fought.

The total war strength that France can put in the field is 4,000,000 men and in addition to these there are 1,000,000 men available for duty but unorganized. France is outnumbered by her enemy along her frontier, though the discrepancy is largely made up by the assistance of the British and Belgian troops. What she lacks in numbers will be more than atoned for by the devotion, duty and love of country which are dominant characteristics of her soldiers. France has taken up the burden of war with indomitable courage and almost unexampled enthusiasm. Practically unvarying success has crowned her arms in all the preliminary engagements. The lessons of the Franco-Prussian war have been learned wisely and well. Immune from attack by sea through the vigilance of the British fleet, and supported by a British army she is prepared to stake her all in the struggle which will probably determine the fate of Europe for many decades to come.

THE ISSUE

The New York World has printed the following:

> Germany has run amuck. There is no other explanation of the Kaiser's policy in forcing a general European war.
>
> Fortunate it is that Great Britain is compelled to cast her sword into the balance without further loss of time.
>
> The issue is now joined. Either German autocracy must be crushed or European democracy will be obliterated. There is no middle course. If the forces that the Kaiser has loosed are victorious the map of European republicanism may be well rolled up and the American people prepare to make the last great stand for democracy. All of continental Europe that is not Russianized will be Prussianized. France will be reduced to the status of a third-rate power. Belgium, Holland and Denmark will fall successively into the maw of German imperialism. Italy will become a vassal state, the sun will have set upon the British Empire as well, and the mailed fist of the conqueror will make ready to strike the final blow at democracy in the New World.
>
> The course of the German Government during the last week cannot be reconciled with any theory of political sanity. Wantonly and deliberately the Kaiser has plunged his sword into the heart of civilization. The whole world is paying the penalty of his madness, neutrals as well as belligerents.

This is strong language, and, coming from a source that may reasonably be supposed to be impartial, the views expressed will carry a great deal of weight with them.

We find in many Eastern papers strong expressions of opinion to the effect that the Kaiser has gone mad. There is madness in his veins, not the madness which assumes the form of violence, but a species of insanity arising out of an exaggerated sense of personal importance in the scheme of things. Frederick William I., second King of Prussia, was undoubtedly of unsound mind. His ebullitions of temper, his horrible practical jokes, and his periods of grossness, alternating with religious frenzy, clearly betokened an unbalanced mind. His son and successor, after whom the present King of Prussia and German Emperor has to some extent patterned his life, though he is not descended from him, was a man of great and varied ability, but of qualities nearly allied to madness. His successor was his nephew, a weak man, with some good impulses, combined with narrow religious bigotry. His son, Frederick William III., was of a well-balanced mind, but his son and successor, Frederick William IV., was affected by recurring periods of insanity. William I. was son of Frederick William III. Of his sanity and general excellence of character there is no doubt. The present Emperor is grandson of William I. The persistency with which insanity reappears after intervals in the Hohenzollern family is good reason for thinking that there may be more than a taint of it in the veins of the man who has set Europe in a blaze.

LABOR AND WAR

The Labor leader, M. Vandervelde, a member of the Belgian ministry, who accepted office after his country had been invaded by the Germans, thus defined the position of his followers: "The workingmen of Belgium will defend their country when attacked with the same ardor with which they have defended their liberties in the past," and La Peuple, the organ of the Labor party, said:

> Why do we, the irreconcilable anti-militarists, applaud those who offer themselves in defence of their country? It is because it is necessary to protect our hearths, homes, and families and our ancient freedom at the price of our blood.
>
> Go, sons and workers! Register as recruits. We prefer to die for progress and solidarity to living under a regime of brutal force and savage violence.

Russia was honeycombed with labor discontent, but when the signal for war was given every agitation ceased so that the country might present a united front to her foe. In Great Britain there has not been a suggestion of unrest in labor circles since war was declared. The truth is that no class of people better appreciate the danger that is involved in a German triumph than do the workingmen. Most of the evils against which the efforts of Labor leaders have been directed are those which find their strongest expression in Germany. The workingmen have no desire to see the world ruled by the sword. They know that the overthrow of German militarism is the first and most essential step towards emancipation from the evils that have lagged superfluous on the stage of advancing civilization.

PRICES OF COMMODITIES

In Toronto, immediately after the declaration of war, something not unlike a panic seized the people in regard to foodstuffs, but a dispatch of the 10th inst. to a Winnipeg paper stated that the rush was a brief one and that, while the demand was larger than usual, wholesalers and manufacturers were endeavoring to keep it down to normal proportions with a good deal of success. The dispatch states that the millers say they have plenty of flour on hand, although the demand for it has been much greater than usual. The prices of certain commodities may be expected to advance slightly, but not in all cases because of the war. Among them are cornstarch and corn syrup, but the slight increases in these articles is due to a rise in the price of corn, which, for some unexplained reason, went up in price before the war was talked of. A wholesale grocer of Toronto is quoted as saying: "It is reasonable to expect that the war risk and high rate of exchange will make imported goods higher, but much of these goods are largely luxuries. The advance in our products has been on account of the demand from frightened customers."

To allay any tendency towards the creation of an artificial shortage, the Mayor of Montreal a week ago issued the following proclamation:

> His Worship the Mayor, hearing the fact that merchants of foodstuffs intend to profit by the war situation to raise their prices, desires to impress upon the citizens of Montreal that any increase in the prices of foodstuffs will be unjustifiable.
>
> High prices will be brought about by an abnormal demand for foodstuffs, and the Mayor urges citizens to abandon their fears of any food famine, and to refrain from overloading their houses with provisions, thus creating shortages in the market.

While there appears to be no special reason for directing the attention of people in this community to these facts, for we think that the little flurry of last week, when a number of people began to lay in stocks of provisions, has about subsided, it is not untimely to point out that an artificial inflation of prices may easily be brought about by customers. If a merchant finds himself in danger of having his stock depleted, he may advance prices so as to check the demand, and the worst of it is that such an advance may have quite the opposite effect to that intended. The way to prevent such a thing occurring is to buy just the same as usual. There is no conceivable reason for anticipating any shortage of provisions.

TORONTO VETERANS

The Toronto Star has the following to say of patriotism in that city:

> Two hundred veterans of Toronto, who have seen service in 1866, 1885, and South Africa, today offered their services to the Empire. The offer was made by Captain William Fahey, president of the Canadian Militia Veterans' Association, and was received by Brigadier-General F. L. Lessard, of the Toronto military headquarters, officer commanding No. 2 Division. Military men declared that no finer evidence of Canada's loyalty to Great Britain could be shown.

There are said to be 10,000 of these veterans in Ontario alone, and it is believed that every man of them, who is physically able, is ready once more to answer his country's call. Captain Fahey, who made the offer of the services of the Toronto veterans, is father of Mr. Macdonald Fahey, of this city. He was severely wounded in the campaign of 1866.

AS TO AUSTRIA

We hear very little of what Austria is doing at the present time. This may be due largely to the difficulty of getting out any news. It may also be due to the fact that very little has been done as yet by that Power. Austria has not a particularly striking military history. She has been engaged in many wars, and undoubtedly her arms on several occasions have gained considerable lustre, but the whole story of her part in European wars is not by any means a glorious one. She has been defeated by the Turks, the Russians, the Prussians and the French. She would have been utterly extinguished if the Poles, under Sobelski, had not saved her from the Turks.

One of the weaknesses of Austria arises from the diverse character of her population, and the fact that between the two chief component parts of the Empire, Austria and Hungary, there is far from being the unanimity of sentiment necessary to make a nation strong in the presence of her enemies. One of the possible results of the war is the complete disruption of the dual monarchy, the continuance of which, it has often been said was dependent upon the life of Franz Josef.

It is easy to believe that the declaration of war against her was a duty which the British Government would gladly have avoided. The relations between the two countries have been very friendly and the two reigning Houses have been on terms of the closest intimacy. The late King Edward and the Austrian Emperor were warm personal friends, a friendship which the King inherited from his mother.

The war was "made in Germany."

The plans of the Dominions Trade Commission have been altered because of the war, and the members will sail for England at an early day. All further proceedings will be in abeyance during the war.

As soon as the war broke out a lot of people in Hamilton began to lay in their Winter supply of anthracite coal. The war will have about as much effect on the price of anthracite coal as it will upon next Winter's ice crop.

There are 75,000 Russian reservists in Canada. They have not yet been called home, but they are applying in great numbers to be sent there. If they are ordered to go, they will proceed by way of the Canadian Pacific to Vladivostok.

The suggestion comes from London that, in order to help out the cotton industry in Great Britain, every woman in the Overseas Dominions should buy a cotton dress. This would be pretty good advice to give in the piping times of peace, and it is equally good advice in time of war.

German Aviators Alight in Holland

AMSTERDAM, via London, Aug. 14.—Two German naval aviation officers were arrested and disarmed today on the Dutch island of Schiermonnloog, off the coast of Friesland, Holland. The aviators had left the German island of Borkum, in the North Sea, this morning, presumably on a scouting expedition, and had been forced to descend by motor trouble.

Syrians Help Britain

SYDNEY, N. S. W., Aug. 14.—Local Syrians have indicated their wholehearted support of Britain in the war against Germany and Austria-Hungary by enlisting in British regiments, some of them destined to go to the front. Others have contributed to various war funds.

FINANCIAL SITUATION

Measures Taken by British Government Bring Great Improvement—Stock Exchange May Open

LONDON, Aug. 14.—The drastic steps which the Government has taken to restore credit are beginning to bear fruit. Two great difficulties paralyzing trade have been the virtual suspension of all dealings in stocks and all transactions in bills of exchange. By guaranteeing the Bank of England against loss in discounting bills accepted before August 4 the Government enables the bank to put Lombard Street in a position to meet commitments and finance trading transactions, including those in food supplies.

As to the serious stock exchange position, due to foreign commitments, leading financiers state their grounds for the belief that the Government and the banks will evolve a scheme within the next few days, and they expect the stock exchange to reopen in a week or ten days.

Brokers are resuming business outside. Consols changed hands yesterday at 70 3-4, and Canadian 4 per cents at 96 1-2.

Trade should be normal again, as the stoppage of trade from the continent is expected to be more than compensated for by the increased trade to North and South America and elsewhere overseas at Germany's expense, owing to the cessation of German commerce and shipping.

The railways are contemplating the issue of excursion tickets. The Jockey Club will resume racing early next month. It has been stopped since the end of last week.

The Olympic games cannot be held in Berlin in 1916, and it is unlikely that any other capital will fill the gap. It is probable that international sport has suffered an eclipse from which it will not recover for a long time.

GERMAN PLANS ARE SURMISED

Continued From Page 1

"Excitement prevailed here this (Friday) afternoon when it was reported that Germans were about to advance in great force into Brussels and Antwerp. This report was immediately denied, and officials give the assurance from military quarters that there was nothing in the disposition of the German right wing to indicate that a march on Brussels and Antwerp was intended.

"Nevertheless, it is evident that decisive events are imminent, and it is doubtful whether the official publication in Brussels papers of a proclamation warning civilians to abstain from acts of hostility against the enemy, as these may entail terrible reprisals on the innocent population, and the decision of the Government to cease the publication of official bulletins on the situation are likely to reassure the public.

"The appeal to the patriotism of the press means that for some time the people will be totally without news. The town is given over to rumor. An issue of Le Soir giving the news of an alleged German advance, was suppressed by order of the authorities and the offending paragraph was deleted before further sale of the paper was allowed. It must be remembered, on the other hand, that owing to the smallness of the country and the proximity of the great city to the actual battle field, the general staff is obliged to exercise extreme caution in order to maintain the secrecy necessary to the success of its operations."

Hotly Contested Battle

LONDON, Aug. 14.—A dispatch from Brussels to Reuters' Agency says that a battle near Eghezee, north of Namur, which occurred yesterday at Neville-Taviere, on the Namur-Tirlemont railroad line, was very hotly contested.

The Germans, according to the dispatch, were mostly cavalrymen. They were surprised by the Belgians and sustained severe casualties. Eventually they fell back hurriedly on Huy, between Namur and Liege.

The dispatch adds that three German aeroplanes flying over Diest were brought down by the Belgian artillery. Two of the aviators were killed by being dashed to the earth, and the third was terribly injured.

Night Bulletins

LONDON, Aug. 14.—The Brussels correspondent of the Exchange Telegraph Co., says the transportation of French troops into Belgian territory is now complete, and that all the troops that had been expected are in battle array or in the place fixed according to the plans of the general staff.

BRUSSELS, Aug. 14.—The British Government is chartering a steamer to transport German prisoners to England.

Prince William of Lippe, who fell at Liege, is reported to have had in his helmet 10,000 marks in German bank notes.

LONDON, Aug. 15.—(1 a. m.)—A dispatch to Reuter's Agency from Paris says that the twenty-year-old son of the Russian Ambassador, being unable to return to Russia, has enlisted in a French regiment on the Eastern frontier.

Camille Blanc, the race horse owner, has sold his whole stable for army remounts. The rate of 1,000 francs ($200) apiece was the maximum price allowed. One horse was valued at 50,000 francs.

Terrorizing Civilians

MAASTRICHT, Aug. 14.—The Germans, it appears, are hanging instead of shooting civilians accused of firing on them, spying on them, or for other offences against their drastic military order. A fugitive from Glons says that he saw three Belgian peasants hanging on a branch of a tree. They were accused of firing on the invading German troops from the windows of a cottage. Similar executions are witnessed in almost all of the villages the Germans enter. The inhabitants of the regions of Belgium now occupied by the German troops are completely terror-stricken and abstain from any molestation of the invaders.

Cargoes For England

PHILADELPHIA, Aug. 14.—Half a million bushels of wheat, hundreds of cases of canned vegetables, shovels and medical supplies are included in the cargoes of three transatlantic liners which are scheduled to sail from this port tomorrow for English ports. The vessels are the American liner Haverford, for Liverpool; the Manchester Mariner, for Manchester, and the Atlantic Transport liner Maine for London.

Stopped by Cruiser

NORFOLK, Va., Aug. 15.—The Merchants and Miners steamer Ontario, Captain Bond, reported today she had been fired on by a foreign cruiser off Fire Island on Wednesday. The Ontario stopped, and, when the cruiser discovered her nationality, signals were given for her to proceed. Later the cruiser ran up another signal, wishing the Ontario a "pleasant voyage."

The Whole Tone of Your House

Is governed by the furnishing of the hall. Let us help you give the correct tone with our Wilton Rugs, of which we have such a large selection in all sizes:

4.6 x 2.3, for cash.......$4.95
6 x 3, for cash..........$6.75
4.6 x 7.6, for cash.......$14.95
6.9 x 9, for cash.......$24.75
9 x 9, for cash........$28.80
9 x 10.6, for cash......$33.75
9 x 12, for cash........$43.65

Sanitary and Sightly

Heavy, substantial, square post metal bed, mahogany finish, full size; all the good points of a metal bed with the appearance of wood, for cash, $22.50

Dainty White Enamel Wooden Bed of graceful and proportionate lines; full size, Cash Price, $18.00

The Question of Winter Supplies

Is in everyone's mind. A good supply of canned fruit will be valuable this Winter, fruit is plentiful and reasonable in price; lay in a store now, the Mason Jars have stood the test of years.

Half-Gallon Jars, per doz., cash...........$1.22
One-Quart Jars, per doz., cash.............90c
One-Pint Jars, per doz., cash...............72c

Suited to the Season

Make your own Ice Cream at little trouble and cost; all sizes from one pint to 20 quarts.

Cash Prices From $22.50 to $1.58

Cool and refreshing Lemonade, made at a minute's notice, with those handy Squeezers.

Cash Price 5c

Convenient at All Times

These Folding Card Tables are light, strong and compact; can be handled by anyone and used for many purposes, while the price brings them within the reach of all.

Cash Prices From $5.85 to $3.60

Special Comforts for Young and Old

Safety and comfort for the baby embodied in these new Cots; white enameled iron. Cash Price $8.10

Meals can be partaken of in comfort by the aged or the invalid in bed, with this splendid table, which can be readily changed into a reading desk for the use of the convalescent.

Cash Price $9.00

DISCUSS SAANICH WATER SUPPLY RATE

Municipal Councils Take Steps Towards Reaching Agreement—Joint Committee Will Go Into Details.

Discussion of the proposed arrangement whereunder the city will supply the Municipality of Saanich with water, took place at a joint meeting of the Municipal Councils, held in the Council chamber at the City Hall Thursday evening. Beyond mutual expressions of confidence that each body only desires to meet the wishes of the other in every possible manner and with the sole object of working to the best advantage of the whole area, the session was productive of nothing of a definite nature.

A committee of the City Council, composed of the Mayor and Aldermen Porter and Todd, wth Water Commissioner Rust, was appointed to meet a committee representing the Saanich Council and go fully into the details and later submit a report to the two Councils, when another joint session of the latter bodies will be held. This committee meeting will be held next Tuesday afternoon at 2:30 o'clock. The Saanich Council was represented by Reeve McGregor and Councillors Grant, Borden, Sherwood and Municipal Engineer Johnston and Clerk Cowper.

Reeve McGregor referred to the recent offer of Water Commissioner Rust to give a supply of water in bulk at the Saanich boundary at the same figure as that now paid by Oak Bay, namely, 10c per 1,000 gallons. That figure, Reeve McGregor said, was too high, and Saanich felt that the city should do better. The Esquimalt Water Works Company is now selling water to the city at 6c per 1,000 gallons, and had made an offer to Saanich of a rate more favorable still. Just what rate the company quoted to Saanich Reeve McGregor did not state, though his remarks suggested it might be about 4c.

Reeve McGregor admitted that, pending the completion of the Sooke Lake scheme Saanich does not expect to secure water at anything less than 6c, but he pointed out that the arrangement to be arrived at, if any, would refer to Sooke Lake water, and he urged an early settlement of the matter, as the Sooke Lake main is now being constructed through a portion of the municipality and, if an agreement with the city is to be arrived at, the connections should be made now when the main is being laid.

Cost of Sooke System

A statement compiled by Water Commissioner Rust was submitted, showing that on the basis of a $3,000,000 outlay on the Sooke system, the annual charge for interest, maintenance and depreciation of plant, would be $179,000, equal to $492 per diem. On an average daily consumption of 8,000,000 gallons, the cost per 1,000 gallons would be 6.15c; for 6,000,000 gallons daily, 8.20c; for 10,000,000 gallons daily, 4.92c.

Alderman Todd declared that it is the city's duty to give every consideration possible to Saanich. Whatever amount of water is used, the overhead expenses would be the same, whether the daily consumption is 4,000,000 or 10,000,000 gallons, and it would be good business to utilize the supply as far as possible, if, by so doing, a large quantity of water, which would otherwise run to waste, could be sold. This surplus should be sold at the very lowest possible cost, even if the direct profit to the city was nil. The building up of Saanich would mean more business for Victoria, and thus the city would benefit financially and otherwise in an indirect manner.

Alderman Fullerton, who asserted the city should not seek to make money out of Saanich, believed if a market for the surplus water can be secured the city may consider itself fortunate.

Other members of the City Council took the same view, though it was indicated that it would be unfair if Saanich is now endeavoring to play off the Esquimalt Water Works Company against the city, but Reeve McGregor and others of the Saanich representatives emphatically declared such is not the case.

Reeve McGregor expressed the belief that Saanich ratepayers would be willing to take Sooke Lake water at what it will cost the city, and until such time as that system is in operation in the Spring the price charged to Oak Bay, 10c, would, perhaps, not be objected to, as it would be but for a short time.

Councillor Borden stated that he believed the Esquimalt Water Works would sell to Saanich for 3c per 1,000 gallons, but he would rather deal with the city.

L. O. L. Meeting—All members of L. O. L. 1,610 are requested to attend the Orange Associaton patriotic meeting, to be held in Pantages Theatre on Sunday next, at 2:30 p.m.

Health Recovered By Simple Remedy

MRS. W. A. JOHNSON

"I was troubled for years with liver trouble and biliousness and could find only temporary relief in the different remedies tried until I used your Warner's Safe Kidney and Liver Cure. I am very pleased to state that it cured me completely and I have not felt so well in years."—Mrs. W. A. Johnson, Sycamore Springs, Santa Monica, Cal.

A lazy liver makes life a burden, as thousands of suffering men and women know. There is no energy for business or pleasure, Headache, sleeplessness, yellow skin, and coated tongue indicate that the liver is not doing the work properly and the bile is not being carried off. Warner's Safe Kidney and Liver Cure is an absolutely safe remedy for all inflammatory and other diseases of the liver and kidneys. It corretcs the functional trouble by increasing the flow of bile into the bowels to a healthy standard and keeps it so. It aids in removing the waste material that obstructs the circulation of the liver and kidneys, and by its tonic and purifying properties brings to a condition of perfect harmony all the organs of the body. Warner's Safe Kidney and Liver Cure has been tried and tested for 37 years and never found wanting, and is bound to do you good. Sold by all druggists in 50c and $1.00 sizes. A free sample and booklet if you write Warner's Safe Remedies Co., Dept. 425, Toronto, Ont.

BERMUDA FEARS ATTACK

Military Steps for Protection of Islands Against German Squadron—Censorship Very Strict

NEW YORK, Aug. 14.—The Bermuda Islands are under martial law, and the inhabitants are in daily fear of an attack by a German fleet, according to the officers of the Quebec liner Bermudian, which arrived from Bermuda today.

Volunteer infantry is under arms in the Islands, and additional earthworks to resist an attack are being hastily thrown up by citizens pressed into service, the Bermudian officers say.

The censorship at Bermuda is so strict that private mail is opened and read before it is allowed to go to foreign countries.

The Bermudian confirms the reports that the German tank ship Leda, which was bound from Rotterdam for Baton Rouge, has been captured by the British cruiser Suffolk and is in the harbor at Hamilton. When the Bermudian left Hamilton, the French cruisers Conde and Descartes were coaling for a cruise.

PROVINCE NOW FREE FROM ALARMING FIRES

Chief Forester MacMillan Back From Lengthy Tour of the Kootenay Districts—Much Timber Saved by Rangers.

In contradistinction to the fact that great forest fires are ravaging the neighboring State of Washington, Mr. H. R. MacMillan, chief of the forest branch of the Provincial Government, who has just returned from a tour of the Mainland districts, is able to report that danger in British Columbia for the present Summer is practically past. The Northern regions have been so well supplied with rain that the fires there gave little anxiety. The lower Coast region is also practically clear, there being at present only one small fire at Roberts Creek.

Mr. MacMillan went over much ground in the Kootenay and Cranbrook districts, where upwards of 200 fires employed a great force of men for the greater part of two months. The weather was the worst on record in respect to fire hazard.

Although the aggregate loss has been enormous, a great quantity of excellent standing timber has been saved in the fire zone by the successful efforts of the rangers and those who rendered temporary assistance—no less than 3,000 men having for a time been employed in Cranbrook district alone.

The season has tested the system of lookouts, and the results are held to be very satisfactory. The lookout station at Bicker Mountain is at an elevation of 7,200 feet, a second was a Goat Mountain at an almost equal elevation.

SEEK CURTAILMENT OF WORK CONTEMPLATED

Pandora Avenue Owners Ask That Paving Scheme Be Delayed as Cost Will Prove Too Heavy at Present.

In response to the request of a number of owners on Pandora Avenue, between Fernwood Road and Fort Street, that the contemplated work be postponed until next year, or at least curtailed so that the cost to the owners will be reduced, the streets committee of the City Council yesterday decided that if the owners did not wish the work to proceed, they might adopt the regular course of petitioning against it. If the adverse petition should prove sufficient the project will be killed. Notices have already been sent to each owner. The time limit within which to petition against the work expires on the 25th inst. The owners, who appeared before the committee yesterday, stated that they favored the work being carried through eventually, but felt that the outlay, at the present time, was too great and would cast a heavy burden upon the owners. They suggested that the proposed asphalt pavement be not proceeded with, and that the roadway be only rough-graded, the paving to be undertaken next year, when financial conditions improved.

While members of the committee appreciated the spirit in which the request for delay was proffered, it was pointed out that the Council must be guided by the majority of the owners, and the best method of securing this opinion would be to wait for any adverse petition which might be presented. If this petition showed that a majority of owners, in number and value of holdings, were averse to the work being done, nothing further could be said, unless the owners petitioned next year for the work to be again undertaken.

In view of the action of the B. C. Electric Company in refusing to relay its tracks on Oak Bay Avenue, and as the petition already presented by owners on that portion of the thoroughfare between McGregor Street and the city limits, contemplated the repaving of the street for its full width, including the paving between the tracks, the work cannot be proceeded with unless a new petition, covering only that portion of the street outside the company's tracks, is presented to the city by the owners interested. City Solicitor Robertson has advised the Council that a new petition is the only safe manner of procedure.

The action of the company means that, to relay the tracks, the city would have to pay the entire cost. This is considered by members of the Council as too heavy an expenditure. For the time being, at least, the matter will be dropped, and it is probable that nothing will be done until next year.

At Monday's meeting the Council will be recommended to accept the bid of Messrs. Hutchinson Bros., for the work of laying the steel pipe outlet for the northwest sewer at Macaulay Point, at a cost of $6,230. The bid, the only one received by the city, was referred to a committee for report. This committee reported to the streets committee that, while under favorable conditions the work should be done for about $1,500 less than the quoted figure, it was a work which would have to be carried on under water, and the possibility of damage through storms to the plant used, rendered it inadvisable for the city to undertake it.

GENERAL SYNOD IS TO BE POSTPONED

Owing to Disruption of Conditions as Result of War Gathering Is Deferred—Bishop of Ontario Here.

Among the arrivals at the Empress Hotel, yesterday, was the Right Rev. William Lennox Mills, Bishop of Ontario. He came West in the course of a holiday trip. His lordship stated that, because of the complications resulting from the war, it had been deemed advisable to cancel the summons for the general synod of the Anglican Church, which was to have been held in this Province early next month. A conference had been held with the Bishop of Columbia and, as a result, this course was deemed desirable.

The bishop further explained that the primate would probably find it impossible to come to Canada from England, and this fact, taken in conjunction with the circumstance that many who would have been present at the synod have sons who have volunteered for service, suggested the wisdom of postponing the conference. The expenses in connection with the synod would have amounted to approximately $22,000.

The bishop is loud in his praise of the splendid manner in which the manhood of Canada has responded to the call to arms. The response in Eastern Canada was very inspiring. In some instances whole families offered for service.

That a crushing defeat awaits Germany at the hands of the allied powers—Great Britain, France and Russia—is the firm conviction of the bishop, who is of the opinion that the Kaiser must have gone temporarily insane. He thinks that the campaign will prove short, sharp and decisive.

The bishop has accepted an invitation by the Bishop of Columbia to preach in the cathedral tomorrow evening.

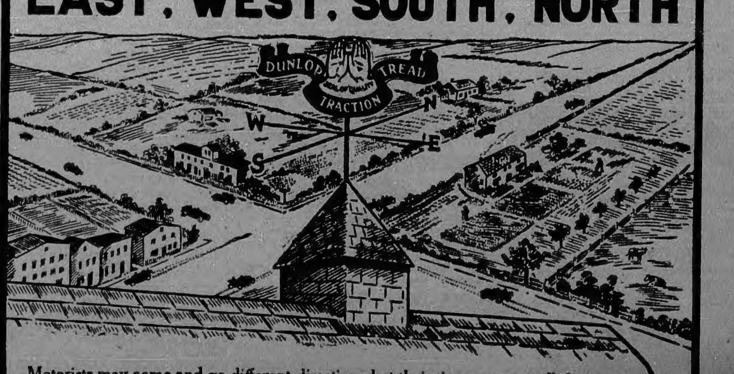
EAST, WEST, SOUTH, NORTH



Motorists may come and go different directions, but their tire wants are all the same. Sooner or later every motorist encounters the obstacles which lead other motorists to seek and find the one solution.

ANTI-SKIDDING

The "buttoned" tires having failed to deliver, the big corrugation tire is selected. The series of "V's" grip the road like a traction engine, each "V" clearing the road for the next "V" to work upon.

NO PUNCTURES

The "buttoned" tires having failed to prevent punctures, the big corrugation tire is selected. The inch high anti-skid tread keeps nails, etc., away from the "puncturable" tread proper of a tire.

MILEAGE PLUS SAFETY

The "buttoned" tires having failed to keep up continuously, the big corrugation tire is selected. It set the record in 1912 of making the first and only Canadian Transcontinental trip.

Remarkable Reductions in Smart Cotton Dresses—

Another special for a few days that is bound to attract attention. These dresses are all new styles, come from some of the world's best designers and are handsomely finished. The materials are ratine, crepe, linen, mercerized linen, voile and striped crepe. Among them is a very handsome grey linen trimmed with black satin. This dress is an exceptionally large size. Another very nice example is a fine white and pale pink voile with a deep over-skirt, bodice in bolero effect, trimmed with crocheted buttons.

Regular Prices to $18.50. Your Choice Today, Each $5.00

Middy and Balkan Suits, $2.25

Another special reduction for today. These Suits regularly cost $3.50. We are showing them in shades of blue with striped collars and in buff with striped collars.

Very Special Blouse Values

Blouses, soft silk and taffeta and in white marquisette and voiles in shades of tan, brown, black, blue and shot effects.

Regular to $6.75. Today, Each $3.50

CITY NEWS IN BRIEF

Concert Tonight—The pipe band of the Gordon Highlanders will give a concert in front of The Colonist office tonight from 8 to 10 o'clock.

Italians Called Out—Members of the local colony of Italians yesterday received an intimation that the Italian Government has issued a call for naval reservists, comprising all those born during 1889 and 1890.

Evidence Conflicting—In the police court yesterday the driver of the Bakeries', Ltd., wagon was accused of passing a street car while it was engaged in taking on passengers. The evidence was of such a conflicting nature that the magistrate dismissed the action.

Another English Mail—Up to the present the European war certainly has had no appreciable effect on communication between Canada and Great Britain yesterday another English mail was received at the local post office. It consisted of eleven bags of letters, which arrived by the SS. Mauretania.

Proceedings Interrupted—While the police court was in session yesterday morning one of the spectators was subjected to an epileptic fit. He fell to the floor and caused so much dusturbance that the cast being heard had to be adjourned temporarily. The unfortunate man was removed and, after receiving all the attention possible, recovered consciousness.

Breach of Rule—See Lee, a Chinaman, left his horse and wagon standing on Fisguard Street the other day without being tied or without a metal weight to restrain the animal's wanderings. He admitted in the police court yesterday that he knew the law, but asserted that he had lost his weight the day before and had not had time to replace it. He was fined $5.

Sewer Force Reduced—The force employed by the city on work in the tunnel on the northwest sewer system near Macaulay Point has been reduced by a gang owing to the recent order limiting the hours for blasting. The amount of material blasted at the noon hour cannot be removed in the four hours of working time, and, therefore, a reduction in the number of men employed has been ordered.

Appeal Effective—Charged with having been found under the influence of liquor, and with disorderly conduct, Arthur Mason was arraigned before the police magistrate yesterday. He explained that he was a British reservist and that he expected his transportation to the Old Country. For this reason he pleaded for another chance, which was granted.

Seattle Sympathetic—That the bulk of the people of Seattle are sympathetic to the position of the British Empire in the present war is the statement of Victorians who have recently visited the Sound metropolis. British-born residents of Seattle and vicinity have held a meeting under the auspices of the Canadian Club and formed a strong organization to aid sick or wounded British or Canadian soldiers.

Awning Ablaze—A blazing awning, set alight apparently by a lighted cigar or cigarette stub, which had been thrown upon it, gave the fire department a run at 1:45 o'clock yesterday morning to the premises of Mr. F. Norris, 1320 Government Street. As the alarm came from the very centre of the business section, a general turnout of three halls was made. A squirt from one of the hand chemical machines put out the fire.

Publicity Man Here—Mr. J. M. Gibbon, chief of the advertising department of the C. P. R., with readquarters at Montreal, reached the city yesterday in the course of a flying trip across the continent and is registered at the Empress Hotel. He explains that the object of his visit to the Coast is to get in touch with commercial clubs and publicity organizations, and yesterday he conferred with Mr. Herbert Cuthbert, Publicity Commissioner, and Alderman Todd, chairman of the reception committee of the Development Association.

Buildings Proposed—Tenders have been invited by the Dominion Public Works Department for a number of public buildings in different British Columbia centres, and it is possible that these contracts will be awarded shortly. The projects in view comprise: Post offices for Merritt, Courtenay, Ashcroft, and Prince Rupert; a detention house and examination warehouse at Union Bay, and a third-class immigration shed at Prince Rupert. In the event of there being no alteration in the original programme, it is expected that this work will be inaugurated without loss of time.

Indians to Leave—There have been more than the usual number of Indians in the city during the past few weeks. Most of them have been engaged in the presentation of claims before the sealing commission which has been in session here. Some have established camps near the C. P. R. depot on Belleville Street. A number of klootchmen have posted themselves on Government Street and elsewhere for the purpose of displaying and selling native baskets. It is understood that the majority of the visitors will leave shortly for the canneries of the lower Mainland. After that work is over they will proceed, as usual, to the hop fields of Washington.

Ready to Serve—The acting French Consul continues to be busily engaged in assisting reservists in their preparations for departure. It is estimated that about fifteen former members of the French army have left from this city to join the colors. Mr. W. S. Terry, the Belgian Consul, reports a simillar state of affairs. He states that he has registered a large number of Belgian soldiers who are ready to proceed to Europe as soon as arrangements have been made by their Government for their transportation. Many more, however are waiting word in Vancouver. According to conservative estimates there are between fifty and seventy-five Belgians in that city holding themselves in readiness to proceed to the front on the shortest notice.

A Patriotic Offer — His Worship Mayor Stewart yesterday reported that the manager of the Lucille Mulhall Company, now giving performances at the Pantages Theatre, had made a patriotic offer, which, unfortunately, cannot be taken advantage of. This was to give a performance of their miniature Wild West Show at the fair grounds, all the proceeds to be given to the fund for the hospital ship. As Sunday was the only date on which they could give the performance, it was felt that the very kind and patriotic offer would have to be declined for obvious reasons. The Mayor, however, desires to have it placed on record that the City Council very much appreciates the spirit which prompted the suggestion.

Thanks of Regiment—The Sergeants' Mess, No. 2 Company, 5th Regiment, C. G. A., wish to thank those who so kindly donated to the mess at Fort Macaulay.

Grass Fires Prevalent—Four grass fires gave as many runs to the fire apparatus yesterday, to Bay Street, Bushby Street, Fairfield Road and Gosworth Road.

B. C. Horse—Mr. J. Dunsmuir has been posted to a troop of the Victoria squadron of B. C. Horse as provisional lieutenant to fill the vacancy caused by the accident which has incapacitated Lieutenant Hyndman.

Held for Theft—Charged with the theft of a coat, the property of Mr. Emil Michaux, proprietor of the Empire Hotel, Edward Moss was arrested yesterday afternoon by Detectives Turner and Siciliano. He will be arraigned in the police court this morning.

Held on Forgery Charge—Robert Sword was arrested yesterday afternoon by Detectives Murray and Mcdonald on a warrant charging him with having forged a document—a receipt for $35—having signed to it the name of A. M. Gillis. He will be arraigned in the police court this morning.

Drill Hall Addition—The permit for the addition which has just been authorized by the Federal Government to the new Drill Hall was issued yesterday by the building inspector. The addition will cost $40,000. The contractors of the structure now in course of erection, Messrs. Parfitt Bros., will build the newly-authorized portion.

New Alderman Seated — Alderman-Elect McMicking was yesterday formally sworn in as a member of the City Council by Returning Officer W. W. Northcott, and at yesterday afternoon's session of the streets committee took his seat for the first time. The new member of the board was heartily welcomed by his confreres.

Arrested in Vancouver—Mrs. Margaret Grant Wilson and Donald Grant were brought from Vancouver yesterday under arrest charged with the theft of a quantity of household furniture, the property of Mr. W. B. Wilson. The two were arrested at Vancouver on the request of the local authorities. Detective Macdonald, of the Victoria force, went over and brought the prisoners back for trial.

C. N. P. R. Construction—Preparations are being made for a start on one of the heaviest parts of the construction in connection with the Patricia Bay branch of the Canadian Northern Pacific Railway. The contractors stated yesterday that a steam shovel and other sections of a large plant were being installed with the intention of commencing a large "cut" in the vicinity of Carey Road, where the new line will cross the Victoria & Sidney road. The preliminaries, it is expected, will be finished this week, thus allowing a start to be made next Monday at the latest.

Drum and Fife Band—Proceedings on Broad Street last evening were enlivened by a number of rousing selections by the drum and fife band of the 88th Regiment of Fusiliers. Although only organized a few weeks ago, the band acquitted itself splendidly, creating considerable enthusiasm by its interpretation of a number of patriotic airs. There was the usual crowd. The bulletin service provided by The Colonist was keenly appreciated, judging by the applause which attended the posting of information of the day's naval and military developments in Europe, on the Atlantic and on the Pacific. Pictures of some of the most formidable battleships of the British navy and portraits of prominent naval and military officers now at the front were vociferously welcomed. One of the evening's features was the appearance in public as a body for the first time of the Home Guard. The corps, with the Union Jack at its head, marched through the principal thoroughfares, and dispersed on Broad Street. At the latter point the members were given a hearty ovation.

FAREWELL PRESENTATION

Members of Local Y. W. C. A. Show Appreciation of Departing Housekeeper

The Victoria Y. W. C. A. is today losing its popular housekeeper, Mrs. Leask, and her departure has been marked by an interesting ceremony of farewell presentation. The members, among whom she has been such a favorite, on Thursday night held a pleasant social evening for her and took the opportunity of presenting her with a handsomely engraved gold wrist watch. The gift was presented by Miss Printer on behalf of the residents and non-residents. Miss Bradshaw, the general secretary, read the following address:

"Dear Mrs. Leask,—Your approaching departure is a source of deep regret to the members of this household, which your unfailing kindness and courtesy to all has made a real home. We feel that we are parting with a dear friend whose loss will be irreparable, and whom we shall always regard with affection and esteem, which this small token of our appreciation can but poorly express. We hope that you will live to wear it for many years, and that it will always remind you of the sincere friendship of all the girls and staff of the Y. W. C. A., Victoria, B. C."

A lovely bouquet of sweet peas was presented to Mrs. Leask, who was deeply touched by the presentation of the gifts and the many expressions of friendship, and who responded with evident feeling.

An informal programme of music followed, and ice cream and cake were served before the little party broke up.

Basket Picnic—The Daughters of England are holding their annual basket picnic today, at the home of Mrs. Hymers, Constance Avenue. Members are requested to leave town on the Esquimalt car at 2 p.m., getting off at Beaumont Post Office.

THE WEATHER

Meteorological Office, Victoria, B. C., at 8 p. m., August 14, 1914.

SYNOPSIS

The barometer has fallen over the Interior where intensely hot weather is general, and as the barometer is high along the Coast, fresh to high westerly winds may prevail on the Straits of Fuca and Georgia. The weather is again turning hotter in the Prairie Provinces.

Order for Mobilization

The Consul for France at Montreal informs the French citizens who are subject to mobilization that general mobilization has been declared, consequently all Frenchmen who can be mobilized must act in accordance with instructions contained in their Military book of mobolization, and return to France by the shortest route without waiting an individual call. Those who may not have the means to start on the journey will receive a Railway ticket at the nearest Railway Station on showing the railway official their military book for mobilization and will present themselves at the General Consulate at Montreal, where they will have to establish their lack of means to rejoin their corps, and where they will receive instructions. Those Frenchmen who are subject to the order of mobilization and who find themselves in the position just referred to, will await before leaving for Montreal another advice which will be shortly published in the newspapers by the Consular Authority.

Under the present circumstances when the very existence of the Nation is at stake, there is no doubt that every Frenchman will do his duty.

L. RAYNAUD,
The Consul of France, in Charge of the General Consulate.
Montreal, Aug. 2, 1914.

A Real Lever Simulation
GOLD WATCH FREE.
A straightforward generous offer from an established firm. We are giving away Watches to thousands of people all over the world as a huge advertisement. Now is your chance to obtain one. Write now, enclosing 25 cents for one of our fashionable Ladies' Long Guards, or Gents' Alberts, sent carriage paid to wear with the watch, which will be given Free (these watches are guaranteed five years), should you take advantage of our marvelous offer. We expect you to tell your friends about us and show them the beautiful watch. Don't think this offer too good to be true, but send 25 cents to-day and gain a Free Watch. You will be amazed.—WILLIAMS & LLOYD, Wholesale Jewellers (Dept. 57), 89, Cornwallis Road, London, N., England.

Tests of various kinds of concretes and cement mortars now under way in Germany will extend over a period of thirty years.

SOLDIERS ARE KEPT IN STEADY TRAINING

Highlanders and B. C. Horse Carry Out Strenuous Work Day by Day—Last Day for Volunteering.

From early dawn till late in the afternoon the 50th Highlanders and the B. C. Horse are hard at work in and around their camp with physical drill, tactical exercises and fatigue duties, which, day by day, are stiffening up the men and enabling the officers to gauge the material they have to work on.

In the case of the B. C. Horse, Acting Major Bapty stated yesterday that the whole of the squadron had again been passed through an examination by the doctor and that all the time weak members of the force were being eliminated and new recruits taken on in their place. The squadron is at full peace strength, but he is awaiting authority from Ottawa to raise the squadron to war strength—146—and, if permission is granted, there will be room for nearly twice as many recruits. Mounted parades are being held daily on horses furnished by the proprietors of the riding schools at the Willows. The regiment has by no means lost hope yet of seeing service as mounted infantry at the front.

Yesterday afternoon a compulsory bathing parade of the Highlanders was held, and the spectacle might be seen at the Willows beach of some hundreds of men thoroughly enjoying a swim, while the Oak Bay police kept an interested circle of spectators at a respectful distance. The B. C. Horse followed the Highlanders' example. The camp kitchens and commissariat are now in full working order and are giving complete satisfaction to the men.

On Thursday the officers took the men of the 50th on at cricket and defeated them by a score of 92 to 48. The evenings are spent in sing-songs, boxing contests and pipe dances, and the utmost cheeriness prevails. Today two companies of the Highlanders shoot on the Clover Point range. Lieutenant Richardson, the musketry instructor of the regiment, is constantly finding among the recruits men with an excellent record for shooting obtained in previous service.

LAND SETTLEMENT

Victoria and Island Development Association Receiving Valuable Assistance in Project

The assistance of the Provincial Department of Agriculture will be given to the movement just initiated by the Victoria & Island Development Association to secure the settling up and cultivation of vacant land in the southern portion of the Island. The association is now advertising for offers from owners who are willing to let their vacant lands on short leases to persons who are desirous of starting stock raising and vegetable growing. The Department of Agriculture will cooperate with the association by issuing detailed information on crops, etc. Dr. Tolmie, president of the British Columbia Association, has also offered to assist. His practical knowledge will prove most valuable.

Yesterday Mr. J. M. Gibbon, chief of the advertising of the C. P. R., and Mr. H. R. Brodie, general passenger agent at Vancouver of that company, arrived in the city and discussed the work of the Victoria & Island Development Association with Commissioner Cuthbert and Alderman Todd. Mr. Gibbon is getting into touch with all commercial and publicity organizations throughout the country with a view to gathering data respecting the various districts. This information will be distributed by the railway company's publicity department.

TENT DWELLERS PROTEST

Claim Enforcement of New Regulations Will Work Hardship Upon Poor Persons

Representatives of the colony of tent dwellers in the Hollywood district appeared before the streets committee of the City Council yesterday afternoon to protest against the enforcement of the recently enacted by-law to regulate tents inside the city limits. The deputation declared that owners immediately adjacent to the property on which the tents have been erected, did not object to their presence. The tents, they said, were sanitary, and if it were not for the possibility of renting such temporary structures for living purposes, a considerable number of people, whose incomes were very small, would not be able to secure living quarters. The deputation stated that with work scarce in the city, it was impossible for many of the tent dwellers to rent residences. With limited funds at their disposal, the problem of caring for their families had been greatly facilitated by the fact that tent dwellings could be rented for a nominal sum.

While the members of the committee appreciated the fact that many of the arguments advanced were good ones, yet they felt that owners of residences in the section also had ground for complaint. Rather than come to any immediate settlement, it was decided to postpone action for a week, so that the various causes might be investigated.

The new by-law requires that before a tent may be erected, application must be made for a license. This application must be reported upon by the fire chief and building inspector. In the case of those members of the deputation which waited upon the committee, the applications for licenses have been refused. It was in consequence of this action that the appeal to the committee was made.

To enable a person to make buttonholes more neatly, a tubular metal clamp for holding textiles has been invented.

Skin Without Wrinkles Now Easy to Have

There's no excuse for any woman having wrinkles now. It has been found that a simple mixture of saxolite and witch hazel has a remarkable action upon the deepest wrinkles, no matter what their nature, whether caused by worry, habitual frowning, a debilitated condition or the ravages of Father Time. This harmless remedy, which anyone can easily make and use at home, acts both as an astringent and a tonic. The combined effect of tightening the skin and heightening its vitality is to immediately affect every line and wrinkle, keeping the cuticle smooth and firm as in youth.

The proportions are one ounce saxolite (powdered) to one-half pint witch hazel, ingredients which are found in every drug store. The solution should be used as a wash lotion. It is equally effective in disposing of flabbiness of cheek and neck, as well as sagging below the eyes.

L. O. L. PUBLIC MEETING

Orangemen to Submit Patriotic Resolutions at Mass Assembly on Sunday—Band Selections

The L.O.L. will hold a public meeting in the Pantages Theatre on Sunday afternoon next at 2:30.

The theatre has been very generously placed at the disposal of the association by the proprietor.

The Orange District Band has kindly promised to play a selection of patriotic tunes in front of the theatre immediately before the meeting, and to render others during its progress. It is expected that a representative number of Past Grand Masters will have seats on the platform.

A number of patriotic and loyal resolutions will be submitted to the meeting. Short speeches will be given by the Rev. Dr. Campbell, Rev. John Robson, Rev. Mr. Philps, and others.

The band will lead in the singing of "O God, Our Help in Ages Past," "Rule Britannia," "The Maple Leaf," and "God Save the King."

All friends and sympathizers are cordially invited to attend. The chair will be taken promptly at 2:30 p.m.

HOME GUARD PARADE AT CENTRAL SCHOOL

Large Numbers Representing All Branches of Service as Well as Civilians—Some Volunteer for Front.

The assembly of the volunteers for the Home Guard for Victoria, at the Central School ground last evening, testified to the happiness of the suggestion which emanated, in the first place, at a meeting of the British Campaigners, and also to the number of veterans there are in the city who, having already done their duty by their country, are ready to do it again. In addition, this movement has brought out a number of civilians who, unable from good and sufficient cause to volunteer for service at the front, are yet anxious and willing to render a service to their home city, should an emergency arise.

Altogether there were 173 men on the ground, drawn up in companies representing those who had served in the navy, volunteers for active service, cavalrymen, artillerymen, engineers, medical and other corps, infantry, from the ranks of the British Campaigners and the Veterans' Association, and another company of civilians.

Mr. Beaumont Boggs, vice-president of the British Campaigners, in a short address, began by regretting the absence of Major Wilson, the president of the Campaigners. He pointed out that while the Militia Act made no provision for the formation of a Home Guard, yet the suggestion of opening a list of those men available for such service had been submitted to the District Officer Commanding, and had met with his approval. It was very satisfactory, he continued, to find that a large number of the members of the two associations were already on active service in the various units of the militia, and although they all hoped that no emergency would arise, yet it was only right that they should be prepared. There were a number of duties which might well be taken over by a guard of this kind. There was, at present, no provision made for any payment for such services, but every endeavor would be made in the case of men without employment to find work for them.

Duties to a Family

Mr. Boggs pointed out that many a man, who would gladly volunteer for the front was obliged to forego this on account of family ties or for other excellent reasons. There was no occasion yet for every man to feel that his services were needed. Many of them owed it to their families not to leave Victora. The formation of this Home Guard offered them the very opportunity of which they would be glad to avail themselves, to do something for their country.

It was understood that the executive of the British Campaigners, with Mr. Treen, of the Veterans' Association, would furnish the temporary officers for the force. Of their own officials, Dr. Bapty and Mr. Winkel were already enrolled in the B. C. Horse, and Mr. J. Fleury was serving with the 5th Regiment. That left Major Wilson, himself, Mr. E. C. Bagshawe, Major Christie, D. S. O., Mr. J. A. Andrews, and Mr. W. J. Edwards, with Mr. Treen, from whom the officers would be selected. Sergeant-Major Wheeler had undertaken to be responsible for the drilling of those men who wished to make themselves acquainted with the tactics of the modern manuals.

Mr. Beaumont Boggs then handed over the parade to Mr. W. J. Edwards. After a short address he marched the whole body to The Colonist office, where they were dismissed.

Notice will be given of the times for drill on the Central School grounds, and another parade will probably be called for a day next week. Meantime the lists and forms of application may be seen at the offices of Messrs. Day & Boggs, Mr. E. C. Bagshawe, the offices of the newspapers and on application to Mr. W. J. Edwards.

SALE OF FLORAL EMBLEMS

Useful Addition to Emergency Fund of I. O. D. E. From Work of Flower Girls

Several little flower girls were in evidence in the city yesterday armed with baskets of beautiful flowers which they were selling for the Emergency Fund of the I. O. D. E. The "emblem" buttonhole grows in popularity and nobody can grudge the modest sum of 5 or 10 cents which is all the little vendors ask.

The thanks of the flower committee are gratefully expressed to Mrs. Rattenbury for her generous gift of lovely blossoms, and to Mr. John E. Dickson for his faithfully remembered daily contribution of purple thistles for the emblem buttonholes.

The Chapters on duty at the Temple rooms during the coming week will be as follows: Monday, Gonzales; Tuesday, Esquimalt; Wednesday, Agnes Deans Cameron; Thursday, Camosun; Friday, Navy League and Saturday, Florence Nightingale Chapter.

The Lady Douglas Chapter is on duty at the rooms today.

A meeting of the National Association Marine Engineers will be held August 17, at their rooms, 10 Finch Block, Yates Street. Peter Gordon, Secretary.

HOPE TAKING ON A NEW LEASE OF LIFE

Pioneer Mining Town on the Fraser River Feels Stimulus of Activity on Advent of the Railway.

The Hon. Dr. Young, Minister of Education, returned yesterday from a trip to Hope. He reports that the promising little town on the C. P. R., located some distance south of Yale, and one of the historic hamlets in connection with the famous rush of the days of Cariboo, is taking on a new lease of life owing to the fact that it is now an important point on the route of the Kettle River Valley line.

There has recently been some considerable activity in the town proper, and the outlook is felt to be most promising. Very many of the residents are interested in mining properties in the vicinity, and, with the revival in the industry which is taking place all over the Interior, Hope believes that it stands a good chance to get some needful capital to develop some of the promising properties which are known to exist in that district.

On Wednesday evening, Dr. Young and Mr. A. Lucas, the Member in the Legislature for the district, attended a very successful meeting of the local branch of the Conservative Association. This was followed by a banquet. Some of the local problems dealt with referred to road expenditure, which now comes under Dr. Young's jurisdiction, as, in the absence of the Hon. Thos. Taylor, he is acting Minister of Public Works, the matter of a resident physician, etc.

BISHOP MACDONALD HOME

After Visiting Rome and Traveling Through Germany, His Lordship Reaches Victoria

After an interesting three months' tour in Europe, His Lordship Bishop MacDonald returned to Victoria yesterday afternoon on the Seattle boat. The main object of his trip was to visit Rome and pay his "ad limina" visit to Pope Pius X. This visit, which is made by each bishop once in three years, is for the purpose of enabling them to present a personal report of their diocese and to visit the basilicas for special prayer. While away Father MacDonald also visited the Eucharistic Congress at Lourdes.

A striking feature of his lordship's journey lies in the fact that he planned his route through Germany for the first time. Never in previous years having visited the great empire, he expressed his intention this year of doing so, but fortunately had left Europe and was on his homeward way before the outbreak of hostilities.

He left the Continent in a condition of apparent peace and harmony, and finds it difficult to realize the great changes that must already have been brought about by the progress of the war.

Tomorrow evening, at 7:30, a reception of welcome to his lordship will be held by the congregation of St. Andrew's Cathedral.

PASS SPECIAL LAWS

Two Orders-in-Council in Recent Canada Gazette for Guidance of British Citizens

Two important orders-in-council have been passed by the Federal authorities and printed in an extra of The Canada Gazette, published on August 7. One is in the form of a proclamation making it an offence for any British subject to "contribute to or participate in or assist in the floating of any loan raised on behalf of the German Emperor, or to advance money to or enter into contract or dealings whatsoever with the said Emperor or his Government."

The second is a warning to "persons resident, carrying on business, or being in" the Dominions of their obligations to the British Empire. It declares it against the law to "supply to or to obtain from" the German Empire "any goods, wares or merchandise, or to supply to or obtain the same from any person resident, carrying on business, or being therein, nor to supply to or obtain from any person any goods, wares or merchandise for or by way of transmission from any person resident, carrying on business, or being therein, nor to trade to or from the said Empire, or to or from any person resident, carying on business, or being therein, nor to trade in or carry any goods, wares or merchandise destined for or coming from the said Empire or for or from any person resident, carrying on business or being therein."

It also is provided that no British ship shall be permitted "to leave for, enter, or communicate with any port or place in the said Empire."

Another clause sets out as prohibited the entering "into any new marine, fire, or other policy or contract of insurance with or for the benefit of any person resident, carrying on business, or being in the said Empire, nor under any existing policy or contract of insurance to make any payment to or for the benefit of any such person in respect of any loss due to the belligerent action of His Majesty's forces or those of any ally of His Majesty."

OBITUARY NOTICES

The death of Miss Marion Kathleen Watson, aged 16, the daughter of Mr. and Mrs. Anthony Watson, of Port Alberni, occurred at St. Joseph's Hospital yesterday morning, after an illness of two months. The interment will take place at Port Alberni on Sunday.

The requiem mass for the late Mrs. (Ellen) Shallue was celebrated at the Roman Catholic Cathedral yesterday morning, after which the body was shipped to Binghamton, New York State. Many beautiful flowers were sent by friends, and in addition to Mr. Frank Shallue, the son of Mrs. Shallue, the pallbearers included the following: Messrs. P. Bannerman, C. D. Emmons, H. Leiser, S. P. Moody, C. H. Topp and J. B. Fagan.

Births, Marriages, Deaths

DIED

WATSON—On the 14th inst., at St. Joseph's Hospital, Marion Kathleen, the 16-year-old daughter of Mr. Anthony Watson, of Port Alberni, B. C.

The remains were forwarded yesterday morning by the B. C. Funeral Co., to Port Alberni, where they will be interred on Sunday, August 16, 1914. The parents accompanied the body.

CARD OF THANKS

Mrs. S. Albhouse and her family wish to thank their many friends for their kindness shown during her sad bereavement.

Let Your Player-Piano Teach You How to Sing

USE the famous Vocalstyle music rolls, which are interchangeable on any make of player-piano. These remarkable rolls double the value of a player-piano, rendering it no longer a player of instrumental music only, but showing you at a glance how long to carry a word and just how to sing a song.

Vocalstyle Music Rolls Make Singers of Us All

Fletcher Bros. carry easily the largest stock of Vocalstyle music rolls in Western Canada. Yesterday we opened and stocked a shipment of five thousand of these rolls, a shipment containing all the latest popular and classic numbers.

These rolls are the most complete on the market. They are not designed for singers only, but are extremely useful for vocalists. At the same time they give well known popular and classical selections rendered by famous artists. The expression characters following the words on the right side of the roll indicate to the performer the shading and sustaining of the solo part, while the ordinary musical characters on the left side of the roll indicate the different average degrees of volume for the selection, thus giving the performer (regardless of the words) a musical outline of the selection that no other music roll approaches.

The labor in making one of these rolls is at least three times the cost of instrumental music (outside of stock used) even after the initial cost of a song is figured.

Anyone who has not tried the Vocalstyle music roll is more than welcome to visit our demonstration rooms today and try some of the new music.

Free Catalogue On Application.

CONTRIBUTIONS FOR FUND STILL COMING

Many Cities and Towns Show Their Patriotism by Subscribing to Funds of Daughters of Empire.

The patriotism and generosity of the people of British Columbia continue to be evidenced by the donations that pour in to the coffers of the Daughters of the Empire. The order has at present three funds in hand, the first consisting of subscriptions to provide a hospital ship for the British Admiralty; the second, a Patriotic Fund, which it holds in trust for the citizens of Victoria; and the third,, and last, the I.O.D.E. Emergency Fund, which stands at present at a modest $1,480.85, and which is for use in the immediate relief of necessitous cases coming under the notice of the visiting committee. A donation added yesterday to this fund, and not previously acknowledged, was $100 from Mrs. Andrew Wright.

As already stated, the sum of $5,000 will be sent to the Hospital Ship Fund from Vancouver Island. A telegram received yesterday from the secretary of the central committee in Toronto, formed to operate this fund, ran as follows:

"British Admiralty desires to make public definitely its acceptance of the offer of the hospital ship. The Canadian Government heartily approves. H.R.H. actively interested. Name Canadian Women's Hospital Ship."

A second telegram received by Mrs. Croft in answer to her wire announcing the success of the I.O.D.E. fund, ran: "Delighted your success. Congratulations. Fund growing splendidly.

Johnston, $1; Mrs. O'Connor, $1; Mrs. Penketh, $1; a Friend, 50c; George Jeeves, $10; M. J. Crawford, $2; Mrs. Mills, $2; Captain Robertson, $2; A. W. R. Wilby, $2; total, $115.90.

The sum collected by the Gonzales Chepter, I. O. D. E., for the Patriotic Fund, should read $589.25, instead of $574.25, a donation of $15 from Mrs. Hebden Gillespie having been inadvertently omitted from yesterday's list.

The sum of $93 acknowledged yesterday was collected by the Misses Offerhaus, Cedar Hill; and the sum of $170.60 by Miss J. W. Tolmie, in Cloverdale.

Contributions received at The Colonist office for patriotic fund, which have not been previously acknowledged, follow: J. C. Spink, $1; A. J. W., $1; Queen Chapter, $10; Frances E. Willard Branch of the W. C. T. U., $10; A. L., $10; C. H. F. A., $5; E. Pearson, $5; Mrs. F. H. B., $1; Friend, $1. Total, $44.00.

Hospital Ship Fund

Collected by Mrs. MacSwain for hospital ship fund: Friend Taylor, 10c; Friend Patrick, 25c; Mr. J. W. Smith, 25c; Mr. J. Walker, 25c; Friend, 25c; Mrs. Pines, 40c; Miss Bell, 50c; Miss Lane, 50c; Mrs. Green, 50c; A. J. Mitchell, 50c; J. Brown, 50c; Mr. Smith, 50c; Mrs. Barbara, $1; Mrs. Schulten, $1.25; Mr. R.B. Burkes, $1; Messrs. Clegg, $1; Mrs. S. J. Curry, $1; Mrs. M. Henderson, $1; Mrs. M. Young, $1; Mrs. B. Pierce, $1; Mrs. H. Clarke, $2; Mr. John Cooper, $2; Dr. Higgins, $2.50; Mr. E. T. B. Hill, $5; Mrs. MacSwain and daughter, $4.50; The Misses Spencer, $7.50; Mr. and Mrs. Nimmons, $10; odd sums, $1.95.

The sum of $120 subscribed by some of the Germans and German Canadians, resident in Victoria, and credited to them under the patriotic fund yesterday, was intended to be devoted solely to the provision of the hospital ship. It is, therefore, being forwarded as separate contribution direct to the central committee of the hospital ship fund in Toronto.

Further contributions for the hospital ship fund have come in from points on the Island and Mainland, and the complete list up to date is as follows:

Cowichan Station and Cowichan Bay Red Cross Society	$200.00
Summerland,	100.00
Alberni,	121.50
Parksville,	25.00
Armstrong,	250.00
Chilliwack,	500.00
Fernie,	564.85
Revelstoke,	300.00
Penticton,	900.00
Trail,	250.00
Kelowna,	210.00
Ladysmith and Extension,	800.00
Ladysmith City,	114.00
Duncan,	62.00
Nanaimo,	500.00
Salmon Arm,	314.15
Sooke,	23.00
Mission City,	470.00
Coquitlam,	154.85
Kaslo,	64.35
Sidney,	75.00
Slocan City,	85.00
Kamloops,	
Cranbrook,	296.00
Vernon,	963.90
New Westminster,	800.00
Ladies of Naramata and Summerland,	35.00
Employees Summerland Lumber Co.,	64.00
Prince Rupert and Skeena Canneries,	500.00
Alert Bay,	59.25
Total	$8,801.85

The Alert Bay collection is the result of devoted work on the part of Miss A. B. Nevill, a member of the I. O. D. E., who is associated with Miss Roper at the Indian Industrial School there.

Daughters of England—Members of Lodge Primrose No. 32 are invited by the Loyal Orange Lodge to attend a meeting on Sunday afternoon, at 2:30 o'clock, at the Pantages Theatre.

Household League—A very important meeting of the Household League will take place on Tuesday, August 18, at 3 p.m., in the Rest Room of the Y. W. C. A. Every member is requested to be present, as business requiring instant decision will be before the meeting. The committee will meet at 2:30 p.m. of the same date and at the same place.

In Women's Realm

BY MARIA LAWSON

MISS EVA LUCKES

Britain and Her Colonies

She stands, a thousand-wintered tree,
By countless morns impearled;
Her broad roots coil beneath the sea,
Her branches sweep the world:
Her seeds, by careless winds conveyed,
Clothe the remotest strand
With forests from her scatterings made,
New nations fostered in her shade,
And linking land with land.

O ye by wandering tempest sown
'Neath every alien star,
Forget not whence the breath was blown
That wafted you afar!
For ye are still her ancient seed
On younger soil let fall—
Children of Britain's island-breed
To whom the mother in her need
Perchance one day may call.
—William Watson.

The Red Cross Society

With, perhaps, little premonition that the Red Cross Society for which she has worked hard, would have its resources taxed to their utmost capacity, Miss Eva Luckes, of the London Hospital, has received from Queen Alexandra recently the badge of the "Red Cross.'

Miss Luckes has, The Illustrated London News tells us, given most efficient service to Quen Alexandra's Naval Nursing Service and is well worthy of the honor which has been bestowed upon her.

The public is far too apt, in these days, to forget how greatly it is indebted to those ladies who direct the affairs of large hospitals. We have grown so acustomed to the order and the efficiency, the gentleness and the tenderness which surround the very sick in the hospital that we do not sufficiently value the woman without whose direction and superintendence these could not be secured. We may well believe that in conferring this honor the Queen Mother represented the appreciation of those who by knowledge and sympathy were best qualified to judge the work of Miss Luckes.

At a time when almost every country in Europe expects that battles may be fought on her soil and when already, in many towns and villages of Belgium the wounded are receiving care, it is well that we should try to learn something of the origin of Red Cross Societies and the scope of their work.

It it just half a century since an international conference met at Geneva, in Switzerland, to establish rules for the amelioration of the sick and wounded in war.

The story of the needless suffering in the Crimea, and of the wonders wrought by Florence Nightingale and her noble band of nurses, were fresh in the minds of all. The war between France, Sardinia and Austria had more recently shown the need of better care of wounded soldiers.

Twelve European States and Persia signed the convention on August 22, 1864. Since that time almost every civilized country has come under its provisions. These provide for the neutrality of military hospitals and persons employed therein, even after occupation by the enemy. An ambulance and its equipment is immune from attack. Inhabitants of a hostile country are free to come and go on errands of mercy to the wounded. A house in which a wounded man is being cared for cannot be occupied by troops or the owner forced to pay war contributions. The Red Cross flag protects all hospitals and the badge on the arm of the individual ensures safety. In 1868, hospital ships and those serving on them received the same exemption as hospitals on land. The Hague Peace Conference of 1899 extended the principles of the Geneva convention to naval warfare.

Immediately after the convention Red Cross Societies were formed in most countries of Europe. These societies occupy themselves in time of peace with preparing supplies, training nurses and in other necessary work and during the war aid the armies of their country. The American Red Cross Society holds itself in readiness not only to serve in time of war but to go on any errands of mercy that may be needed in time of peace.

During the war in the Balkans the British Red Cross was active as well as the branches in the countries involved in the struggle. American nurses were there, too, doing what was possible to help the sick and the wounded. In the Russo-Japanese war the Japanese Red Cross Society placed in the field 300 surgeons and 2,000 nurses.

France has a Red Cross Society endowed with $4,500,000. We have read in the dispatches that the Belgian Queen has put herself at the head of the Red Cross nurses and that the palace has been turned into a hospital.

It is, after all, but little comparatively that can be done to mitigate the horrors of war. The cannon, the rifle and the bayonet or sabre will kill men by thousands and tens of thousands. Ships will be sunk with their crews of brave men. But into the fields of battle the Red Cross nurses will go with ambulances and bandages and wounded soldiers will be carried away and cared for. This much has civilization accomplished. Exposure, hunger, thirst and disease will no longer destroy those whom the battle has failed to kill. The hospital ship will be near to tend and care for the sailors whose lives have been spared. When the war is over many will have won the right to wear the decoration which has been so graciously and so worthily bestowed upon Miss Luckes by Queen Alexandra.

A Great Accomplishment

The Daughters of Empire are to be congratulated on the success of their campaign for a patriotic fund. To have been able to collect in a few days the large sum of $15,760 for the aims they have in view shows not only that a spirit of patriotism has filled people of all classes in the community, but that the citizens and the people in adjacent districts have every confidence in the good sense as well as the loyalty of the committee in charge of the fund. After sending more than Victoria's share towards the hospital ship, there will still be a substantial sum left to be devoted to patriotic uses. This speaks volumes for the generosity, as well as for the energy and enthusiasm of the Daughters of the Empire.

Soldiers' Wives League

In Montreal the Soldiers' Wives League is at work. This is an association which has a splendid record. It was founded on the eve of the day in which war was declared in South Africa for relief work. The ladies worked very systematically. The family of every soldier who went to the war was visited and relief supplied when necessary. The funds were furnished by the patriotic funds of Montreal and the Dominion, and administered entirely to the satisfaction of those concerned.

Mrs. Busteed is the president of this society, which, unhappily, will have far more to do in the months to come than was necessary in the South African war.

At Home

While we are preparing to help, in the future, those who may be in need, there is a call for immediate assistance. The village of South Wellington has been destroyed, and its inhabitants left homeless. While their work remains for the men, it will require some help to restore the homes. These people have had much during the past year to hinder them. It is not likely that many contributions can be expected from their neighbors in Nanaimo. At present we do not know just what is needed. When we do the people of Victoria may be depended upon to give what is actually necessary. More cannot be expected at this time.

The Patch as a Remedy

It is something new to hear of the potato as a cure for anything. Ever since its introduction this vegetable has been suspected. At first, people refused to eat it because it was said to belong to the same family as the deadly nightshade. It has been declared to be lacking in nutrition, and pronounced indigestible. In spite of all this the potato has proved its worth as a wholesome article of diet

Now so conservative a medical journal as The London Lancet publishes a report concerning the curative properties of the potato. The "author of this report," we read, "who is a medical man practising in the South of London, has for some time utilized as a remedy potato juice made by squeezing the raw vegetable in a powerful press as the basis for various preparations, notably liniments and plasters. This juice, to which the high-sounding technical name of 'extractum solani liquidum, has been given, is said to contain large quantities of potash salts. It is claimed that the application of the preparations of raw potato has a rapidly curative action in various common ailments of the rheumatic kind, including lumbago, mild joint rheumatism and synovitis; the latter is the common condition of swelling and effusion (water) which occurs round joints and ligaments that have been bruised or sprained. Remarkable results are reported in the cure of these conditions from the use of hot fomentations or poultices made with potato juice, as well as of cold plasters made from the same substance. It is notable that amongst the successes recorded is included a case that was treated at St. George's Hospital under a well-known surgeon. In this example the patient, who had been suffering from water on the knee for some five weeks, was cured in less than a fortnight. For lumbago and rheumatism it is recommended that potato juice ointment should be rubbed well in the painful parts, whilst the treatment may further be aided by the special plasters. For severe bruises and sprains it is advised that the hot poultices referred to above should be first resorted to, when it may be expected that the pain will quickly be relieved, and the swelling go down. The treatment has also apparently some application in gout, although its chief advocate does not claim it as a direct cure for this malady. In gout it would appear that potato juice applied in the right manner will quickly relieve pain and swelling, although it may not be able to relieve the general constitutional symptoms. In the article referred to seven cases of acute gout are recorded in which the remedy was applied with success."

GREY HAIR

Dr. Tremain's Natural Hair Restorative used as directed is guaranteed to restore grey hair to natural color, or money refunded. Positively not a dye and non-injurious. On sale at Dean & Hiscocks' Drug Store, Yates and Broad Streets, Victoria. Price $1.00, postpaid. Write Tremain Supply Co., Dept. V, Toronto.

MORAL REFORM LEGISLATION USELESS

Legisltaion of itself never inaugurated any reform. It is only a visible tendency of the period.

Before any real reform can take place, it must take place in the people themselves—they must be educated up to it.

In like manner, it needs a little education to take advantage of the up-to-date scientific eye-testing methods of the Queen's Opticians, optical specialists, 607 Yates Street.

It pays to take advantage of their offer.

SELECT OFFICIALS FOR CRITICAL GAME

Lynch and Gray Will Referee Coast League Lacrosse Match Today—Win Will Give Royals Championship.

Fred Lynch and Sandy Gray, of New Westminster, have been agreed upon by the officials of the champion Vancouver Athletic Club twelve and the Royal City amateurs as referee and judge of play in the Pacific Coast League lacrosse match at Queen's Park this afternoon.

The match is the most critical one of the series to date. If the Royals win they will have in their grasp the Mann Cup, emblematic of the Canadian amateur championship, and also the Kilmarnock Cup, which goes with the British Columbia championship. At present both these trophies are held by Vancover. In order to retain their titles the V. A. C. twelve must win all their remaining matches, so that even if they win today they will not, by any means, be sure of finishing out ahead.

All the players of both teams are reported to be in the best of shape, and a hard struggle for supremacy is assured.

The match today will be the last between Vancouver and New Westminster this season. The V. A. C. still has two dates with Victoria, one here and one at home, while the Royals have to make one trip to this city.

McMullin Sold to Detroit

SPOKANE, Aug. 14.—Fred. McMullin, third baseman of the Tacoma Northwestern team, was sold today to the Detroit Americans. He will leave for Detroit tomorrow.

LACROSSE WILL BE TRIED IN HAWAII

Famous Canadian Outdoor Pastime Should Be Quite Practicable in the Cooler Months.

HONOLULU, Hawaii, Aug. 14.—Lacrosse, the famous Canadian outdoor game, is about to be introduced in Hawaii, according to Lieut. Chas. H. Rich, of Schofield barracks. Lieut. Rich has been a prime mover in the cause of army athletics for a long time past, and the excellent athletic record enjoyed by the 25th Infantry is in large measure due to that officer's activities. The news of the proposed introduction of lacrosse is good news, inasmuch as the game has hitherto been confined to more northerly latitudes. In Canada, some parts of the United States and among the English universities, the game has taken on well, and some very fast teams have been got together.

Lacrosse is one of the oldest games played on the American continent, having been originally played by the swift runners of the North America Indian tribes. The game has changed somewhat since those old days, and has been modernized from time to time to suit the requirements of the European. Lacrosse is a game requiring great skill in "stick handling," combined with sound wind and iron nerve. The pace is frequently terrific, especially when a professional game is being played by some of the big teams of Canada. The Royals of New Westminster, British Columbia, holders of the Lord Minto Cup, is an aggregation which has held together for years and includes some of the best exponents of the game. They have traveled from West to East and across the Atlantic, always drawing immense crowds wherever they have played. From a purely amateur team of townsmen they have become a household word in the world of sport, and British Columbians are rightly proud of them. Lacrosse in Summer is akin to ice hockey in Winter to Canadians.

During the cooler months in Hawaii the game should be quite practicable. Anyway, the 25th Infantry are going to give it a good try-out, and Lieut. Rich has got hearty support in the movement. Lacrosse is a good, clean game and should receive the endorsement of all sports enthusiasts in Hawaii.

Burnsides Win

The Burnside baseball nine defeated the City Hall team last evening at the Beacon Hill grounds by a score of 13 to 7. Geary pitched for the winners and Northcliffe for the losers.

McKENZIE CUP FINAL ON BOWLING GREENS

The final in the McKenzie Cup competition will be played today on the Beacon Hill bowling greens between the cup holders, Messrs. J. Yates and T. W. Sturgeon, and Messrs. G. Mowatt and J. B. Warnicker. Yesterday the draw for the Stewart Cup for novices was announced as follows: W. D. Lumley vs. J. Alexander, W. J. Brown vs. G. Malcolm, D. S. McCannell vs. W. Chambers, J. V. Boyd vs. W. H. Cullin, W. Lothier vs. A. A. Clayton, A. Sword vs. T. Nettles.

CRICKET MATCHES IN PLENTY TODAY

Cricketers Resume Their Activity on Saturday Afternoons—Size of Cricket Ball Said to Vary.

Mt. Tolmie Ground—Victoria vs. University Incogniti, 2 o'clock.

Jubilee Hospital—Victoria 2nd XI. vs. "Five C.'s," 2 o'clock.

Beacon Hill—Civil Service A. A. vs. "Nomads," 2:30 o'clock.

Beacon Hill—Albion vs. Oak Bay, 2:15 o'clock.

Although the season of the Island Cricket League has come to an end, the cricket grounds of Victoria will resume their wonted appearance this afternoon, many of the clubs having engagements. The soldiers have been playing matches between themselves during the week in the intervals of their training, but to these the public cannot be admitted for obvious reasons. Accordingly interest today will centre chiefly in the Albion match against Oak Bay at Beacon Hill Park and the contest between the University Incogniti and the Victoria club on the Mt. Tolmie ground.

It appears from some comments that have recently been made in The Field that balls of less than the regulation size, 9 inches in circumference are frequently to be found in use, giving the bowler considerable advantage. Everyone knows the variation the hand can distinguish between different balls, the differing degrees of hardness and of the roughness of the seam and professionals have been seen often ridging up the seam with their thumb nail to ensure a better grip. It is a nice point which the M. C. C. may well take up and give a ruling on as to the use of a guage, but the depth of the seam will be hard to legislate for.

Teams for Today

Victoria 1st XI.—H. A. Goward (capt.), A. Martin, J. W. D. York, G. C. Grant, D. Gillespie, H. A. Collison, R. M. Hebden, G. L. Wright, A. Booth, T. H. Hayward, A. F. Mitchell.

Wants Jones to Manage

ST. LOUIS, Aug. 14.—With James Gilmore, president of the Federal Baseball League, in town today, and dispatches from Portland, Ore., reporting Fielder Jones en route to meet Gilmore here, rumors were current that Jones might replace Miner Brown as manager of the local Federal team. Gilmore declined to discuss the rumors, but declared Jones was a "good man."

AUSTRALIA LEADS IN DAVIS CUP MATCHES

Brookes and Wilding Win Doubles in Straight Sets From McLoughlin and Williams—Final Singles Today

FOREST HILL, N. Y., Aug. 14.—In a doubles match that ran from sensational to mediocre tennis, Norman E. Brookes and Anthony F. Wilding defeated Maurice E. McLoughlin and T. C. Bundy in straight sets, 6-3, 8-6, 9-7, here this afternoon putting the Australasians in the lead for the Davis Cup by two matches to one.

The final contest for the trophy will be played tomorrow and to retain possession of the cup McLoughlin must defeat Wilding and Williams must defeat Brookes in the singles, a feat which experts predict is most unlikely.

The Australasian victory was well earned and without a flaw. The team work of the visitors was that of master racquet wielders who thoroughly understand each other's play and tactics, both at net and on the deep court.

The Australasians, after their victory in the doubles, expressed confidence in their ability to win at least one of two singles matches and thus clinch possession of the cup. In the American camp it was conceded that the only hope of a successful defence of the trophy lay in the possibility of Williams defeating Brookes by an exhibition of superior tennis in the opening match and thus putting the question of retaining the championship directly to McLoughlin in the final contest against Wilding.

The visiting players have made arrangements to leave for Australia as soon as possible after tomorrow's game and expect to take the cup back with them.

NARVESON IS HARD HIT BY CHAMPIONS

Beavers Come Back on Bees With Terrible 11-1 Beating—Delmas Scores a Count for Victoria.

Victoria	52	71	.423
Tacoma	51	75	.405
Ballard	47	76	.382

VANCOUVER, B. C., Aug. 14.—Just when the Spokane and Seattle fans were looking for Vancouver to tumble back into second or third place after two decisive defeats by the Victoria Bees, the champions hoisted the ball to distant parts of the field today and amassed the grand total of 11 runs. Narveson was the victim and what they did to the good looking youth who hurled for the opposition is best related in the box score.

Hunt pitched great baseball and seemed to be in his old form today. Four hits were all that he allowed. The Bees bunched three in the third inning, Delmas doubling and scoring on Hoffman's single to centre, and one run resulted. In the sixth the Bees secured another hit. The rest of the time Hunt had them in the palm of his glove and in seven innings out of the nine sent them down in one, two, three order.

SHAMROCK IV. ON HER WAY BUT WON'T RACE

NEW YORK, Aug. 14.—Sir Thomas Liphon'sShamrock IV is on her way from Bermuda, and after her arrival, which probably will be on Sunday, she may put on her racing rig and undergo a tuning up, but there will be no races this year for the America Cup, for which she is the challenger.

This was decided today when the New York Yacht Club received from the Royal Ulster Yacht Club a cable message expressing agreement with the local club's opinion that because of war conditions in Europe the cup matches should go over for a year.

CANADIAN ALL-ROUND ATHLETIC CHAMPION

Knox Defeats Crambe for World's Title in Varied Events at Manchester, England

TORONTO, Aug. 14.—James G. Merrick this morning received a cable from W. R. Knox, of Orilla, who is head coach for the British Olympic team, announcing the results of his meeting with Crambe for the world's professional all-round title.

The contest took place at Manchester on Tuesday of this week. Knox won six of the eight events—sprints, hurdle, shotput, pole vault, discus and broad jump.

Crambe beat him in the high jump and the hammer throw.

This gives Knox the professional all-round championship of the world.

The weekly practice shoots of the Esquimalt Gun Club will be resumed on Sunday next, the 16th inst., at 10 a.m., on the club's grounds, Admirals Road, Esquimalt. All trap shooters are advised to get in as much practice as possible in view of the big events to be held on Labor Day and nearness of the sporting season.

GERMAN BATTLE-CRUISER GOEBEN

Which, together with the Breslau, has taken refuge in the Dardanelles. She is of 22,635 tons displacement, was built in 1911, and develops a speed of 25½ knots. Her armament consists of ten 11-inch and twelve 5.9-inch guns, and she is plated with 11-inch armor.

INDIA STEAMED FIVE DAYS WITHOUT LIGHTS

C. P. R. Liner Unaware That War Existed Until Informed by Russia at Sea—Slipped Into Straits in Fog.

By unexpectedly slipping into port yesterday afternoon, the Canadian Pacific liner Empress of India evaded being intercepted by belligerent warships when completing her voyage from the Orient.

From the skipper down, everybody on board was under the impression that they might be overhauled by the German cruiser Leipsiz, which, having been made aware of the Empress of India's movements, was yesterday reported steaming up the coast from San Francisco. Until the Empress of India picked up a wireless message from the outbound liner Empress of Russia in mid-Pacific, all aboard were totally unconscious of the fact that war had been declared between Great Britain and Germany. The same radiogram imparted the information that a German warship was prowling around in North Pacific waters. From that moment every precaution was taken, and the order was telegraphed below for a full head of steam for the remainder of the voyage.

Expected Trouble

"We fully expected to encounter trouble before we reached port," said Captain A. J. Hailey, R. N. R., in discussing the final dash for the entrance of the Straits. "We were totally unaware that war had been declared until informed by the operator of the Empress of Russia, and I can tell you we were prepared for anything.

"For the last five days, the India forged ahead with all her lights covered, and on the last night out we took no chances and even dispensed with the usual running lights.

"When, shortly after daybreag, we found ourselves enveloped in fog, we were mightily pleased, as our movements were completely and effectively obscured."

Give Straits Wide Berth

Captain Halley does not think that the Leipsiz or any other German cruiser would attempt the passage of the Straits. "I am convinced that the Germans would stand out to sea in the hope of pouncing upon an unprotected merchantman in order to secure her coal.

"To a certain extent martial law prevailed on the India after we received the startling message from the Russia at sea.

"You can easily understand that great excitement reigned among the passengers when it became known that there was a possibility of the ship being intercepted.

"All were assured that there was no need for alarm.

"For once the fog was of great assistance to us, and we slipped into the Straits without sighting a foreign man-of-war."

Some excitement was caused among those on board when a dead whale was sighted and thought to be a submarine. As the fog temporarily lifted when the India was passing at Tatoosh, a vessel was sighted astern with dense smoke belching from her stack. So convinced were the officers of the India that she was a belligerant ship that extra speed was developed as the India shot into the Straits. The vessel turned out to be a coaster, and the men of the India claim that the joke is on them.

DALBEK LOSES CHARTER

German Vessel Is First of Grain Fleet to Have Charter Canceled

PORTLAND, Aug. 14.—Cancellation of the charter of the German bark Dalbek, now in port, to load grain at Portland for the United Kingdom was announced by M. H. Houser, who engaged her several weeks ago. She is the first of the Portland grain fleet to lose her charter as a result of the war.

The Dalbek arrived in the river from Santa Rosalia in ballast July 28. She moored at Linnton, and was to have come to the local harbor to begin taking on grain for the outward trip. It is understood that following the outbreak of war the charterer has the option of canceling a contract to load a vessel if she flies the flag of a country involved in the hostilities.

When a hydroaeroplane fell into Swedish waters a submarine boat dived under it and brought it to shore uninjured.

LORD DUFFERIN FIXED

British Freighter Coming to Hastings Mills to Load Lumber for Australia

The British steamer Lord Dufferin has been chartered to load a cargo of lumber at Hastings Mills for Australia. She is expected to reach here toward the latter part of September to go on berth.

The Lord Dufferin is at present on passage from Newport News to San Diego with coal for the American Government. This is the first steam charter announced for the Hastings Mills for some time.

PROTESILAUS TAKEN

Blue Funnel Steamship Will Reach Port Tonight From Comox

Mr. H. B. Davenport, agent for Dodwell & Company, announces that the Blue Funnel liner Protesilaus has again been placed under charter by the Canadian Naval Department. She left Vancouver at midnight for Comox to load coal, and will reach Esquimalt late tonight. As a result of the charter, the September 2 sailing of the Protesilaus has been cancelled.

BIG SCHOONER GOES ASHORE ON COAST

Inbound Empress Picked Up Wireless Stating That Large Three-Masted Craft Was Stranded.

As the Empress of India was nearing the entrance to the Straits early yesterday morning she picked up a wireless message from Tatoosh which stated that a large three-masted schooner was ashore on the Washington coast two miles north of the old mouth of Quillayute. This point is on the Washington coast in the latitude of Destruction Island. The news was relayed to Flattery by the United States life-saving tug Snohomish, which reported that she was proceeding to the assistance of the stranded schooner. The identity of the vessel was not known. It is presumed that the schooner went ashore in the dense fog which enveloped the coast early yesterday morning. The Victoria tug Lorne left port in a hurry yesterday afternoon and was sighted by the Empress of India steaming at top speed for the Straits. It is considered probable that the Lorne left with the object of rendering some assistance to the stranded ship.

INSURANCE RENEWED ON LINER MINNESOTA

No Change in Rate as Quoted Last Year by Underwriters—Osaka Shosen Kaisha Gets Reduction.

The insurance on the transpacific liner Minnesota, owned by the Great Northern Steamship Company, which operates between Puget Sound ports and the Orient, was renewed in London just before the war scare.

The huge liner is valued at $1,625,000, and the rate paid is 6 3-10 per cent, which is the same rate as the policy now running, but for the new policy, provision has been made for a rate of 5 5-20 per cent, if underwriters have only to pay the excess of $25,000 on all claims, with the exception of total loss.

The insurance is affected on the new American form policy, but the clause stipulating that the insurance of disbursements shall be limited to 10 per cent of the whole is deleted, so that the owners will be able to make up the value by insuring disbursements at a cheap rate.

It is reported that the Hill interests are planning to dispose of the Minnesota, and that she may soon be seen flying the British flag.

O. S. K. Gets Reduction

The fleet of the Osaka Shosen Kaisha has been renewed for 1914-'15 at a reduction of ¼ per cent, compared with the rate paid on policies now running.

There is also a small reduction in some of the values. The terms of the insurance are that the underwriters only pay the excess of 3 per cent for particular average. Last year the rate was 3½ per cent, but this year the insurance has been put through at 3¼ per cent.

Wireless Is Suspended

NEW YORK, Aug. 14.—Greece has suspended the use of wireless telegraphy by ships in her territorial waters, according to an announcement made today by the Commercial Cable Company.

The first oil producing well in Venezuela recently was bored.

SAILINGS RESUMED BY CUNARD COMPANY

Preliminary Schedule Issued by Premier British Transportation Concern—Ocean Routes Reported Clear.

With Great Britain in undisputed command of the high seas the indications are that Atlantic and Pacific shipping will soon be resumed on the usual schedules maintained by the British companies before all Europe was plunged into war. The Cunard Company leads the way. Through its various agents on this Coast the Cunard Line makes the definite announcement that Atlantic sailings have been resumed. As a number of the larger boats of the Cunard Line have been chartered by the British Admiralty, the service will be maintained by what vessels are not required, and with this end in view a preliminary schedule has been arranged.

The preliminary schedule is as follows: Saxonia leaves New York, August 15, for Liverpool. Laconia leaves New York, August 19, for Liverpool. Campania leaves New York, August 26, for Liverpool. Andania leaves Montreal, August 29, for London. Franconia leaves Boston, September 1, for Liverpool. Ascania leaves Montreal, September 5, for London. Alaunia leaves Montreal, September 10, for London. Laconia leaves Boston, September 15, for Liverpool. Franconia leaves Boston, September 29, for Liverpool.

High Seas Clear

The first of these sailings becomes effective today, and the very fact that the Cunard Line has decided to resume sailings clearly indicates that no trouble is feared from the few German warships that are wandering aimlessly off the Atlantic and Pacific coasts.

It is expected that other British transportation concerns will follow the lead of the Cunard Line by announcing the resumption of sailings.

But for the fact that several of the C. P. R. liners on the Pacific have been taken over by the Admiralty, the war has not seriously affected the movements of shipping on this ocean. All the big liners have been leaving about on schedule, and have not been molested.

DEPARTURE INDEFINITE

Sailing of C. P. R. Steamship Monteagle for the Orient Is Now Posted for Today

Word was received last night by Mr. L. D. Chetham, C. P. R. passenger agent, that the steamship Monteagle would not reach Victoria before noon today on her way out to the Orient. There is just a possibility that the Monteagle may be still further delayed.

A large number of British, French and German sailing vessels are now at sea bound for San Francisco, Portland and Puget Sound.

FAST PASSAGE MADE BY C. P. R. EMPRESS

India Crosed From Yokohama to Victoria in Eleven Days Eighteen Hours—To Be Fitted With Guns.

The liner Empress of India, Captain A. J. Halley, R. N. R., which reached port at 5:30 o'clock yesterday afternoon, completed one of the fastest passages from the Orient that has been made by any of the C. P. R. two-stackers since the Empress of Japan made her memorable voyage in 10 days 10 hours.

The Empress of India crossed the Pacific from Yokohama to Victoria, port to port, in 11 days 18 hours.

She was fully a day ahead of the time set for her arrival, and this is attributed to the fact that she traveled at forced speed during the final stages of the voyage. Having been detained in the Orient by the Japanese quarantine regulations, the Empress of India was three days late in clearing Yokohama. Splendid weather conditions marked the run across until the Vancouver Island coast was sighted, when fog shut down, but failed to materially affect the speed of the ship. The India poked her nose inside Tatoosh about noon, and took up her berth at the Outer Docks after a smart run up the Straits.

Light Saloon List

The liner brought twenty-eight saloon passengers and fifty Chinese in the steerage, while her valuable Oriental cargo included a big shipment of raw silk.

The saloon list was as follows: Mr. J. C. Anderson, Mrs. Anderson, Dr. J. Armitage, Miss Anne Cobb, Rev. T. W. Cook, Mr. A. David, Mrs. Denbigh and child, Mr. E. Grieve, Mr. G. A. Kirk, Mr. L. S. Kirtland, Mr John Knight, Mrs. Knight, Mr. C. Lesbirel, Mrs. Lesbirel, Mr. J. Martin, Mrs. Martin, Miss F. L. Nichols, Mr. Alfred Owre, Mr. H. Rapp, Dr. H. F. Smith, Mrs Smith, Mr. S. Weiss, Mr. P. H. Wootton, Surgeon E. L. Atkinson, R. N.; Mr. S. Welsford, Mrs. Welsford and Miss Welsford.

To Have Guns Fitted

Captain Halley states that upon his return to the Orient he expects the Empress of India will be fitted at Hongkong with her eight 4.7 guns and six machine guns. This is the armament carried by her when fitted out as an auxiliary cruiser. The Empress of Asia and Empress of Japan are being so converted, and will make formidable vessels for the protection of merchant shipping.

HARRISON BOATS COMING

Crown of Seville and Historian Ordered to Proceed to Destination

Information has been received by Mr. Harold S. Cove, representative for Balfour, Guthrie & Co., agents for the Harrison Direct Line, that the steamships Crown of Seville and Historian, now on passage to this Coast from the United Kingdom, will be sent through to their destination. The Crown of Seville is due at San Pedro about August 23, and will reach Victoria at the end of the month. The Historian sailed from Liverpool on July 25, and by this time is due at Santos, Brazil, where she is under orders to take on large consignments of sugar for North Pacific ports.

Other sailings from Liverpool are indefinite, and it is improbable that the liner Statesman will get away from the Mersey as scheduled.

ABOUT THE METEOR FLAG OF OLD ENGLAND

Nova Scotia Clergyman Pens a Striking Article, Drawing a Lesson From the Arrogant Pride of Germany.

The arrogant pride of Germany has drawn her into conflict with the world's great powers. Her shady diplomacy, tricky subterfuge and cunning manoeuvres prior to the open declaration of war have lost her the respect of all nations. Germany has broken faith with Europe in a manner almost akin to treachery, and all the dramatic speeches of the Kaiser, his loud protestations of innocence and the assertion that he has "grasped the sword with clean hands" are mere froth and gush easily detected by all who have eyes to see, writes Rev. Harold T. Roe in Halifax Chronicle.

Great Britain had no other alternative but war. Her alliance with France and her faith with Russia demanded it. England's honor was at stake, and never in all the records of her national history has that honor been allowed to fall.

It is a fortunate thing that in this most fateful hour of all her destiny England has at her disposal the services of men like Asquith, Grey and Churchill. Lord Kitchener, as Secretary of War, is a tremendous asset to the Empire. He is no figure head official, but a practical man of affairs who has acquired his military knowledge on many a hard-fought field in numerous campaigns.

Sir John French, who is in command of the field forces, has held the post of inspector-general of the forces since 1907. The present efficiency of the regular army is largely due to his splendid efforts and great organizing abilities. "Tommy Atkins" puts supreme confidence in him, and is prepared to "swear by French." There was no general in the British army who came through the South African war with greater credit than the present commander-in-chief, Sir John French.

The Empire's navy is considered by those in authority to be in first-class fighting condition. For some years now England has maintained what is called the "Two-Power Standard," and thus she has two ships to every one of Germany. Events so far go to show that Great Britain's part in the mighty conflict will be largely naval warfare, and the world awaits to see if the Jack Tar of today has the splendid dash and courage, pluck and venture which made the days of Rodney, Blake and Nelson great and glorious and unfurled the British flag in every breeze.

All sober-minded, right-thinking men hate war with a bitter hatred. The blood shed and the slaughter, the pathos and the tragedy, the widows and the orphans are fearful things to contemplate. But when British freedom is threatened and her national honor is at stake—her sons and daughters with united voice declare that they are ready, if not eager, to pay the heavy price.

As an Englishman of not quite four years' residence in Canada it stirs and thrills my heart to see how this Dominion, with the utmost heartiness and grandest loyalty, has demonstrated to the world her entire readiness to give her men and money to the dear old land—the Mother of us all.

Old England's sons are English yet,
Old England's hearts are strong;
And still she wears her coronet
Aflame with sword and song.
As in their pride our fathers died,
If need be, so die we;
So wield we still, gainsay who will,
The sceptre of the sea.

During the late South African war the British Empire gave the world an unrivaled object lesson in steadfastness and unity. It is this matchless bond of union which constitutes today both our glory and our strength. Ireland may almost reach the point of civil war; India and South Africa manifest unrest; Canada may grumble at Churchill for meddling with Canadian affairs; Australia and New Zealand have their little points of difference; but the instant danger points its finger at yonder little island set in the silver sea; our quibbles cease, discussion ends and we present before the world a mighty Empire bound with the cords of unity and pulsating with patriotic loyalty and love. To adapt the words of Merivale:

Men may whisper that our arm is weak,
Men may say our blood is cold,
And that our hearts no longer speak
That clarion note of old;
But let the spear and sword draw near
The sleeping lion's den,
Our entire Empire starts once more
To life, with armed men.

So is it now. God grant it may ever be.

FAR EASTERN FLEETS

Naval Strength of British and Other Fleets in Far Eastern Waters

A recent issue of The Hongkong Telegraph contains a list of the British and other naval squadrons in the Far East. The British fleet consists of the battleship, two first-class cruisers, one second-class cruiser, six torpedo boat destroyers, twelve gunboats, seven submarines and several other small craft. France has two armored cruisers, four destroyers, two submarines and four gunboats. Germany has two first-class cruisers and three of the second class and seven gunboats. Portugal has one cruiser and two gunboats on the Pacific, while the United States has seven protected cruisers, five torpedo boat destroyers, four submarines and four gunboats.

MAY FORFEIT CHARTER

Owners of British Steamer River Forth Order Ship to Remain at Portland Indefinitely

PORTLAND, Aug. 14—War in Europe has brought a load of worry to the officers of the British steamship River Forth, which is tied up at the elevator dock awaiting orders from the owners as to when it will be safe to leave for the open sea. Captain C. T. Hilder is uneasy for fear that the vessel may lose her charter; Albert Robinson, the first officer, married in Dublin last October, does not know when he will be able to go home, and Chief Engineer J. S. Pithie has a suspicion that his next voyage will be on the matrimonial sea.

Unless the River Forth manages to arrive at Bellingham on or before August 31 she will lose her charter.

NAME IS CHANGED

Vessel Raised After Being Submerged Over a Year to Be Known as Crockett

The name of the steamer H. J. Corcoran has been changed to Crockett. This steamer was sunk in collision with the steamer Seminole in a dense fog off Angel Island, San Francisco Bay, a year or two ago. She later was raised, thoroughly overhauled, and new boilers installed at a cost of over $60,000.

MARAMA AND NIAGARA DETAINED AT HONOLULU

Northbound Canadian-Australian Liner Made Wide Detour With Her Lights Covered

HONOLULU, Aug. 14.—The Union Steamship Company's liner Marama, from Australia to Vancouver, arrived here today, two days late. She had made a wide detour with her lights out and her port holes shrouded. By order of the British Admiralty, she will remain here until further notice. The Niagara, of the same line, bound in the opposite direction, also was held by the Admiralty.

LAST GRAIN CHARTER

German Bark Hebe Fixed Before the Declaration of War

SAN FRANCISCO, Aug. 14.—The British steamer Cloughton has arrived at Los Angeles with a cargo of Argentine corn, and the British steamer Anglo-Californian has arrived here in ballast from Iquique. Both vessels are under charter to Balfour, Guthrie & Co., for barley to the United Kingdom.

The last grain charter made before the outbreak of the war and just made public was the German bark Hebe at Mollendo. She was taken to load wheat at Portland or Tacoma at 30s in December, or 29s 6d in January. It is not known who took her.

WAR CAUSED CHANGE IN STEERAGE RATES

MONTREAL, Aug. 14.—An immediate result of the European war is the change in steerage rates which has already gone into effect on one or two steamship lines, though, so far, there is no alteration reported by any of the lines running vessels to Canadian ports. The changes to date have been made by the Red Star and Holland-American Lines, which have boosted their eastbound third-class rates from $20, at which figure the companies sold tickets to the nearest ports on the continent, to $34. As travel of all kinds is practically at a standstill, these changes will have no noticeable effect and will have nothing whatever to do with the Atlantic steamship pool, which is, of course, now non-existent. Third-class passengers wishing to get to Europe, it is claimed by the companies, will just as readily pay the higher as the lower rates. The $20 rate is, by the way, only to Antwerp, which, in all probability, will be the only port to which liners will run.

While all the Canadian lines are continuing to sell tickets excepting the Canada Line, which has suspended operations, the Hamburg-American has issued orders that no tickets are to be sold to any point, the war thus completely paralyzing the company's business. The Hamburg-American Line, however, intend to keep their offices here open, awaiting developments. Every day means a loss of hundreds and thousands of pounds to this gigantic line, which employs almost as many Americans as Germans.

Trouble in Albania

ROME, Aug. 15.—Serious troubles in Albania are causing anxiety. Insurgents are threatening Durazzo and Valonna.

Austrian Moratorium

VIENNA, Aug. 14.—The Austro-Hungarian moratorium, affecting private debts, was extended till September 30.

Mrs. Dawson Released

PORTLAND, Ore., Aug. 14.—Mrs. Johanna Dawson, who has been held in jail as a witness since her husband died of poisoning on July 15, was released today, when the grand jury returned a verdict exonerating her.

Luxemburgers Would Fight

PARIS, Aug. 14.—The Havas Agency announces that the French Foreign Minister has received a petition from 335 subjects of the Duchy of Luxemburg, who ask to enroll in the French army as a proof of their sympathy for France and as a protest against the German violation of the independence of their country.

Supported entirely from a horse's collar, a new feed bag permits an animal to have the free use of its head.

TO HOLBERG—Princess Maquinna

TO COMOX—Charmer.

REVIEW OF TRADE

NEW YORK, Aug. 14.—Dispatches to Dun's Review from branches in the leading trade centres of Canada say that, while general trade, so far, does not appear to be very much affected by the war, anticipation of higher prices has caused active buying in certain lines.

Montreal reports business seasonably quiet, but as yet little disturbed by conditions in Europe, although uncertainty appears to be growing. Groceries are in active demand owing to expectations of advances in prices, and about the same can be said regarding leather and hides. Dry goods are in moderate demand both at wholesale and retail, but large Government orders have stimulated activities at textile mills and footwear factories.

Merchants at Toronto are pursuing a waiting policy, and business in all lines except those in which higher prices are anticipated is quiet. There is, however, much confidence in the future, and the prevailing feeling appears to be that, with a clearing in the situation, there will be a revival of activity in many lines.

There is very little change at Hamilton, and all departments tend to quietness.

The situation in the Far West and Northwest continues encouraging, for, while crops will be somewhat less than last year, it is expected that values will be greater, owing to the hostilities in Europe.

At Winnipeg reports are that, while merchants appear to be conserving their cash resources as much as possible, business is in well maintained volume and in some cases shows moderate improvement over a year ago.

There was a better feeling at Calgary owing to the advance in the prices of grain and cattle due to the war, and as the crop is expected to be large, merchants expect an active Fall business.

Harvesting is under way in the vicinity of Saskatoon, and, while the crop yield will not be up to the average, prices are higher than for several years.

The declaration of war has caused some uneasiness at Vancouver and occasioned a strong demand for groceries, provisions, etc., but conditions have become more settled and business has returned to its normal volume.

Gross earnings of all Canadian railroads reporting to date for the first week in August show a decrease of 13.3 per cent as compared with the earnings for the same roads for the corresponding period a year ago.

Commercial failures in Canada this week numbered forty-seven, as against fifty-seven last week and thirty-eight the same week last year.

IN THE EXCHEQUER COURT OF CANADA, BRITISH COLUMBIA ADMIRALTY DISTRICT.
HARRY GILLESPIE, Et Al., Plaintiff
VS.
THE SHIP ALLIANCE, NO. 2., Defendant

In obedience to a Commission of Sale issued out of this Honorable Court, I will cause to be sold by Public Auction on Wednesday, the 19th day of August, 1914, at the hour of 12 o'clock noon, the ship "Alliance, No. 2," together with all her equipment, at Newton & Greer's Wharf, foot of Johnson Street, Victoria. Terms of sale cash, 10 per cent to be paid to the Marshal on the fall of the hammer, balance forthwith, all costs occasioned by delay to be paid by the purchaser. The Inventory of the said ship and any other particulars may be obtained at the office of the Marshal, 404 Jones Building, or at the office of Edwards & Fuller, Auctioneers, 1119 Fort St., Victoria, B. C.

Dated at Victoria, British Columbia this 11th day of August, A. D., 1914.

HINKSON SIDDALL,
Marshal, Exchequer Court of Canada, British Columbia Admiralty District.
Edwards & Fuller, Auctioneers.

LIQUOR ACT, 1910

(Section 19)

NOTICE is hereby given that, on the 20th day of August next, application will be made to the Superintendent of Provincial Police for the grant of a license for the sale of liquor by wholesale in and upon the premises known as the Victoria Phoenix Brewing Co., Ltd., situate at 1921 Government Street, Victoria, upon the lands described as Lots 651, 652, 653, 654, 655, Block K, Victoria City.

Dated this 20th day of July, 1914.

THE VICTORIA PHOENIX BREWING CO.,
Jno. F. Dickson, Sec.-Treas.,
Applicant.

To Owners of Vacant Lots in the City and District

All owners of vacant lots who are willing to place their property at the disposal of people out of work, without charge, for the purpose of enabling them to raise garden produce or anything else that will help to secure these people a little income, are requested to forward particulars to the undersigned immediately. These lots will be dealt with by a special committee appointed for this purpose.

HERBERT CUTHBERT,
Industrial Commissioner.
Board of Trade Building.

To Persons Out of Work and With Some Gardening Experience

All persons who are desirous of cultivating vacant lots for the purpose of raising for themselves garden products or flowers, in return for the use of the land, are requested to forward written applications, stating their circumstances, to me immediately. Please do not call, but put your applications in writing.

HERBERT CUTHBERT,
Industrial Commissioner.
Board of Trade Building.

To Owners of Vacant Or Farm Lands

Are you willing to assist in the movement to encourage the raising of more livestock, such as sheep, hogs, poultry, goats, etc., and of farm and garden products? If so, please notify me of the amount of land on the Southern portion of Vancouver Island, or the adjacent Islands, you are willing to lease for one or two years for this purpose. No charge will be made for any service rendered by this office. The leases will be dealt with by a committee of citizens appointed for this purpose.

HERBERT CUTHBERT,
Industrial Commissioner.
Board of Trade Building.

All Persons Desiring to Secure a Lease of Land

For the purpose of raising sheep, hogs, poultry, goats or other livestock, and the production of garden or farm products, are requested to notify me in writing, as early as possible, with the amount of land they require, what they propose to raise, what money they have available, and any other particulars, and of the length of time the lease is wanted, not to exceed two years. Applicants who are out of work and with limited means will be given every consideration. No charge made by this office for our services. Do not call personally, send your applications in writing.

HERBERT CUTHBERT,
Industrial Commissioner.
Board of Trade Building.

Sealed tenders addressed to the undersigned, and endorsed "Tender for Public Building, Prince Rupert, B. C.," will be received at this office until 4 p. m., on Monday, July 6, 1914, for the construction of the Public Building above mentioned.

Plans, specification and form of contract can be seen and forms of tender obtained at the offices of Mr. G. B. Hull, District Engineer, Prince Rupert, B. C.; Mr. Wm. Henderson, Resident Architect, Victoria, B. C., and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank payable to the order of the Honorable the Minister of Public Works, equal to ten per cent (10 p. c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.
Department of Public Works, Ottawa, June 5, 1914.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.—62588.

LAND ACT

Victoria Land District, District of Esquimalt

TAKE NOTICE that Arthur Lineham, of Victoria, B. C., occupation, retired broker, intends to apply for permission to lease the following described foreshore lands:

Commencing at a post planted at the southeast corner of Section 55, Esquimalt District, set on high water mark, thence running south 63 east for a distance of seven hundred (700) feet; thence north 31 east for a distance of 11.50 feet more or less to an intersection with the northern boundary of Section 55 produced easterly; thence north 71.20 west following the production of said boundary of Section 55 produced for a distance of seven hundred (700) feet, more or less, to high water mark on Royal Bay, thence following said high water mark in a southerly direction to the point of commencement, and containing eighteen (18) acres more or less.

Dated July 8th, 1914.

Solicitor for W. H. Adam, Assignee.
ELLIOTT, MACLEAN & SHANDLEY,
Solicitors for Charles Watson.
ROBERT E. NOBLE,
Applicant.

NOTICE TO CONTRACTORS

Tenders will be received at the office of the Board of School Trustees, on or before 4 o'clock p.m. of Tuesday, August 11th, 1914, for the erection and completion of a Public School Building on the corner of King's Road and Work Street.

Drawings and specifications may be seen at the office of the undersigned.

The Board of School Trustees do not bind themselves to accept the lowest or any tender.

Each tender is to be accompanied by a marked cheque, payable to the Board of School Trustees, for an amount equal to 5 per cent of the total amount of the tender.

The cheque will be returned to the Contractor and also to the unsuccessful tenderers, when a contract has been entered into and a satisfactory bond provided.

In the event of the successful tenderer refusing to enter into a contract when called upon so to do, the deposit cheque will be forfeited to the Board of School Trustees.

A separate tender will be required for the heating and ventilating.

C. ELWOOD WATKINS,
Architect.

I. E. LOWE,
Secretary Ladysmith School Board.
Box 163, Ladysmith, B. C.

SPECIAL SURVEYS ACT

MUNICIPALITY OF SAANICH

Pursuant to the provisions of Section 8 of the "Special Surveys Act."

Notice is hereby given that the plan of the Special Survey of Block "B," Section 29, Lake District, authorized on 27th day of November, 1913, for the purpose of correcting errors or supposed errors in respect of existing surveys and plans of said Block "B," or any portion thereof, and of plotting land not heretofore subdivided, and of showing the divisions of any portion of such land of which the divisions were not shown on any plan of subdivision, together with a tabulated list of occupied or improved lands the boundaries of which appear as altered by the said plan of Special Survey, and also a statement of the costs incurred by such survey showing in what proportion they are taxed against the Municipality and against the lands affected thereby, has been filed with the Honorable the Provincial Secretary, and that the said plan will be submitted for the approval of His Honor the Lieutenant-Governor in Council; and that any complaints that may be made against such special survey or plan by any person interested in the property thereby affected will be heard by Alan S. Dumbleton, Esquire, Barrister-at-law, in the County Court Room at the Court House in the City of Victoria, on Monday the 24th day of August next, at the hour of 10:30 o'clock in the forenoon.

Dated this 30th day of July, 1914.

W. J. BOWSER,
Attorney-General.

Statement of Costs above referred to:

Proportion to be borne by the Municipality in respect of the area of land contained in streets and lanes	$ 60.00
Proportion to be taxed against the owners in respect of the lots or land	388.45
Total	$448.45

Certificate No. 255.

BRITISH COLUMBIA RAILWAY ACT. Chapter 194, R. S. B. C., 1911.

CANADIAN NORTHERN PACIFIC RAILWAY.

The Canadian Northern Pacific Railway Company having submitted, in accordance with the provisions of Subsection (2) of Section 174, Chapter 194, British Columbia Railway Act, R. S. B. C., 1911, plan showing elevations and details in connection with the proposed frame trestle to be used at the following point on the Patricia Bay Branch of the Canadian Northern Pacific Railway Company, Vancouver Island:

Proposed frame trestle over Brett Street at Station 772, Mile 0.6, and having applied for approval thereof, and the said plan, elevations and details having been approved by me,

I DO HEREBY, in pursuance of the provisions of Subsections (2) and (3), Section 174, British Columbia Railway Act, R. S. B. C., 1911, issue to the Canadian Northern Pacific Railway Company this certificate of approval of the plan, elevations and details aforesaid.

IN WITNESS WHEREOF I have hereunto set my hand and seal this 29th day of July in the year of Our Lord One Thousand Nine Hundred and Fourteen.

RICHARD McBRIDE,
For Minister of Railways.

Certificate No. 251.

BRITISH COLUMBIA RAILWAY ACT Chapter 194, R. S. B. C., 1911.

CANADIAN NORTHERN PACIFIC RAILWAY.

The Canadian Northern Pacific Railway Company, having made application to me, under the provisions of Subsection (1), Section 152, Chapter 194, British Columbia Railway Act, R. S. B. C., 1911, for the permission to cross, with the track of their Patricia Bay Branch, the track of the British Columbia Electric Railway Company (Saanich Peninsula Branch), at Station 79+98.6, Mile 13.7 by a level crossing, and having submitted in accordance with the requirements of Subsection (2), Section 152, of the above mentioned Act, a plan and profiles of the respective tracks in the vicinity of the proposed level crossing, together with plan of the interlocking plant which is to be installed for the efficient protection of the said level crossing, and the said plan and profiles having been approved by the respective Railway Companies, above mentioned, and having also been approved by me,

I DO HEREBY, in virtue of the authority vested in me by Subsections (a) and (f) of Subsection (3) of the above referred to Section, issued my certificate granting the application of the Canadian Northern Pacific Railway Company to cross the track of the aforementioned British Columbia Electric Railway Company at Station 79+98.6, Mile 13.7 (Patricia Bay Branch), subject to the condition that the material and work devices connected therewith shall be furnished and carried out, and thereafter operated and maintained in compliance with the orders of the Chief Engineer of the Department of Railways and to his entire satisfaction.

IN WITNESS WHEREOF I have hereunto set my hand and seal this 29th day of July in the year of Our Lord One Thousand Nine Hundred and Fourteen.

RICHARD McBRIDE,
For Minister of Railways.

Certificate No. 252.

BRITISH COLUMBIA RAILWAY ACT Chapter 194, R. S. B. C., 1911.

CANADIAN NORTHERN PACIFIC RAILWAY.

The Canadian Northern Pacific Railway Company having submitted, in accordance with the provisions of Subsection (2), of Section 174, Chapter 194, British Columbia Railway Act, R. S. B. C., 1911, plans showing elevations and details in connection with the proposed frame trestles to be used at the following points on the Main Line of the Canadian Northern Pacific Railway Company, Vancouver Island:

(1) Frame Trestle over Butler Street, Station 146+149, Mile 2.75,

(2) Frame Trestle across Portage Avenue, Station 233+04.3, Mile 4.1.

(3) Frame Trestle across Wilkinson Road, Station 210+970, Mile 4.

And having applied for approval thereof, and the said plans, elevations and details having been approved by me,

I DO HEREBY, in pursuance of the provisions of Subsections (2) and (3), Section 174, British Columbia Railway Act, R. S. B. C., 1911, issue to the Canadian Northern Pacific Railway Company this certificate of approval of the plans, elevations and details aforesaid.

IN WITNESS WHEREOF I have hereunto set my hand and seal this 29th day of July in the year of Our Lord One Thousand Nine Hundred and Fourteen.

RICHARD McBRIDE,
For Minister of Railways.

WATER NOTICE

USE AND STORAGE

TAKE NOTICE that Arthur Lane, M. Harding-Finlayson, and His Grace the Duke of Sutherland, whose address is Cowichan Bay, will apply for a license to take and use 3,500 gallons per day and to store 8,000 gallons of water which flows north and drains into Cowichan Bay. The storage-dam is located at Spring. The capacity of the reservoir to be created is about 8,000 gallons, and it will be used for domestic purposes upon the lands described as Ranges VI. and VII., part of Sections 4 and 5 as shown on plan. This notice was posted on the ground on the 12th day of August, 1914. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Victoria.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

M. HARDING FINLAYSON,
For Applicants.

LAND ACT

Form No. 11—Form of Notice

Victoria Land District, District of North Saanich, B. C.

Take notice that Lambert O. Paterson, of Victoria, occupation, retired, intends to apply for permission to lease the following described lands: Commencing at a post planted at high water mark northwest corner, Lot 10, Sec. 20, R. III, marked L. O. P., northeast corner, thence running west 660 feet, thence south 127 feet, thence east to shore and along shore in a northerly direction to point of commencement.

LAMBERT O. PATERSON.
Dated August 1, 1914.

WATER ACT, 1914

BEFORE THE BOARD OF INVESTIGATION.

In the matter of all streams in the North Saanich, South Saanich, Highland, Lake, Victoria, Esquimalt, Goldstream, Metchosin, Sooke, Otter and Renfrew Land Districts, and in the matter of all streams in the Malahat Land District which drain into Juan de Fuca Strait or into Finlayson Arm of Saanich Inlet.

A meeting of the Board of Investigation will be held at the office of the Board, Parliament Buildings, Victoria, on the 25th day of August, 1914, at 10 o'clock in the forenoon, when all claims to water rights or privileges on the said streams which have been filed, all objections thereto, and the plans prepared for the use of the Board will be open for inspection.

All persons interested are entitled to examine these, and to file objections thereto in writing if they deem fit.

At this meeting claimants who have not previously done so shall prove their title to the lands to which their water records are appurtenant. This may be done by producing, in case of Crown-granted lands, the title deeds or a certificate of encumbrance or in the case of lands not held under Crown grant, by producing the pre-emption record, the agreement of sale, the mining record, or other documents of title.

Objections will be heard forthwith if the party objected to has received sufficient notice of the objection.

The Board at the said meeting will determine the quantity of water which may be used under each record, the further works which are necessary for such use, and will set dates for the filing of plans of such work and for the commencement and completion of such works.

And whereas there may be persons who, before the 12th day of March, 1909, were entitled to water rights on any of the said streams and yet have not filed statements of their claims with the Board of Investigation, such persons are required to file on or before the 17th day of August, 1914, at Victoria, before the hour set for the meeting, a statement as required by Section 294 of the "Water Act, 1914." Forms (No. 50 for irrigation, and No. 51 for other purposes), may be obtained from any Government Agent in the Province.

Dated at Victoria, B. C., the 11th day of July, 1914.

For the Board of Investigation,
J. F. ARMSTRONG,
Chairman.

The water rights maps and the tabulation of records will be open for inspection at [illegible] on and after the 17th day of August, 1914.

ENGLISH COACH TO HANDLE YALE AGAIN

Coming on Heels of Yale's Victory This Summer Decision Indicates Adoption of English Stroke.

NEW YORK, Aug. 14. — Captain Bayne Denegre, of the Yale University crew for next year, has announced that after consultation with the graduate rowing committee, he had arranged with Guy Nickalls, of England, again to coach at Yale, and that the same stroke taught by Mr. Nickalls last year will be taught to both the university and freshmen crews next season.

Captain Denegre also announced that he has arranged with Eugene Giannini to again join Mr. Nickalls in the coaching of Yale teams.

Mr. Nickalls will arrive in New Haven about October 1, for a period of six weeks, and be in New Haven in the Spring from February until the race. Mr. Giannini will be at New Haven all through the college year.

There is much significance in Capt. Denegre's announcement. On the surface it would seems to indicate a fixed purpose in New Haven, to give the English style a test to the finish. Nothing is said as to the rigging of the boats, but there is little room for doubt that Nickall's ideas as to this are also to prevail. That both crews are to row under Nickall's domination makes it clear that the Yale management is well satisfied with the results of the season just past.

FIELDER JONES WILL RETURN ON MONDAY

The following telegram received in Portland from Fielder Jones, who is in St Louis, is explanatory—or otherwise—of his plans: "Home Monday. Make statement then. Nothing to say now."

If one were gifted in reading between the lines, one could either make out that Jones had become part owner in the St. Louis Federals and will manage the club next year, or that he has turned down the offer and will remain with the forces of organized baseball.

There is one bit of information contained, and that is that he will be home on Monday.

'According to a telegram from Vancouver, Pitcher Chapman has been turned back to the Victoria club by Deacon White, of the Edmonton club, and has joined the Bees at Vancouver.

San Francisco has sent Wayne Barham, the young pitcher who was with Victoria part of last year, over to Ogden. As the Union Association has broken up and Ogden is trying to peddle its players, it is hard to understand why Barham is wanted there. In order to hold the players, Salt Lake and Ogden will finish out the season playing exhibition games.

AUCTION SALE

Under Instructions, We Will Sell at Our Rooms,

716 Johnson St.
Today, 2 p. m.

BRITISH COLUMBIA RAILWAY ACT. Chapter 194, R. S. B. C., 1911

CANADIAN NORTHERN PACIFIC RAILWAY.

The Canadian Northern Pacific Railway Company having submitted, in accordance with the provisions of Subsection (2) of Section 174, Chapter 194, British Columbia Railway Act, R. S. B. C., 1911, plan showing elevations and details in connection with the proposed structure to be used at the following point on the Vancouver Island Line of the Canadian Northern Pacific Railway Company:

Riverside Crossing of Cowichan River at Station 3,871, Mile 74.5 and having applied for approval thereof, and the said plan, elevations and details having been approved by me,

I DO HEREBY, in pursuance of the provisions of Subsections (2) and (3), Section 174, British Columbia Railway Act, R. S. B. C., 1911, issue to the Canadian Northern Pacific Railway Company this certificate of approval of the plan, elevations and details aforesaid.

IN WITNESS WHEREOF I have hereunto set my hand and seal this 29th day of July in the year of Our Lord One Thousand Nine Hundred and Fourteen.

RICHARD McBRIDE,
For Minister of Railways.

NOTICE

REGISTRATION OF BIRTHS, DEATHS AND MARRIAGES.

The office of the Deputy Registrar of Births, Deaths and Marriages has been removed to the basement of the new West Wing of the Parliament Buildings, Room 1, entrance from Menzies Street.

H. E. YOUNG,
Provincial Secretary.
June 27, 1914.

VERNON WANTS BOUT WITH JOHNNY O'LEARY

Monte Attell, the famous bantamweight boxer, is now managing "Tex" Vernon, of Aberdeen, and writes as follows:

"I would like to match "Tex" Vernon, the featherweight champion of the Northwest, with Johnny O'Leary, the lightweight champion of Canada. This is one match I would like to get, as I am positive that Vernon can beat O'Leary. I have boxed with Vernon twice and have sparred with O'Leary in the gymnasium, and I am confident that, should O'Leary consent to a match with "Tex," we will come out on the long end."

CANADA WILL COMPETE AT EXPOSITION SPORTS

TORONTO, Aug. 14.—J. G. Merrick, president of the Canadian Olympic committee, who has just returned from Europe, states that it is altogether likely that the games to be held at San Francisco next year will be used as an objective for elimination trials in the different branches of sport in Canada as a test of Canadian athletic material. The following year a team of between forty-five and sixty men will be selected to represent the Dominion in the Olympic games.

So far, nine clubs have entered C. C. in the selection of men: Track and field athletics, rowing, swimming, cycling, boxing, wrestling and shooting.

Saturday's Cricket

The Five C's Cricket Club will play the Victoria B's at 2 o'clock this afternoon, on the Jubilee Hospital grounds. The team will be picked from the following players: P. C. Payne, N. Rant, H. Greely, W. H. Carr, E. Fosbury, Geo. Nichols, J. Feakins, B. Butler, W. Lamb, L. Houghton, J. Richards, R. Whitson, A. Stevens, and Mr. Jones.

BELGIUM FEELS WAR'S SCOURGE

Continued From Page 1

not fallen. During the night the city assumed the aspect of a graveyard, the silence being broken only by the distant thunder of heavy guns or the tread of German patrols.

"All doors in the city must be kept wide open. The Germans compel the bakers to turn over the entire product of the bakeries to the army every morning, and while the inhabitants go hungry, the soldiers cook meals in the streets. The streets are barricaded and the Germans show recklessness in scouting in the neighborhood of the forts."

Wounded in Crowds

A dispatch from Brussels states that the stories of numbers of Germans killed in yesterday's fighting vary a great deal, the lowest estimate being 1,000 and the highest 4,000.

"We returned to Louvain," wires one correspondent, "amid continued scenes of warlike enthusiasm, the soldiers and peasants surrounding our car and insisting on shaking hands.

"Here, again, the first question asked was, 'Where are the British?'

"At Louvain we found the King in consultation with the general staff. His Majesty was dressed in a general's field uniform and looked confident and smiling.

"The roads leading into Brussels tonight were crowded with a mournful procession of Red Cross wagons, bringing in the wounded, both Belgians and Germans. Walking by the sides of the carts, comforting the sufferers, were numerous priests and monks wearing the Red Cross badge. The scene was piteous and moved all beholders to tears. Soldiers returning to the front were greated along the road by innumerable women and children, who handed them bottles of wine, bread and meat, and did not forget to be repaid with a kiss."

TURKEY LIKELY TO HAVE WAR

Continued From Page 1

ably will demand an explanation as to the future use of these ships, and also warn Turkey that she will not allow the equilibrium of the lower Mediterranean to be threatened, as Italy is determined to prevent complications."

A dispatch to the Exchange Telegraph Company from Athens says: "King Constantine at the suggestion of Premier and Minister of War Venizelos, has called a conference of all former premiers and party leaders to determine the attitude of Greence in the face of Turkey's purchase of the cruisers Goeben and Breslau from Germany."

A Reuter news agency dispatch from Paris says advices received here from the Dardanelles declare that, contrary to the statement of the Turkish Government, the German flag has not been lowered on the German cruisers Goeben and Breslau nor have their crews been landed since their arival in Turkish waters.

A combined parcel carrier and folding stand, which may be attached to any bicycle, has been patented.

An American automatic telephone system has been established in Simla, the Summer capital of India.

To Cure Catarrhal Deafness and Head Noises

Persons suffering from catarrhal deafness and head noises will be glad to know that this distressing affliction can be successfully treated at home by an internal medicine that in many instances has effected a complete cure after all else has failed. Sufferers who could scarcely hear a watch tick have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear.

Therefore, if you know someone who is troubled with head noises or catarrh, or catarrhal deafness, cut out this formula and hand to them and you will have been the means of saving some poor sufferer perhaps from total deafness. The prescription can be prepared at home and is made as follows:

Secure from your druggist 1 oz. Parmint (Double Strength), about 75c worth. Take this home, and add to it ¼ pint of hot water and 4 oz. of moist or granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

The first dose promptly ends the most distressing head noises, dullness, cloudy thinking, etc., while the hearing rapidly returns as the system is invigorated by the tonic action of the treatment. Loss of smell and mucus dropping in the back of the throat are other symptoms that show the presence of catarrhal poison, and which are quickly overcome by this efficacious treatment. Nearly 90 per cent of all ear troubles are directly caused by catarrh; therefore, there are but few people whose hearing cannot be restored by this simple home treatment. Every person who is troubled with head noises, catarrhal deafness, or catarrh in any form should give this prescription a trial. There is nothing better.

Important—In ordering Parmint always specify that you want Double Strength; your druggist has it or he can get it for you; if not, send 75c to the International Laboratories, 74 St. Antoine St., Montreal, P. Q., who make a specialty of it.

PLENTY OF PLAYERS FOR SENIOR SOCCER

Ranks of First Division in Local Football Will Not Be Depleted by War—Preston Strong.

An inquiry into the prospects for the local 1914-'5 soccer football season does not show any reason for fear that there will be a shortage of players on account of the war. As far as can be learned the senior division stands to lose only two or three players of outstanding merit in case the volunteers now engaged in home defence are not able to play. The second division will be hardest hit, for several of the most promising of the younger players have volunteered for service in Europe and quite a number of others are with the home forces.

Indications are that the senior division will include all of last year's teams, together with the Sir John Jackson Club, which played intermediate football in 1913-'4. The Jacksons, whose ranks were swelled by many of the best athletes of Victoria during the Summer months, have been counting on fielding a first-class football eleven and, unless they lose considerable strength by a lessening of the number of men employed by the company consequent upon the war, they ought to cut a formidable figure in the "round-ball" sport in the coming season.

This evening a meeting of the council of the British Columbia Football Association will be held at Rendall's rooms. Delegates are expected to be present from all the principal Mainland centres. The chief business will be the consideration of the constitution, which is to be finally adopted if the various sections can come to an agreement.

Next Wednesday evening a meeting of the local association will be held at the same place to outline plans for the coming season.

That Preston are determined again to figure in the Old Country first division football is quite evident. They have signed on a lot of promising players, and in order to bring them out, they have engaged Jack Bell, the old Everton international, as coach.

Bell, who, by the way, has just returned from Canada, where he has been following his occupation as engineer, has had plenty of experience, for after leaving Everton he acted as coach to the Celtic Club for a couple of seasons.

If any young player fails to "make good" at Preston, it will be his own fault, for what Jack Bell doesn't know about football is not worth learning.

Some eleven years ago Southampton, who had then a very fine side, toured in the Argentine, and practically initiated the natives in the finer points of the game.

Later visits from Everton, Corinthians, Notts Forest, and Swindon helped on the missionary work.

When it was learned that Exeter City were to tour in the Argentine in the close season and carry on the good work, those who are jealous of the fair game of English football were somewhat perturbed, for they feared the West of England team was in for a rude awakening.

Latest mail advices from Buenos Ayres have confirmed their worst fears, for though Exeter City in their opening match were opposed by a weak side of the Argentine Association, they were ingloriously defeated and guyed by the local critics because of the crude and unprofitable football they served up.

Indeed, these writers state that if Exeter City is a fair sample of the teams the visit of an Argentine side to England would be in the nature of a triumphal march.

BANK BUSINESS ACTIVE

Many Bills Discounted by Bank of England—Dividend Payments Increase Supplies

LONDON, Aug. 15.—The Bank of England again today discounted heavily bills of all classes and all dates, at 5 per cent and upwards. The joint stock banks loaned and discounted lightly on yesterday's terms.

Large sums were disbursed in accumulated dividends, and floating supplies were thus increased. Bankers are of the opinion that it will be unnecessary to prolong the moratorium beyond September 4, but are not yet fully assured.

It is estimated here that £20,000,000 sterling will accumulate at Ottawa on behalf of the Bank of England.

C. P. R.'s are quoted at 161 today.

WOMAN EXECUTED

Young and Beautiful Native of Switzerland Falls Martyr to Her Sympathy With France

GENEVA, Aug. 14.—Mme. Favre Schwarz of Basle, a young and beautiful Swiss lady, married to one of the richest men in Alsace-Lorraine, was shot today after a court martial. She was accused of attempting to blow up an important tunnel on the railway line near Leopoldsthall.

Mme. Schwarz made no secret of her intense French sympathy. Having been found guilty and sentenced to death, she shouted "Vive la France." She died with this cry on her lips. She was well known in the best cosmopolitan society circles, not only of Basle, but also of Berlin.

Servians Defeat Austrians

LONDON, Aug. 14.—A Rome official, in a message from Nish, the temporary capital of Servia, states that a violent engagement has been fought at Banjaluka, Bosnia. The Austrians were repulsed with great loss. Many Austrian soldiers declined to march. The Servians occupied nine villages in Bosnia. The Austrians are erecting fortifications on the River Save.

Concentration Complete

LONDON, Aug. 14.—The Daily Telegraph's Athens correspondent cables: "I was informed by the Russian Legation today that the concentration of Russian forces on the Galician frontier has been completed and an offensive movement is imminent. This movement will [illegible] with the action of the Servian army on the Danube."

The Montenegrin army is [illegible] with the Servians in the [illegible] of Bosnia.

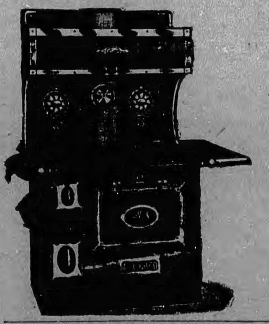
Why Not Buy a New Range While Prices Are Low?

BUYING a Range is not an every-day affair, and it's not very day that we can offer them to you at such low prices. That's just the reason why you should make the best of this money saving opportunity. We have a large stock of the most reliable qualities on the market and can offer you during this sale some extraordinary bargains, for instance:



The Spencer Diamond

Is a range that's well known, and one that always gives perfect satisfaction. A range easy to clean, having square lines and smooth nickel finish. The body is of rolled steel lined with asbestos and steel inside again to protect it. **This insures a conservation of heat and means economy of fuel.** The firebox has heavy castiron linings and duplex grates for wood and coal, which are easy to remove and replace. A splendid reliable baker. Size with 19-inch oven. Regularly sold at $40.00. August sale price, coil or water front extra **$34.75**

—Third Floor.

Late Shipment of Fancy Flowered Crepes

35c to 50c Values To Clear at 25c

A LITTLE late in the season for these to arrive, so to make an extra quick sale we are instructed to clear them out at from one-third to one-half below regular prices.

This gives you a splendid chance to secure an extra Dress or Blouse length, for this season's wear, and in fact the price is low enough to warrant your laying to one side a length for next Spring. Call and inspect these new, pretty designs. They are in neat floral effects. Values sold in the usual way at 35c to 50c. For quick selling, today, per yard **25c**

—Main Floor

Ice Creams

Pineapple, Loganberry, Raspberry and Vanilla. Delicious and wholesome. Served in Tea Room.

—Second Floor

Afternoon Tea

Butter and Toasted Scones and nice selection of Fancy Cakes and Cream Pastry. Each **25c**

—Second Floor

New Fall Boots for Men

THE new Fall styles in Men's Footwear are here awaiting your inspection. This season we have taken the greatest of care in the selection of our stock, and we believe that each range of shoes will appeal to you on the grounds of quality and style.

Our Famous $5.00 Shoes

Come in a nice range of styles and leathers, as the following particulars prove:

Smart Lace Boot in mahogany and black calf; English last, medium heavy oak tanned soles.

Dark Brown Calf Blucher Boot, heavy double waterproof sole, leather lined, also in black. A good marching boot or for Winter wear.

Gunmetal Calf Blucher Boot, in a variety of new lasts; medium heavy sole, drill or leather lined.

Vici Kid Blucher Boot. A real comfort shoe, fitted inside with "cushion insole." Smart last, medium heavy sole.

Smart Dress Shoe with patent vamp and soft dull kid top, drill lined with "cushion insole." A dressy shoe for evening wear.
